Manslaughter and Corporate Homicide Shivam Goel, 2015-06-26 A corporation is an artificial legal person existing only in the contemplation of law having perpetual succession and common seal Can a corporation commit crime for its inability to form mens rea If yes then can it be accused of crimes as grave as homicide Even post the Bhopal Gas Tragedy and the Uphar Cinema Tragedy absence of legislation such as the Corporate Manslaughter and Corporate Homicide Act 2007 UK is no less a pity Absolute liability theory coupled with deep pocket theory though is an improvisation over the strict liability theory but has failed to ensure corporate criminal deterrence This book is an attempt to ponder over issues relating to corporate criminal behaviour in particular corporate homicide and corporate manslaughter **Homicide, Gender and Responsibility** Kate Fitz-Gibbon, Sandra Walklate, 2016-03-22 The crime of homicide has long animated academic debate community concern and political attention The discussion has often centered on the perceived inadequacy of legal responses to homicide questions of culpability and divergent representations of victims and offenders Within this notions of gender responsibility and justice are pivotal This edited collection builds on existing scholarship by examining these concerns not only in the context of the private world of domestic murder but also in the more public world of the state the corporation war and genocide In so doing this book draws from key frameworks of criminological thought legal analysis and empirical evidence to critically examine the relationship between homicide gender and responsibility Bringing together leading international criminology and legal scholars this collection provides a unique contribution to the academic and policy engagement with what is more often than not an ordinary and mundane crime Analysing the crime in a variety of different social contexts alongside an in depth and critical analysis of the interconnections between the ordinary act of lethal violence gender and notions of responsibility this book will be of interest to students scholars and policymakers working in criminology and socio legal studies *Student Handbook of Criminal Justice and Criminology* John Muncie, David Wilson, 2013-02-01 Written by some of the leading criminologists in the country this new title is a one stop shop for those who teach study or are interested in criminology and the criminal justice systems of the UK **Making Sense of Homicide** Adam Lynes, Elizabeth Yardley, Lucas Danos, 2021-01-15 The first dedicated textbook for Criminology students studying homicide As the authors explain criminal homicide is but one form of lethal violence victims may suffer leading them to describe a much broader range of scenarios Ranging from murder to manslaughter to State killings genocide and disasters involving victims of public policy corporate crime or shortcomings in health and safety Making Sense of Homicide re positions discussion of the topic for those wishing to see beyond routine media hype and ill informed popular discourse The

book also contains a special expert contribution by former Police Superintendent Ronald Winch about how the UK police investigate homicide including fundamental requirements and pitfalls The book ranges in scope from serial killing to mass and spree homicide and across the jurisdictions of the UK USA and other countries Also interweaved in this key resource are acutely observed accounts of the Holocaust capital punishment and homicide within a consumer society The authors explain the categories within which homicide is conventionally discussed as well as crimes of the powerful and those made opaque for political economic or other questionable purposes making the work one of immense value to anyone wishing to see violence through a new lens A hugely wide ranging explanation of homicide perfect for dedicated courses The book demonstrates how homicide definition stems from political cultural and societal choices and looks at the deficits in homicide classifications An entirely fresh look at the subject From the Foreword It is no small feat to offer such robust understandings of homicide A judicious and much needed collection at a time in which our existence is evermore enveloped by aspects of death despair and homicide in all its various malignant forms Professor David Wilson Authors Dr Adam Lynes Professor Elizabeth Yardley and Lucas Danos all teach at Birmingham City University one of the UK s leading centres of Criminology where their existing publications have attracted considerable acclaim Ronald Winch spent over 30 years in the police including investigating homicide and other serious major and complex crimes Together they bring straightforward and refreshing perspectives to a sometimes hard to understand and often disquieting topic

Transnational Corruption and Corporations

Simeon Obidairo,2016-02-11 What are the challenges to the prevention of transnational bribery by multinational corporations in international business transactions This book examines two particular constraints operating on the regulation of transnational corruption in general and bribery in particular Firstly it explores the limits of international cooperation in the regulation of transnational corruption and highlights the disparities between the capacities of individual states to pursue adequate regulation It also considers the role and progress of international bodies such as the OEDC and the response of selected domestic legal systems in tackling the problem Secondly the book examines the liability regime for corporations and again highlights an unexpected shortcoming of multilateral policy in the administration and enforcement of

international agreements The book will be of value both to students and researchers with an interest in the regulation of transnational corruption as well as policy makers and practitioners working in this area Murder and Society Peter Morrall,2006-10-02 Human psychological and physical well being is damaged and destroyed when people are deliberately killed by other people There are millions of primary and secondary victims of murder throughout the world and human society as a whole is a tertiary victim of murder Despite this people are often fascinated and engrossed by stories of homicide and killers This book provides a fascinating exploration of murder providing an insight into what leads people to kill and what effect this has on society as a whole This book is organized into five chapters that each answer a specific question on murder What is Murder Who Commits Murder Why Commit Murder Why is Murder Devastating Why is Murder Fascinating

Corporations and Criminal Responsibility Celia Wells,2001 Contemporary concern about technological hazards posed by business enterprises has intensified interest in the criminality of corporations Incorporating ideas from a wide range of literature the book argues that there is no magic answer to corporate power to issues of personal safety and their inter relationship with criminal law and justice The attention paid to corporate criminal liability by courts legislatures law reform bodies and international organizations has increased markedly in the past decade As in the first edition the book takes what might be called a panoptic approach to the subject Corporations and their susceptibility to criminal law are examined from sociological psychological philosophical and organizational perspectives as the book progresses This edition has been revised and updated to take account of the burgeoning scholarly literature Detailed analysis of judicial and legislative movements in England and Wales in other national jurisdictions and at the level of international organizations follows Two new chapters on corporate manslaughter and on comparative and international responses to corporate crime accommodate these changes The book is distinctive in combining legal analysis and discussion of law reform debates with a theoretical account of the relationship between legal institutions and the role of risk and blame in shaping criminal law and the practices of the criminal justice system **Reader's Guide to the Social Sciences** Jonathan Michie,2014-02-03 This 2 volume work

includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense The Handbook of Homicide Fiona Brookman,Edward R. Smith, Hogan, and Ormerod's Essentials of Criminal Law David Child Ormerod (John), 2025 *Homicide* Sara Skott, 2022-07-15 Homicide Towards a Deeper Understanding offers an in depth analysis into the phenomenon of homicide examining different types of homicide and how these types have changed over time Based on original analysis on Scottish data this book draws upon an international body of research to contextualize the findings in a global setting filling an important gap in the homicide literature pertaining to the relationship between trends in homicide and violence Examining homicide from gendered as well as Gothic perspectives this book also relates homicide to novel critical theory The book covers a thorough description of different types of homicide including sexual homicide and provides an explorative approach to the identification of homicide subtypes The book also explores how these findings relate to current homicide theory and proposes a new theoretical framework to gain a deeper understanding of this crime The main argument of the book is that if homicide and its relationship to wider violence is to be fully understood theoretically as well as empirically this crime needs to be disaggregated in a way that reflects the underlying data Overall this book therefore fills an important gap in criminological literature providing an in depth understanding of one of the most serious violent crimes **Corporate**
