Book Of Scientific Anecdotes:

Eurekas and Euphorias Walter Gratzer, Walter Bruno Gratzer, 2002 A collection of scientific anecdotes from the past two thousand years offers insight into the personalities friendships rivalries deceptions hoaxes tragedies and mistakes that marked the history of science Science Mathematics

Eurekas and Euphorias Walter Gratzer, 2002-09-25 The march of science has never proceeded smoothly It has been marked through the years by episodes of drama and comedy of failure as well as triumph and by outrageous strokes of luck deserved and undeserved and sometimes by human tragedy It has seen deep intellectual friendships as well as ferocious animosities and once in a while acts of theft and malice deceit and even a hoax or two Scientists come in all shapes the obsessive and the dilettantish the genial the envious the preternaturally brilliant and the slow witted who sometimes see further in the end the open minded and the intolerant recluses and arrivistes From the death of Archimedes at the hands of an irritated Roman soldier to the concoction of a superconducting witches brew at the very close of the twentieth century the stories in *Eurekas and Euphorias* pour out told with wit and relish by Walter Gratzer Open this book at random and you may chance on the clumsy chemist who breaks a thermometer in a reaction vat and finds mercury to be the catalyst that starts the modern dyestuff industry or a famous physicist dissolving his gold Nobel Prize medal in acid to prevent it from falling into the hands of the Nazis recovering it when the war ends mathematicians and physicists diverting themselves in prison cells and even in a madhouse by creating startling advances in their subject We witness the careers sometimes tragic sometimes carefree of the great women mathematicians from Hypatia of Alexandria to Sophie Germain in France and Sonia Kovalevskaya in Russia and Sweden and then Marie Curie's relentless battle with the French Academy Here then a glorious parade unfolds to delight the reader with stories to astonish to instruct and most especially to entertain
