Demy, Jeffrey M. Shaw Ph.D., 2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography The Military as a Separate Society Pauline Collins, 2019-10-09 The exercise of public power by the military in civilian Western democracies such as Australia and the United States demonstrates a tendency toward diminished responsibility for moral behavior Pauline Collins argues that a different system of military criminal investigation and discipline outside the civilian justice system enables the military to operate like a coterie and can

lead to a failure in the requisite moral standard of behavior required of military personnel and maintaining civilian institutional control Collins argues that the justifications for separate treatment weakens both the military reputation and the practice of civilian control of the military as well as leading to an overall decline in morality and values in a democratic society

The Roman Republic Matthew Dillon, Christopher Matthew, 2020-09-22 Essays exploring the role religion played in ancient Roman warfare including destroying enemies gods wartime ceremonies and live burials Religion was integral to the conduct of war in the ancient world and the Romans were certainly no exception No campaign was undertaken no battle risked without first making sacrifice to propitiate the appropriate gods such as Mars god of War or consulting oracles and omens to divine their plans Yet the link between war and religion is an area that has been regularly overlooked by modern scholars examining the conflicts of these times This volume addresses that omission by drawing together the work of experts from across the globe The chapters have been carefully structured by the editors so that this wide array of scholarship combines to give a coherent comprehensive study of the role of religion in the wars of the Roman Republic Aspects considered in depth will include declarations of war evocation and taking gods away from enemies dedications and ceremonies the cult of the legionary eagle the role of women in Republican warfare omens and divination live burials of people in times of military crisis and the rituals of the Roman triumph Praise Religion Classical Warfare The Roman Republic The authors take a novel approach in looking at military history of the Roman Republic in terms of the relationship between warriors and religion The ancient world was driven to a high degree by religious belief even to the point of commanders relying on seers to advise them on the eve of battle Very Highly Recommended Firetrench A work of meticulous and detailed scholarship Midwest Book Review *The Oracle* ,1881 **The English Catalogue of Books** ,1892 The Publishers' Circular and Booksellers' Record ,1907 *Publishers' Circular and General Record of British and Foreign Literature, and Booksellers' Record* ,1897 The Literary Digest ,1891 Publishers' circular and booksellers' record ,1897
