The British National Bibliography Arthur James Wells, 2003 *An Inventory of the Ancient Monuments in Glamorgan: Volume III - Part 1b: Medieval Secular Monuments the Later Castles from 1217 to the present* Royal Commission on the Ancient and Historical Monuments in Wales, 2000 Forty three castles and fortified sites here described were founded or given their most significant fabric after 1217 They include tower houses strong houses possible castles and twenty masonry castles ranging from the great Clare works at Caerphilly and Morlais to the small modestly fortified sites at Barry and Weobley and the exceptional fortified priory at Ewenny The density and variety of the medieval fortifications in Glamorgan are unrivalled and their study is enriched by an exceptional range of works on the history and records of a historic county formed by merging the lordships of Glamorgan and Gower Part 1a described the early castles and traced their role in the Norman conquest and settlement of the fertile southern lowlands down to 1217 when the Clares inherited Glamorgan In that year the Welsh had expelled the English from Gower and remained unconquered in the Glamorgan uplands Gower was soon lost again and under two redoubtable Clare lords the Glamorgan uplands were appropriated in the mid 13th century and secured in a notable programme of castle works The castle building of Earl Richard de Clare 1243 62 and his son Gilbert the Red Earl 1263 95 as they achieved this second conquest of Glamorgan foreshadowed the later campaigns of Edward I against Gwynedd At Caerphilly above all Earl Gilbert's castle deserves comparison with the great Edwardian works it introduced defensive features later to be adopted by King Edward's Savoyard master masons Gower sites considered include the impressive masonry castles at Oystermouth and Penrice A notable ornately arcaded domestic range at Swansea is the only surviving vestige of the chief castle of Gower which is tentatively described from a variety of records AH the illustrated descriptions incorporate detailed historical accounts The introductory survey outlines the later descent of Glamorgan and Gower to the end of the 15th century and along with the sectional preambles it provides general discussion of the sites

Tracing Your Coalmining Ancestors Brian Elliott, 2014-02-11 A meticulous mixture of social and family history Whether or not you have mining connections this is an interesting socio economic read Your Family Tree In the 1920s there were over a million coalminers working in over 3000 collieries across Great Britain and the industry was one of the most important and powerful in British history It dominated the lives of generations of individuals their families and communities and its legacy is still with us today many of us have a coalmining ancestor Yet family historians often have problems in researching their mining forebears Locating the relevant records finding the sites of the pits and understanding the work involved and its historical background can be perplexing That is why Brian Elliott's concise authoritative and practical handbook will be so useful for it guides researchers through these obstacles and opens up the broad range of sources they

can go to in order to get a vivid insight into the lives and experiences of coalminers in the past His overview of the coalmining history and the case studies and research tips he provides will make his book rewarding reading for anyone looking for a general introduction to this major aspect of Britain's industrial heritage His directory of regional and national sources and his commentary on them will make this guide an essential tool for family historians searching for an ancestor who worked in coalmining underground on the pit top or just lived in a mining community As featured in Who Do You Think You Are Magazine and the Barnsley Chronicle

The Women and Men of 1926 Sue Bruley, 2010-03-15 Work on the miners Lock Out of 1926 tends to focus on the perspective of the National Union of Mineworkers while nothing has been written which attempts to examine for example how miner's wives coped for six months without pay This book investigates the Lock Out from the perspective of gender relations

A Short History of England Simon Jenkins, 2011-09-08 From the invaders of the dark ages to the aftermath of the coalition one of Britain's most respected journalists Simon Jenkins weaves together a strong narrative with all the most important and interesting dates in a book that characteristically is as stylish as it is authoritative A Short History of England sheds light on all the key individuals and events bringing them together in an enlightening and engaging account of the country's birth rise to global prominence and then partial eclipse There have been long synoptic histories of England but until now there has been no standard short work covering all

significant events themes and individuals Now updated to take in the rapid progress of recent events and beautifully illustrated this magisterial history will be the standard work for years to come **Health and Development** Iris Borowy, Bernard Harris, 2023-01-30 Health and development require one another there can be no development without a critical mass of people who are sufficiently healthy to do whatever it takes for development to occur and people cannot be healthy without societal developments that enable standards of health to be maintained or improved However the ways in which health and development interact are complex and contested This volume unites eleven case studies from nine countries in three continents and two international organizations since the late nineteenth century Collectively they show how different actors have struggled to reconcile the sometimes contradictory nature of health and development policies and the subordination of these policies to a range of political objectives **Great Western, 0-6-2 Tank Classes** David Maidment, 2020-07-30 Descriptions and hundreds of photos of these tank engines that played a major role in Welsh coal mining and passenger rail After tackling the Great Western Railway's pannier tanks in a previous Locomotive Portfolios volume David Maidment seeks out descriptions and photographs of the GW 0 6 2 tank engines the majority of which were built by the Rhymney Taff Vale Barry and other Welsh railways from the last decade or so of the nineteenth century onward The engines of eight different companies absorbed by the GWR in 1922 are described and illustrated as well as the way in which many were modernized and rebuilt at Swindon or Caerphilly Works in the 1920s GWR Chief Mechanical Engineer Charles Collett was however faced with a motive power crisis in the mining valleys at the Grouping as many of the companies had economized on essential maintenance as the GW's takeover drew near and he had to hurriedly design a standard 0 6 2T to complement and bolster their work as the powerful GW 2 8 0Ts were too heavy and wide for many of the Cardiff valleys These engines the 56XX 66XX classes became part of the South Wales scene between 1925 and 1964 mainly running the coal traffic between pits and docks although they dominated Cardiff Valley passenger services until the influx of BR 3MT 2 6 2Ts and GW 41XX 2 6 2Ts in 1954 and 1955 With around 300 black white photographs this book takes a wide ranging look at these locomotives **Lord of the Wings** Donna Andrews, 2015-08-04 A new side splitting Meg Langslow mystery from award winning New York Times bestselling author of The Good The Bad and The Emus The brilliantly funny Donna Andrews delivers another winner in the acclaimed avian themed series that mystery readers have come to love The eighteenth book in her New York Times best selling series continues to surprise and delight in this next knee slapping adventure featuring Meg Langslow and all the eccentric characters that make up her world It's another holiday and Mayor Randall Shiffley has turned Caerphilly Virginia into Spooky City USA The residents are covering every window with cobwebs and roaming the streets in costume to entertain the tourists and Meg's grandfather is opening a new Creatures of the Night exhibit in the zoo When a real body at the zoo and a suspicious fire at the Haunted House threaten to mar the town's creepy fun it's up to Meg Langslow to save Halloween Like Meg Langslow the blacksmith heroine of her series Donna Andrews was born and raised in Yorktown Virginia
