Arms Unbound David Mussington, 1994 *Program Manager*, 1995 *The Weapons State* David Mutimer, 2000 The proliferation of all kinds of weapons is a focal point for international security This work shows how both the language used to talk about weapons proliferation and the practices adopted to respond to it serve to define the problem in ways that promote policy responses doomed to failure **Managing Intercollective Conflict** Anna J. Borgeryd, 1999-02 How does the state system measure up to today's realities when it comes to managing conflict To what extent are efforts to manage conflict successful and for whom Prevailing structures designed to deal with conflict between collectives sovereign states supported by militaries military industry and the United Nations operate mainly on principles that are hundreds of years old Conditions for conflict and its management have changed radically since this state system was constructed There is a risk that institutional inertia produces growing disparity between real world problems and the institutions that are supposed to manage them Realism and legalism are found to form a double ideological support for the state system The study compares the state system's realist and legalist premises to different cases of post cold war intercollective conflict the 1990-91 Gulf War the 1990-95 break up of Yugoslavia and the 1992 Los Angeles riots These cases present important challenges to the prevailing system's premises mismatches between idea and reality that are clearly connected to failures in conflict management In addition findings suggest that the state system not only fails to deal with important aspects of modern day conflict but that it increasingly produces problems that it cannot manage This suggests that the prevailing state system is not in harmony with crucial conflict related aspects of global impact indicating a serious systemic problem *Dismantling the Cold War* John M. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts.

The Secret History is a exceptional and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
