Business Leadership In China Frank T. Gallo, 2008-08 There are thousands of books that have been written on business leadership Many of these have been translated into Chinese and many have been swallowed up by Chinese business people China has an enormous need to improve the quality of its leadership and current and future leaders are starving for more information to help them get to the top But what we are also hearing is that while they find these Western works intellectually stimulating there is always something missing It is naive for anyone to think that they can just take Western concepts and practices on leadership and make them work in China They still need work In fact it is fair to ask whether these Western practices can actually be applied in China This book provides the bridge between Western ideas and concepts with the Chinese thoughts and wisdom
