## Correspondance Rousseau Volume 8:

**Rousseau, the Age of Enlightenment, and Their Legacies** Robert Wokler, 2012-04-08 Robert Wokler was one of the world's leading experts on Rousseau and the Enlightenment but some of his best work was published in the form of widely scattered and difficult to find essays. This book collects for the first time a representative selection of his most important essays on Rousseau and the legacy of Enlightenment political thought. These essays concern many of the great themes of the age including liberty, equality, and the origins of revolution. But they also address a number of less prominent debates including those over cosmopolitanism, the nature and social role of music, and the origins of the human sciences in the Enlightenment controversy over the relationship between humans and the great apes. These essays also explore Rousseau's relationships to Rameau, Pufendorf, Voltaire, and Marx, reflect on the work of important earlier scholars of the Enlightenment including Ernst Cassirer and Isaiah Berlin, and examine the influence of the Enlightenment on the twentieth century. One of the central themes of the book is a defense of the Enlightenment against the common charge that it bears responsibility for the Terror of the French Revolution, the totalitarian regimes of the twentieth century, and the Holocaust. *Catalogue de la bibliothèque de Genève*, 1834

**A Political Companion to Henry David Thoreau** Jack Turner, 2009-07-17 The writings of Henry David Thoreau 1817-1862 have captivated scholars, activists, and ecologists for more than a century. Less attention has been paid, however, to the author's political philosophy and its influence on American public life. Although Thoreau's doctrine of civil disobedience has long since become a touchstone of world history, the greater part of his political legacy has been overlooked. With a resurgence of interest in recent years, *A Political Companion to Henry David Thoreau* is the first volume focused exclusively on Thoreau's ethical and political thought. Jack Turner illuminates the unexamined aspects of Thoreau's political life and writings. Combining both new and classic essays, this book offers a fresh and comprehensive understanding of Thoreau's politics and includes discussions of subjects ranging from his democratic individualism to the political relevance of his intellectual eccentricity. The collection consists of works by sixteen prominent political theorists and includes an extended bibliography on Thoreau's politics. *A Political Companion to Henry David Thoreau* is a landmark reference for anyone seeking a better understanding of Thoreau's complex political philosophy.

**The Structure and Form of the French Enlightenment, Volume 2** Ira O. Wade, 2015-03-08 The author describes the influence on the Enlightenment of the intellectual currents that had been active in France, particularly the historical and humanistic *esprit critique* and the scientific *esprit moderne*. The second volume probes the writings of Morelly, Helvetius, Holbach, Mably, and Condorcet as they reveal the transformation of the *esprit philosophique* into the *esprit révolutionnaire*. Young, 2016-12-05 As he demonstrates that narratives of seduction function as a master plot for French literature in the eighteenth century Paul Young argues that the prevalence of this trope was a reaction to a dominant cultural discourse that coded the novel and the new practice of solitary reading as dangerous seductive practices Situating his study in the context of paintings educational manuals and criticism that caution against the act of reading Young considers both canonical and lesser known works by authors that include Rousseau Sade Bastide Laclos Crillon and the writers of two widely read libertine novels How these authors responded to a cultural climate that viewed literature and especially the novel as seductive sheds light on the perils and pleasures of authorship the ways in which texts interact with the larger cultural discourse and what eighteenth century texts tell us about the dangers of reading or writing Ultimately Young argues the seduction not in the text but by the text raises questions about the nature of pleasure in eighteenth century French literature and culture **Catalogue de la**
