

Corporate collapse: accounting, regulatory and ethical failure

Frank L. Clarke, Graeme W. Dean and Kyle G. Oliver

*Second edition, Cambridge University Press, Melbourne 2003,
xxviii and 383pp.*

This Volume is the second edition of a work which first appeared in 1997. Although it escapes comment from the authors, it is significant that they have reordered the subsidiary title from the hitherto “regulatory, accounting and ethical failure” to lead with “accounting” failure, appropriately, given that this is the dominant theme, as it was in the first edition.

Moving past the title page, the most substantial change in this new edition is the addition of two chapters dealing with the “new millennium”, extending the previous coverage which finished with the 1980s. The resulting 19 chapters comprise (i) a mixture of essays on various aspects of financial reporting, and (ii) case studies consisting of micro-histories of corporate collapses, although there is considerable overlap between these genres through the essays frequently referring to actual corporate failures and the reiteration of essay themes in the case studies.

Part I, subtitled “accounting in crisis – a farce to be reckoned with” consists of a pair of essays. The first, “chaos in the counting house”, outlines the extent, impact and unexpectedness of corporate failures in Australia, the US and UK. In the following chapter, “creative accounting – mind the GAAP”, the suddenness of these corporate collapses is attributed to misconceived accounting standards which allowed companies to report healthy profits and receive unqualified audit reports at the same time as their real financial positions were deteriorating to the point where failures were inevitable.

Corporate Collapse Accounting Regulatory And Ethical Failure

Kiyemet Tunca Caliyurt, David Crowther

Corporate Collapse Accounting Regulatory And Ethical Failure:

Corporate Collapse Frank Clarke, Graeme Dean, Kyle Oliver, 2003-04-07 This revised edition of Clarke Dean and Oliver's provocative book tells why accounting has failed to deliver the truth about a company's state of affairs or to give warning of its drift towards failure A number of well known cases of corporate collapse from the 1960s to the 1990s and beyond are studied and the recent HIH and One Tel collapses are examined Corporate Collapse is essential reading for professional accountants and auditors company directors and managers regulators corporate lawyers investors and everyone aspiring to join their ranks

Corporate Collapse Frank L. Clarke, 2003

Corporate Collapse Frank L. Clarke, 1997 When financial statements paint a rosy picture of a company one day and the same company announces massive losses the next it can only be assumed that fortunes haven't actually changed overnight This provocative book tells why accounting has failed to deliver the truth about a company's state of affairs or to give warning of its drift towards failure In this lively and readable book the authors balance broad interpretation and recommendations for reform with fine detail of particular cases insightful analysis of contemporary practices and dissection to the pervading commercial rhetoric The failures examined include Reid Murray in the 1960s Cambridge Credit in the 1970s and Bond Corporation Holdings in the 1980s They show that the cult of the individual in media coverage of those of affairs has masked serious endemic problems in the system of reporting financial information Corporate Collapse is essential reading for professional accountants and auditors company directors and managers regulators corporate lawyers investors and everyone aspiring to join their ranks

Corporate Collapse F. L. Clarke, G. W. Dean, K. G. Oliver, 1997-08-14 This provocative book investigates the role of accounting in the sudden collapse of companies which were apparently reaping healthy profits Why has accounting failed to reveal companies true financial position or warn of impending collapse Examining a number of well known cases from the last three decades the authors argue that there are serious problems inherent in the system of reporting financial information In a lively and highly readable book the authors balance broad interpretation and recommendations for reform with fine detail of particular cases

Corporate Accounting in Australia Michael Gaffikin, Ron Dagwell, Graeme Wines, 2004 Corporate Accounting in Australia Fourth Edition is a textbook designed for one or two semester company accounting courses at both under and postgraduate level

