International Handbook of Penology and Criminal Justice Shlomo Giora Shoham, Ori Beck, Martin Kett, 2007-10-08 At the outset of the twenty first century more than 9 million people are held in custody in over 200 countries around the world from the essay *Prisons and Jails* by Ron King The first comparative study of this increasingly integral social subject *International Handbook of Penology and Criminal Justice* provides a comprehensive and balanced review

Forced Mobility of EU Citizens José A. Brandariz, Witold Klaus, Agnieszka Martynowicz, 2023-06-29 *Forced Mobility of EU Citizens* is a critical evaluation from an empirical perspective of existing practices of the use of transnational criminal justice instruments within the European Union Such instruments include the European Arrest Warrant EAW prisoner transfer procedures and criminal law related deportations The voices and experiences of people transferred across internal borders of the European Union are brought to the fore in this book Another area explored is the scope and value of EU citizenship rights in light of cooperation not just between judicial authorities of EU Member States but criminal justice systems in general including penitentiary institutions

The novelty of the book lays not only in the fact that it brings to the fore a topic that so far has been under researched but it also brings together academics and studies from different parts of Europe from the west i.e. the expelling countries and the east the receiving countries with a special focus on two of the jurisdictions most affected by these processes Poland and Romania. It therefore exposes processes that have so far been hidden, shows the links between sending and receiving countries and elaborates on the harms caused by those instruments and the very idea of justice behind them. This book also introduces a new element to deportation studies as it links to them the institution of the European Arrest Warrant and EU law transfers targeting prisoners and sentenced individuals. With a combination of legal, criminological and sociological perspectives, this book will be of great interest to scholars and students with an interest in EU law, criminal law, transnational criminal justice, migration, immigration and citizenship. Preventing Prison Violence Armon J. Tamatea, Andrew J. Day, David J. Cooke, 2023-09-08. *Preventing Prison Violence* introduces the idea of prison ecologies, a multi-layered perspective to understanding prison violence as a product of human environment, social and physical, systemic and societal influences and how an ecological approach is helpful to prevention efforts. Interpersonal violence is a global concern and a significant cause of death around the world. In prisons, the human, financial and health burden of violence presents a significant social issue as well as a wicked problem that does not permit of simplistic solutions. Recent innovations in data capture means that questions about violence, gang affiliations and prisons that could not be answered previously can now be explored. The central theme of this book is that prisons are ecologies, spaces where people, resources and the built environment are interrelated and that violence is a product of a complex of interpersonal and environmental factors that increase the likelihood of assault but also provide opportunities for solutions. Drawing on psychology, geography, indigenous knowledge, gang culture and predictive modelling, this book expands beyond the conventional individual-focused assessment, intervention, prevention approach to research in this field towards a holistic and ecological way of thinking that recognises individual, organisational and cultural factors as well as the role of the physical environment itself in the facilitation and prohibition of aggression. Providing a comprehensive resource for those who are interested in making prisons safer, firmly based in contemporary research and theory, *Preventing Prison Violence* will be of great interest to students and scholars of Penology, Violence and Forensic Psychology as well as to professionals working in criminal justice settings.
