**The Sino-Soviet Split** Lorenz M. Lüthi, 2010-12-16 A decade after the Soviet Union and the People s Republic of China established their formidable alliance in 1950 escalating public disagreements between them broke the international communist movement apart In *The Sino Soviet Split* Lorenz L thi tells the story of this rupture which became one of the defining events of the Cold War Identifying the primary role of disputes over Marxist Leninist ideology L thi traces their devastating impact in sowing conflict between the two nations in the areas of economic development party relations and foreign policy The source of this estrangement was Mao Zedong s ideological radicalization at a time when Soviet leaders mainly Nikita Khrushchev became committed to more pragmatic domestic and foreign policies Using a wide array of archival and documentary sources from three continents L thi presents a richly detailed account of Sino Soviet political relations in the 1950s and 1960s He explores how Sino Soviet relations were linked to Chinese domestic politics and to Mao s struggles with internal political rivals Furthermore L thi argues the Sino Soviet split had far reaching consequences for the socialist camp and its connections to the nonaligned movement the global Cold War and the Vietnam War The Sino Soviet Split provides a meticulous and cogent analysis of a major political fallout between two global powers opening new areas of research for anyone interested in the history of international relations in the socialist world

**Securing Japan** Richard J. Samuels, 2011-07-07 For the past sixty years the U S government has assumed that Japan s security policies would reinforce American interests in Asia The political and military profile of Asia is changing rapidly however Korea s nuclear program China s rise and the relative decline of U S power have commanded strategic review in Tokyo just as these matters have in Washington What is the next step for Japan s security policy Will confluence with U S interests and the alliance survive intact Will the policy be transformed Or will Japan become more autonomous Richard J Samuels demonstrates that over the last decade a revisionist group of Japanese policymakers has consolidated power The Koizumi government of the early 2000s took bold steps to position Japan s military to play a global security role It left its successor the Abe government

to further define and legitimate Japan's new grand strategy a project well under way and vigorously contested both at home and in the region. Securing Japan begins by tracing the history of Japan's grand strategy from the Meiji rulers who recognized the intimate connection between economic success and military advance to the Konoye consensus that led to Japan's defeat in World War II and the postwar compact with the United States. Samuels shows how the ideological connections across these wars and agreements help explain today's debate. He then explores Japan's recent strategic choices arguing that Japan will ultimately strike a balance between national strength and national autonomy a position that will allow it to exist securely without being either too dependent on the United States or too vulnerable to threats from China. Samuels's insights into Japanese history, society and politics have been honed over a distinguished career and enriched by interviews with policymakers and original archival research. *Securing Japan* is a definitive assessment of Japanese security policy and its implications for the future of East Asia. Global Power Shifts and Strategic Transition in Asia N. S. Sisodia, V.

Krishnappa, 2009. Papers presented at the 10th Asian Security Conference held at New Delhi on 4th February 2008.

*Electoral Reform and National Security in Japan* Amy Catalinac, 2016-01-25. This book argues that Japanese politicians pay more attention to security issues nowadays because of the electoral reform. *Japan Rearmed* Sheila A. Smith, 2019-04-08. Japan's U.S. imposed postwar constitution renounced the use of offensive military force but as Sheila Smith shows a nuclear North Korea and an increasingly assertive China have the Japanese rethinking that commitment and their reliance on United States security. Japan has one of Asia's most technologically advanced militaries and yet struggles to use its hard power as an instrument of national policy. The horrors of World War II continue to haunt policymakers in Tokyo while China and South Korea remain wary of any military ambitions Japan may entertain. Yet a fundamental shift in East Asian geopolitics has forced Japan to rethink the commitment to pacifism it made during the U.S. occupation. It has increasingly flexed its muscles deploying troops under UN auspices participating in coercive sanctions augmenting surveillance capabilities and raising defense budgets. Article Nine of Japan's constitution drafted by U.S. authorities in 1946 claims that the Japanese people forever renounce the use of force as a means of settling international disputes. When Prime Minister Shinzo Abe broke this taboo by advocating revision of Article Nine public outcry was surprisingly muted. The military once feared as a security liability now appears to be an indispensable asset called upon with increasing frequency and given a seat at the policymaking table. In *Japan Rearmed* Sheila Smith argues that Japan is not only responding to increasing threats from North Korean missiles and Chinese maritime activities but also reevaluating its dependence on the United States. No longer convinced that they can rely on Americans to defend Japan Tokyo's political leaders are now confronting the possibility that they may need to prepare the nation's military for war. **The United States and Asia**, 2001. Publisher Provided.