Accounting and Regulation Roberto Di Pietra, Stuart McLeay, Joshua Ronen, 2013-11-05 Since 1998 the world's leading experts on accounting and regulation have convened in a series of workshops to explore and analyze emerging issues in the field They have covered a wide array of topics including corporate governance auditing financial disclosure international standards boards and the dynamics of markets and institutions Most recently they have focused on the role that accounting practices and policies may have played in the global financial crisis of 2008 In this volume the editors showcase contributions from the workshops that represent the full spectrum of issues and perspectives relating to accounting and regulation Each paper incorporates the most current examples and references to reflect the latest insights

with an emphasis on exploring future implications for theory and research practice and policymaking Private Equity, Corporate Governance and the Dynamics of Capital Market Regulation Justin O'Brien, 2007 Addresses the implications of private equity for the governance of corporations the capital markets in which they operate and the professionals who provide corporate advisory services Justin O'Brien from Charles Sturt University The Unaccountable & Ungovernable Corporation Frank Clarke, Graeme Dean, Matthew Egan, 2014-03-21 The Corporation is a major vehicle of business activity worldwide It incurs social costs and generates benefits that continually change hence whether it still provides a net benefit to society is contestable Evidence based observations of the last decade of corporate sagas and the role of accounting and auditing suggests a serious rethink is needed about how commerce is pursued and in particular whether the current corporate form has passed its use by date The authors of this new book including internationally renowned accounting scholars argue that the two major governance tools of accounting and auditing require major makeovers Beginning by analyzing the global sweep of deregulation that corporations experienced since 2000 the authors go on to discuss the various scandals and crises that characterized the subsequent period culminating in yet more calls for further deregulation Having thoroughly assessed the status quo they provide a series of urgent recommendations for reforms designed to bring the corporation back to the real world and restore its purpose This book will be of great interest to students and academics across accounting business law and finance especially more advanced students at undergraduate and postgraduate level

Globalization and Social Responsibility Kiymet Tunca Caliyurt, David Crowther, 2008-12-11 Over the last decade the question of the relationship between organisations and society has been subject to much debate often of a critical nature The decade has seen protests concerning the actions of organisations exposures of corporate exploitation and unfolding accounting scandals At the same time ethical behaviour and a concern for the environment have been shown to have a positive correlation with corporate performance The nature of corporate social responsibility is therefore a topical one for businesses and academics There are however many different perspectives upon what is meant by corporate social responsibility and how this might be applied within organisations This book explores some of these different perspectives based upon the experiences of different people in different parts of the world There has been much written about globalisation some of it positive and much of it negative It is a subject which arouses definite opinions Despite the fact that the word globalisation is part of the title of this book it is not our intention to contribute to this debate Instead we use the word globalisation in its original sense to represent the ubiquity of the concern for Corporate Social Responsibility CSR which is the subject matter of this book Specifically we are concerned with the social contract between an organisation and its stakeholders It is apparent that any actions which an organisation undertakes will have an effect not just upon itself but also upon the external environment within which that organisation resides In considering the effect of the organisation upon its external environment it must be recognised that this environment includes both the business environment in which the

firm is operating the local societal environment in which the organisation is located and the wider global environment. Effectively therefore there is a social contract between organizations and their stakeholders. Recognition of the rights of all stakeholders and the duty of a business to be accountable in this wider context therefore has been largely a relatively recent phenomenon. The economic view of accountability only to owners has only recently been subject to debate to any considerable extent. In the current environment there is a need to debate this issue and its implications. This book therefore recognises the international scope of the interest in corporate social responsibility both through the contributions made by the authors of the respective chapters who come from various parts of the world and also through the international importance of the perspectives offered by these contributors. In doing so the various authors demonstrate that corporations are a part of society just as much as each of us is as a individual. Furthermore they demonstrate that the issues and concerns are not local ones but are international in scope and concern us all. The contributions to this book provide a representation of the range of concern for this relationship and the range of topics which fall within the subject matter of CSR. Among the authors who have contributed to this book are representatives from every continent and from a wide range of disciplines. The topics which are considered in the various chapters are equally diverse.

