Coping With Birth Control:

Coping with Birth Control Michael D. Benson, MD, FACOG, Michael D. Benson, 1998-05 Discusses various aspects of sexual activity and birth control for both male and female teens **Christian Couples Coping with Childlessness** Auli Vahakangas, 2009-06-01 Children are the focus of marriage in African cultures Marriage is considered full and functional only if the couple has children in many cultures preferably a boy Becoming a parent also contributes to one's full adulthood in the sense that childlessness blocks ascent towards full personal dignity as an adult person in the community As a result childlessness is often a major disaster for both of the spouses It has social economical and personal consequences quite often including divorce This book explores in depth how childlessness is perceived dealt with and coped with in two Christian communities in Machame on the slopes of Mt Kilimanjaro Childlessness is approached through narratives of the spouses concerned and the members of their communities Their stories reveal pain and courage brokenness and strength faithfulness and betrayal Christianity presents itself in an ambiguous light on one hand pressuring spouses to keep up facades supporting oppressive structures On the other hand Christian faith provides childless couples with personal hope in the afterlife that the African traditional culture offers only to those with children This study proves that childlessness is not only a personal but also a communal problem Childlessness and the fear of having no children contribute to family structures and sexual behavior In this way they have a considerable impact on the spread of HIV AIDS in Africa However this study reveals that the attitudes and practices towards marriage and children need not be petrified but rather that traditions can and do change

Coping with Infertility Negar Nicole Jacobs, 2013-05-13 Coping with Infertility is an essential source of emotional support for any couple struggling with involuntary childlessness The book offers proven techniques and real life examples from both men and women in order to outline common emotional reactions and remind couples that they are not alone in their ups and downs The coping skills discussed in the book have been assembled from years of working with individuals in clinical trials and have undergone rigorous scientific testing These state of the art techniques have been shown to be effective in helping couples deal with the stress depression relationship problems and grief often associated with infertility Coping with Infertility is an easily accessible and problem focused guide for couples to use in overcoming the emotional roadblocks of infertility Coping with Population Challenges Louise Lassonde, 2014-04-23 Despite rapidly decreasing rates of population growth caused by reduced fertility in the majority of world regions demographers are predicting that the world's population will still double by the year 2050 The question is therefore no longer the traditional one of whether the planet can support so many people but how to provide a sustainable future for ten billion individuals Quantitative problems have become ethical ones Coping with Population Challenges addresses these issues in the context of international debate and agreements since the first World Population Plan of Action in 1974 to the 20 year Programme of Action adopted at the International Conference on Population and Development in Cairo in 1994 The author describes how the Programme of

Action focalizes on women's issues reproductive choice and the notion of the individual However she identifies a number of important but neglected areas of the debate that the Programme failed to address and brings to light some of the inconsistencies that need to be resolved if the Programme is to be implemented The author also looks at the underlying ethical dimension of all choices relating to the population issue and suggests measures and machinery for giving effect to states commitments including reformulating problems and defining the appropriate economic framework for solutions The book is an excellent introduction for the non specialist to a very topical debate and a useful reference for researchers

COPING CATHOLIC William J. Donnelly, 2013-03 It is a bit confusing and uncomfortable to be born a Roman Catholic Each of us certainly has a body of received dogma and moral teachings but received wisdom is quite another thing Wisdom comes from living Moral demands and dogmatics without reference to the individual mind and considered behavior is at best empty and at worst a kind of cultural fascism Most of us who worship regularly and identify ourselves with a particular religion are not theologians any more than we are constitutional scholars or very complete historians of our own countries At the same time we share a set of problems and goals How do you make practical sense out of faith and useful meaning out of Church teaching We are as much creators of our faith and morality as we are consumers of church dogmas and morals The goal of faith is hope tranquility and meaning To this end stories need be told Shared stories is one definition of family and community The People of God can only be persons of faith who share their stories Coping Catholic is shared stories and meditations on the Creed Commandments and Sacraments of a baptized Roman Catholic It initiates a dialogue within the Christian Community It shares the life experiences of a church going college educated Roman Catholic and reports what he believes It proceeds dogma by dogma in the Creed commandment by commandment sacrament by sacrament and life experience by life experience His story reports the what and explains the why The author's intent in sharing his story is that some readers will find a foothold of hope in the story of how another person who shares much of their experiences and education has learned to cope with the faith and doctrine many of us were born to
