A Mother's Diary Menetra Hathorn, 2005-02-17 A Mother's Diary How to Survive the Neonatal

Intensive Care Unit is a firsthand account of one woman's journey. It represents the struggle of thousands of women every year whose babies begin life in the NICU. Menetra Hathorn writes the entire book from her perspective, a mother's point of view. She begins by introducing you, the reader, to her world and giving some background information about how her journey began. Next, you walk with her the rest of the way through a slow and tedious hospitalization. Then she names and discusses 10 strategies that will help you survive the NICU and beyond. Finally, she shares some valuable insight with relatives and friends while recommending a variety of ways that they can help. *A Mother's Diary: How to Survive the Neonatal Intensive Care Unit* was written because Mrs. Hathorn was unable to find anything like it during her third child's 119-day hospitalization. She wanted to know that she wasn't alone and she needed some common sense strategies she could implement to help save herself from drowning in a sea of grief, depression, and anxiety. *The Mother's Legacy in Early Modern England*

Ms. Jennifer Heller, 2013-05-28. Using printed and manuscript texts composed between 1575 and 1672, Jennifer Heller defines the genre of the mother's legacy as a distinct branch of the advice tradition in early modern England that takes the form of a dying mother's pious counsel to her children. Reading these texts in light of specific cultural contexts, social trends, and historical events, Heller explores how legacy writers used the genre to secure personal and family status, to shape their children's beliefs and behaviors, and to intervene in the period's tumultuous religious and political debates. The author's attention to the fine details of the period's religious and political swings, drawn from sources such as royal proclamations, sermons, and first-hand accounts of book burnings, creates a fuller context for her analysis of the legacies. Similarly, Heller explains the appeal of the genre by connecting it to social factors including mortality rates and inheritance practices. Analyses of related genres such as conduct books and fathers' legacies highlight the unique features and functions of mothers' legacies. Heller also attends to the personal side of the genre, demonstrating that a writer's education, marriages, children, and turns of fortune affect her work within the genre. *Mother and Child* Chandgi Ram, 2003. This book is not too technical at the same time is comprehensive enough for treatment of diseases. *The Mother Books* MOTHER BOOKS., 1910.

My Mother's Hip Luise Margolies, 2004. Some 400,000 hip fractures occur every year; the vast majority among the elderly. All too often, these fractures are associated with death or severe disability. After her mother's double hip fracture, Luisa Margolies immersed herself in identifying and coordinating the services and professionals needed to provide critical care for an elderly person. She soon realized that the American medical system is ill-prepared to deal with the long-term care needs of our graying society. The heart of *My Mother's Hip* is taken up with the author's day-to-day observations as her mother's condition worsened, then improved, only to worsen again while her father became increasingly anxious and disoriented. As both a devoted daughter and a skilled anthropologist, Margolies vividly renders her interactions with physicians, nurses, hospital workers, nursing home administrators, the Medicare bureaucracy, home care providers, and her parents. In the *Lessons* chapter that follows each episode, she discusses in a broader context the weighty decisions that adult children must

make on their parents behalf and the emotional toll their responsibility takes Here she addresses the complex practical issues that commonly arise in such situations understanding the consequences of hip fracture and its treatment preparing health care proxies and advanced directives enabling elders to remain at home and the heartbreaking dilemma of prolonging life Like many adult children Margolies learned her lessons about eldercare in the midst of crises This book is intended to ease the information gathering and decision making processes for others involved in eldercare