Risk and Social Theory in Environmental Management Thomas Measham, Stewart Lockie, 2012-05-09 Risk and Social Theory in Environmental Management marks a timely contribution given that environmental management is no longer just about protecting pristine ecosystems and endangered species from anthropogenic harm it is about calculating and managing the risks to human communities of rapid environmental and technological change. Firstly the book provides a solid foundation of the social theory underpinning the nature of risk then presents a re thinking of key concepts and methods in order to take more seriously the biophysical embeddedness of human society. Secondly it presents a rich set of case studies from Australia and around the world drawing on the latest applied research conducted by leading research institutions. In so doing the book identifies the tensions that arise from decision making over risk and uncertainty in a contested policy environment and provides crucial insights for addressing on ground problems in an integrated way.

The Taxation of Corporate Groups Under Consolidation Antony Ting, 2013 Antony Ting presents the first comprehensive comparative study of the tax consolidation regimes adopted in eight countries.

Independent Directors in Asia Dan W. Puchniak, Harald Baum, Luke Nottage, 2017-11-02 The first in depth analysis of the independent director in Asia who they are what they do and how they are regulated.

Emotions in Finance Jocelyn Pixley, 2004-11-23 Publisher Description *Creative Accounting, Fraud and International Accounting Scandals* Michael J. Jones, 2011-11-01 Business scandals are always with us from the South Sea Bubble to Enron and Parmalat. As accounting forms a central element of any business success or failure the role of accounting is crucial in understanding business scandals. This book aims to explore the role of accounting particularly creative accounting and fraud in business scandals. The book is divided into three parts. In Part A the background and context of creative accounting and

fraud is explored Part B looks at a series of international accounting scandals and Part C draws some themes and implications from the country studies **Charting Corporate Corruption** Peter Fleming, Stelios C.

Zyglidopoulos, 2009-01-01 In the post Enron era corporate corruption has increasingly featured on the research agenda This informative book provides a novel approach by charting the actual causes of corruption This highly topical volume demonstrates how agency the decisions and choices of individuals and structure the contextual pressures in the business environment can interact to result in the rapid escalation of corporate crime and corruption By analysing and describing the social psychological dimensions of this escalation the book prescribes preventive measures that can be adapted and implemented by business organizations Loaded with case studies and prospective solutions Charting Corporate Corruption will be valuable to post graduates studying business ethics sociology and psychology and to researchers seeking new theories and concepts in this field **Corporate Insolvency Law** Vanessa Finch, 2009-05-28 This interdisciplinary examination of corporate insolvency law assesses recent reforms and anticipates new legislation *The Moral Foundations of Social Institutions* Seumas Miller, 2010 Seumas Miller provides an exciting new philosophical theory of contemporary social institutions and the ethical challenges they confront **Reframing Corporate Governance** Javier Reyes, 2018 This stimulating book offers an astute analysis of corporate governance from both a historical and a philosophical point of view Exploring how the modern corporation developed from Ancient Rome and the Middle Ages up to the present day Javier Reyes identifies the strengths and weaknesses of the mainstream theory of the firm as put forward by the law and economics school of thought Social Computing in Homeland Security: Disaster Promulgation and Response Ding, Amy Wenxuan, 2009-03-31 This book presents a theoretical framework addressing how to enhance national response capabilities and ready the public in the presence of human made or natural disasters Provided by publisher **Understanding the Sociology of the Accounting Profession** Jasvinder Sidhu, Soma Pillay, Mahesh Joshi, 2023-06-30 This book presents the first non European and non North American comprehensive study explaining failures of key merger attempts by Australia s two leading accounting bodies It employs two complementary theoretical constructs namely boundary work and exclusiveness versus market control to explain the maintenance of professional boundaries in the Australian accounting profession In doing so it illustrates key historical developments in Australia s society economy and business world towards shaping the present structure and operations of the accounting profession and the remaining professional bodies at the national level

Corporate Collapse Accounting Regulatory And Ethical Failure: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the captivating narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Corporate Collapse Accounting Regulatory And Ethical Failure : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and gripping novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
