Insight Guides Greek Islands Insight,1990-07 The Chrysokamino Metallurgy Workshop and Its Territory Philip P. Betancourt,2006 This detailed report describes archaeological fieldwork conducted between 1995 and 1997 in rural northeast Crete Excavations were made in two locations a metallurgy workshop abandoned in EM III and a nearby rural habitation site perhaps a farmhouse used until LM III An intensive survey of the vicinity revealed other activities in the area from the Early Neolithic onwards and placed the sites in a micro regional context A publication of the Minoan farmhouse will appear subsequently but this volume stands on its own as both an overview of the project and as a detailed study of the copper smelting workshop *Petras, Siteia I* Metaxia Tsipopoulou,2016-03-31 This volume is the first of two that represent the final publication of Sector I of the Prepalatial to Postpalatial Minoan urban settlement and palace of Petras Siteia located in eastern Crete and it presents the results of the excavations conducted there from 1985 to 2000 Individual chapters focus on the architecture Tsipopoulou cooking wares Alberti Early Minoan EM and Middle Minoan MM I pottery Relaki a unique example of an EM MM amphora stamped with a seal prior to firing Krzyszkowska numerous miniature vessels and figurines Simandiraki Grimshaw and a study of vessels primarily Neopalatial with potter's marks Tsipopoulou A subsequent volume

will discuss in more detail the Neopalatial and Postpalatial pottery from Houses I 1 and I 2 and focus on the main Neopalatial period of the Petras settlement and its Postpalatial re occupation *Medicine and Healing in the Ancient Mediterranean* D. Michaelides, 2014-05-30 There are many recoverable aspects and indications concerning medicine and healing in the ancient past from the archaeological evidence of skeletal remains grave goods comprising medical and or surgical equipment and visual representations in tombs and other monuments thorough to epigraphic and literary sources The 42 papers presented here cover many aspects medicine in the Mediterranean world during Antiquity and early Byzantine times bringing together both internationally established specialists on the history of medicine and researchers in the early stages of their career The contributions are grouped under a series of headings medicine and archaeology media online access to electronic corpus the Aegean medical authors schools of medicine surgery medicaments and cures skeletal remains new research in Cyprus Asklepios and incubation and Byzantine Arab and medieval sources These subject areas are addressed through a combination of wide ranging archaeological and osteological data and the examination and interpretation of philosophical literary and historiographical texts to provide a comprehensive suite of studies into early practices in this fundamental field of human experience *Building Research* ,1971 **Crete in Transition** Brice L. Erickson, 2010-12-31 This work presents a classification system and absolute chronology for black gloss wares from Crete establishing the first local and regional ceramic sequences during the period from 600 to 400 B C This new chronological foundation of datable pottery from excavated sites fills in the so called 6th 5th century gap and dispels the prevailing view that this was a period of decline in population and one of artistic and cultural impoverishment The 6th century heralded important changes in Cretan society reflected in the reorganization of burial grounds new patterns of sanctuary dedication and the circulation of exotica among the elite The study reveals unsuspected connections with mainland Greece especially Sparta and Athens Historians and archaeologists will find the author s conclusions and their implications to be of considerable interest **A Comprehensive Dictionary of the English Language** Joseph Emerson Worcester, 1860
