Coral Islanders:

The People of the Sea Paul D'Arcy, 2006-01-01 Countering the dominant paradigms of recent Pacific Islands historiography which tend to limit understanding of the sea's importance this volume emphasizes the flux in the maritime environment and how it instilled an expectation and openness toward outside influences and the rapidity with which cultural change could occur in relations between various Islander groups Students and scholars of Pacific history and environmental and cultural studies will welcome this re-evaluation of the sea's influence in Oceanic history **BOOK JACKET** **Coral Islanders** William H. relationship between law and society Throughout his career he constructed a coherent science of anthropology one modeled on the highest standards of practice and theory Methodology steps forward as a core element of the refashioned anthropology one that stipulates the manner in which anthropological data should be acquired Malinowski's choice of law was not inevitable but neither was it unmotivated Anyone interested in understanding the social structure and organization of societies cannot avoid dealing with the concept of law even if it is to deny its presence Law and anthropology have shown a natural affinity for one another sharing a beneficial history of using the methods and viewpoints of one to inform and advance the other The best lesson Malinowski provides us with comes in the last paragraphs of *Crime and Custom in Savage Society* The true problem is not to study how human life submits to rules the real problem is how the rules become adapted to life On that question he has left us richly inspired to continue the quest

Islands of Inquiry Geoffrey Richard Clark, Sue O'Connor, Bryan Foss Leach, 2008-06-01 Many of the papers in this volume present new and innovative research into the processes of maritime colonisation processes that affect archaeological contexts from islands to continents Others shift focus from process to the archaeology of maritime places from the Bering to the Torres Straits providing highly detailed discussions of how living by and with the sea is woven into all elements of human life from subsistence to trade and to ritual Of equal importance are more abstract discussions of islands as natural places refashioned by human occupation either through the introduction of new organisms or new systems of production and consumption These transformation stories gain further texture and variety through close examinations of some of the more significant consequences of colonisation and migration particularly the creation of new cultural identities A final set of papers explores the ways in which the techniques of archaeological sciences have provided insights into the fauna of the islands and the human history of such places Provided by publisher

Jottings from the Pacific William Wyatt Gill, 1885 **Memories of War** Suzanne Falgout, Lin Poyer, Laurence Marshall Carucci, 2007-10-30 Micronesians often liken the Pacific War to a typhoon one that swept away their former lives and brought dramatic changes to their understandings of the world and their places in it Whether they spent the war in bomb shelters in sweet potato fields under the guns of Japanese soldiers or in their homes on atolls sheltered from the war Micronesians who survived those years know that their peoples passed through a major historical transformation Yet Pacific War histories scarcely mention the Islanders across whose lands and seas the fighting waged Memories of War sets out to the fill that historical gap by presenting the missing voices of Micronesians and by viewing those years from their perspectives The focus is on Micronesian remembrances the ritual commemorations features of the landscape stories dances and songs that keep their memories of the conflict alive The inclusion of numerous and extensive interviews and songs is an important feature of this book allowing Micronesians to speak for themselves about their experiences In addition they also reveal distinctively Micronesian cultural memories of war Memories of War preserves powerful and poignant memories for Micronesians it also demonstrates to students of history and culture the extent to which cultural practices and values shape the remembrance of personal experience **The Pacific Islands** Moshe Rapaport, 2013-05-31 The Pacific is the last major world region to be discovered by humans Although small in total land area its numerous islands and archipelagoes with their startlingly diverse habitats and biotas extend across a third of the globe This revised edition of a popular text explores the diverse landforms climates and ecosystems of the Pacific island region Multiple chapters written by leading specialists cover the environment history culture population and economy The work includes new or completely revised chapters on gender music logging development education urbanization health ocean resources and tourism Throughout two key issues are addressed the exceptional environmental challenges and the demographic economic political challenges facing the region Although modern technology and media and waves of continental tourists are fast eroding island cultures the continuing resilience of Pacific island populations is apparent This is the only contemporary text on the Pacific Islands that covers both environment and sociocultural issues and will thus be indispensable for any serious student of the region Unlike other reviews it treats the entirety of Oceania with the exception of Australia and is well illustrated with numerous photos and maps including a regional atlas Contributors David Abbott Dennis A Ahlburg Glenn Banks John Barker Geoffrey Bertram David A Chappell William C Clarke John Connell Ron Crocombe Julie Cupples Derrick Depledge Colin Filer Gerard J Fryer Patricia Fryer Brenden S Holland E Alison Kay David M Kennedy Lamont Lindstrom Rick Lumpkin Harley I Manner Selina Tusitala Marsh Nancy McDowell Hamish A McGowan Frank McShane Simon Milne R John Morrison Dieter Mueller Dombois Stephen G Nelson Patrick D Nunn Michael R Ogden Andrew Pawley Jean Louis Rallu Vina Ram Bidesi Moshe Rapaport Annette Sachs Robertson Richard Scaglione Donovan Storey Andrew P Sturman Lynne D Talley James P Terry Randolph R Thaman Frank R Thomas Caroline Vercoe Terence Wesley Smith Paul Wolfram *Corals and Coral Islands* James Dwight Dana, 1890

Where Dead Corals Lie Graham Jackson, 2018-11-13 Captain RP Laxman and Oliver Cape sail to the Olympus Islands on the giant wind ferry Charon. Their mission is to administer the World Authority's peace at the end of the long anarchist war. Expecting to make a useful contribution in an outpost of empire, they instead become enmeshed in local intrigue and incompetence. The Resident Commissioner is a pompous alcoholic with a Treasurer scheming to replace him. The Secretary James Darling is a buffoon with a dangerous diseased mind. The Japanese trader Omi is also prominent in the affairs of the Islands, as are the Resident Commissioner's wife Jocasta and the Treasurer's daughter Hope. The Olympus Islands are being slowly drowned by the ocean. The native People of the Coral, bemused by the Authority's representatives, realise they have to make use of their innate occult vision and take a more active role in their own affairs. Even though they know that ultimately the inhabitants of all worlds live at the direction of the Fates and the Furies.
