Hearings United States. Congress. Senate. Committee on the District of Columbia, 1971 **THE POLICE OFFICER'S GUIDE TO CIVIL LIABILITY** Carl J. Franklin, 1993-01-01 For the first time a comprehensive text has brought together the major topics concerning police liability It is written from the perspective of a ten year police veteran written by a cop for cops

It will help the average cop understand and cope with a frightening area of today's society as well as help current and future police administrators understand how to deal with civil liability. Today's police officer is twenty times more likely to be sued than to be shot. Yet the average police officer has received a hundred times more training on fire arms use than in learning how to protect oneself from the civil lawsuit. With the number of lawsuits against individual officers and departments on the rise we can no longer ignore the need to educate ourselves against the threat of civil liability. This book acts as a road map of basic training to find the way through the labyrinth of our civil justice system. No other book attacks the problem of understanding the growing theories of police civil liability. Whether used in a college classroom, academy or personal library, this is must reading for every police officer working today. Those who arm themselves in this knowledge area can survive the horrendous attacks by money hungry litigants and will be better prepared to lead the law enforcement community into the next century.

The Forensic Examination Alberto M. Goldwaser, Eric L. Goldwaser, 2018-10-17. This book prepares the mental health professional to use scientific skills when working within a legal framework. Written by a seasoned forensic psychiatrist with decades of experience and professional honors, this text answers some of the most challenging questions psychiatrists face when mental health intersects with the courtroom. The text is supported with 34 case vignettes that demonstrate ways in which seemingly simple diagnoses have unique layers of complexities that are vital within the legal system. The resource covers topics that may not be elucidated in medical schools including what to expect from an expert witness, how to communicate with attorneys who lack a medical background, managing opposing viewpoints, psychiatric and medical malpractice, harassment, employment status and other difficult topics as it pertains to the law. The text also knits this understanding of forensic psychiatry with clinical knowledge, addressing violence and risk assessment, discrimination, disability evaluation, psychiatric disorders, criminal and civil competence, end of life care and decisions, and a wide array of medical topics that have unique concerns when placed in the context of the legal system. The Forensic Examination is a vital resource for psychiatrists, psychologists, criminal and civil defenders, and all professionals working with persons in the medicolegal system.

Independent Review of Police Officer and Staff Remuneration and Conditions final report Thomas P. Winsor, Independent Review of Police Officer and Staff Remuneration and Conditions, 2012-03-15. This Review has established that the police service is currently ill equipped to respond to possible and probable changes in increasingly specialised crime trends, political accountability, financial resources and the demographics of its workforce. This report covers reforms that may be introduced in the longer term. An earlier report on reforms that could be introduced in the short term published in March 2011 (Cm 8024 ISBN 9780101802420) and made recommendations for savings of 1.1 billion over 3 years, most of which are being implemented following a determination of the Police Arbitration Panel. This report makes recommendations which could realise gross savings of 1.9 billion, with 1.2 billion reinvested in policing. The 121 recommendations cover employment framework, entry route and promotion, health, fitness and managing the workforce, basic

pay contribution related pay and role based pay negotiating machinery Each chapter contains a recommended phased process for introduction The recommendations will provide the police service with the ability to attract and retain high calibre candidates with different skills and experiences to maintain operational resilience by maximising the deployment of fit and healthy officers and to manage office numbers according to need and in the public interest Entry into the police service and advancement within would be according to the sole criterion of merit The recommendations for reform of the pay review apparatus will have a profound effect establishing a well resourced professional pay review body ensuring that officers pay is determined on sound evidence
