The Mythology of Crime and Criminal Justice Victor E. Kappeler, Gary W. Potter, 2017-07-18 The social construction of crime is often out of proportion to the threat posed The media and advocacy groups shine a spotlight on some crimes and ignore others Street crime is highlighted as putting everyone at risk of victimization while the greater social harms from corporate malfeasance receive far less attention Social arrangements dictate what is defined as crime and the punishments for those who engage in the proscribed behavior Interest groups promote their agendas by appealing to public fears Justifications often have no basis in fact but the public accepts the exaggerations and blames the targeted offenders The net widening effect of more laws and more punishment catches those least able to defend themselves This innovative alternative to traditional textbooks provides insightful observations of myths and trends in criminal justice Fourteen chapters challenge misconceptions about specific crimes or aspects of the criminal justice system Kappeler and Potter dissect popular images of crimes and criminals in a cogent compelling and engaging manner They trace the social construction of each issue and identify the misleading statistics and fears that form the basis of myths and the collateral damage of basing policies on mythical beliefs The authors encourage skepticism about commonly accepted beliefs offer readers a fresh perspective and urge them to analyze important issues from novel vantage points **Policing In America**

Congress. House. Committee on the Judiciary. Subcommittee on Crime, 1983 *Street Cop* George Klein, 2022-10-06 This book provides an ethnography of street level policing in the

United States and offers an analysis with valuable lessons for today's law enforcement officers. Author George C. Klein, sociologist and former police officer, explores the characteristics of policing in a suburb outside of a large Midwestern city in the United States. As a participant observation fieldworker, he functioned as an ethnographic researcher, recording with a sociological eye the real-world tasks of policing, including the ordinary as well as the more remarkable aspects of day-to-day law enforcement. He approaches the data with three levels of analysis, looking at embedded issues in policing such as discretion, danger, corruption, cynicism, race, and class; a mid-range analysis that examines police work as an example of street-level bureaucracy; and a global analysis assessing the entrenched roles of race, class, and demography in police work as well as society in the U.S. This book focuses on the need for police officers to solve social problems that other institutions in society are unwilling or unable to solve. It examines a myriad of issues such as police socialization, the use of force by police officers, stress levels, and suicide risk factors; disparate styles of policing; police militarization; de-escalation; and more. With compelling detail, the author helps the reader understand the turmoil regarding policing in the United States today. It is ideal for police professionals as well as students and scholars of criminal justice, criminology, sociology, psychology, history, political science, and journalism. *National Criminal Justice Thesaurus*, 1994 **Congressional Record** United States.