Annotation: The past 20 years have been a time of relative peace in Asia and notwithstanding the 1997-1998 financial crisis a period of robust economic growth as well. Currently however Asia is beset by a variety of problems that could well imperil the

stability it has long enjoyed including territorial disputes nuclear rivalry rising nationalist sentiments and increased military capabilities This report summarizes the manner in which the United States can best meet these challenges and thereby ensure continued peace and stability in the region In the interests of this goal the report outlines an integrated political military and economic strategy that the United States can pursue to inhibit the growth of rivalries in Asia and more broadly prevent the rise of instability in the region Also delineated are changes in U S military posture that will be made necessary by this strategy

**Japan Between Asia and the West** Ming Wan, 2016-07-08 Japan seeks economic competitiveness vis a vis the West and economic dominance in Asia but it mainly competes through cooperative use of economic resources which facilitates realization of the goals of partner nations This book studies Japan's balance between the United States and East Asia by focusing on the use of economic power defense spending consumption and investment to advance Japan's political and strategic as well as economic interests It also investigates Japan's direct use of economic resources namely aid and sanctions and by extension discusses Japan's relations with the International Monetary Fund the World Bank and the Asian Development Bank

**Oxford Handbook of the International Relations of Asia** Saadia M. **Protests Against U.S. Military Base Policy in Asia** Yuko Kawato, 2015-04-08 Since the end of World War II protests against U S military base and related policies have occurred in several Asian host countries How much influence have these protests had on the policy regarding U S military bases What conditions make protests more likely to influence policy Protests Against U S Military Base Policy in Asia answers these questions by examining state response to twelve major protests in Asia since the end of World War II in the Philippines Okinawa and South Korea Yuko Kawato lays out

the conditions under which protesters normative arguments can and cannot persuade policy makers to change base policy and how protests can still generate some political or military incentives for policy makers to adjust policy when persuasion fails Kawato also shows that when policy makers decide not to change policy they can offer symbolic concessions to appear norm abiding and to secure a smoother implementation of policies that protesters oppose While the findings will be of considerable interest to academics and students perhaps their largest impact will be on policy makers and activists for whom Kawato offers recommendations for their future decision making and actions

Shields of the Republic Mira Rapp-Hooper, 2020-06-09 Is America's alliance system so quietly effective that politicians and voters fail to appreciate its importance in delivering the security they take for granted For the first century and a half of its existence the United States had just one alliance a valuable but highly controversial military arrangement with France Largely out of deference to George Washington's warnings against the dangers of entangling alliances subsequent American presidents did not consider entering another until the Second World War Then everything suddenly changed Between 1948 and 1955 US leaders extended defensive security guarantees to twenty three countries in Europe and Asia Seventy years later the United States had allied with thirty seven In Shields of the Republic Mira Rapp Hooper reveals the remarkable success of America's unprecedented system of alliances During the Cold War a grand strategy focused on allied defense deterrence and assurance helped to keep the peace at far lower material and political costs than its critics allege When the Soviet Union collapsed however the United States lost the adversary the system was designed to combat Its alliances remained without a core strategic logic leaving them newly vulnerable Today the alliance system is threatened from without and within China and Russia seek to break America's alliances through conflict and non military erosion Meanwhile US politicians and voters are increasingly skeptical of alliances costs and benefits and believe we may be better off without them But what if the alliance system is a victim of its own quiet success Rapp Hooper argues that America's national security requires alliances that deter and defend against military and non military conflict alike The alliance system is past due for a post Cold War overhaul but it remains critical to the country's safety and prosperity in the 21st century

**Dwight D. Eisenhower National Security Conference**, 2002

*Future Trends in East Asian International Relations* Quansheng Zhao, 2014-03-18 The world has undergone significant change since the end of the Cold War One such development is that the Asia Pacific has become increasingly prominent in international affairs This comprehensive study provides a detailed understanding of key issues actors and future trends in the region

The Unpredictability of the Past Marc Gallicchio, 2007-08-21 Collection explores the formation and uses of memory about the Asia Pacific front of World War II considering how it continues to shape political and diplomatic discourse

**Japan's Security Renaissance** Andrew L. Oros, 2017-03-07 For decades after World War II Japan chose to focus on soft power and economic diplomacy alongside a close alliance with the United States eschewing a potential leadership role in regional and global security Since the end of the Cold War and especially since the rise of Prime

Minister Shinzo Abe Japan's military capabilities have resurged In this analysis of Japan's changing military policy Andrew L Oros shows how a gradual awakening to new security challenges has culminated in the multifaceted security renaissance of the past decade Despite openness to new approaches however three historical legacies contested memories of the Pacific War and Imperial Japan postwar anti militarist convictions and an unequal relationship with the United States play an outsized role In Japan's Security Renaissance Oros argues that Japan's future security policies will continue to be shaped by these legacies which Japanese leaders have struggled to address He argues that claims of rising nationalism in Japan are overstated but there has been a discernable shift favoring the conservative Abe and his Liberal Democratic Party Bringing together Japanese domestic politics with the broader geopolitical landscape of East Asia and the world Japan's Security Renaissance provides guidance on this century's emerging international dynamics

Facing Asia - Japan's Role in the Political and Economic Dynamism of Regional Cooperation Blechinger, Verena, Legewie, Jochen ,2000-05-04 Facing Asia examines the political and economic processes of regionalism and regionalization in Asia with a focus on Japan and Japanese actors The articles by eminent scholars address the forces that tie the region together They treat topics ranging from Japanese bilateral and multilateral ODA and the activities of state and non state actors on the regional level to issues such as Japanese multinational corporations foreign direct investment in Asia and regional financial institutions Methodologically the authors draw on disciplinary strengths in either the social sciences or economics while organizing their treatment around a shared political economic perspective By looking at Asia through an interdisciplinary lens the volume offers something to anyone interested in Japanese involvement in the politics and economics of the region In the final chapter the editors weave together the different approaches to Japan's place in Asian regional cooperation in the 1990s and beyond
