some of the many complex and vivid connections between art theatre and opera in a period of dramatic and challenging historical change thereby deepening an understanding of familiar and less familiar artworks practices and critical strategies in the eighteenth and nineteenth centuries Throughout this period new types of subject matter were shared fostering both creative connections and reflection on matters of decorum legibility pictorial and dramatic structure Correspondances were at work on several levels conception design and critical judgement In a time of vigorous social political and cultural contestation the status and role of the arts and their interrelation came to be a matter of passionate public scrutiny Scholars from art history French theatre studies and musicology trace some of those connections and clashes making visible the intimately interwoven and entangled world of the arts Protagonists include Diderot Sedaine Jacques Louis David Ignace Eug Marie Degotti Marie Malibran Paul Delaroche Casimir Delavigne Marie Dorval the Bleeding Nun from Lewis s The Monk the Com e Fran se and Etienne Jean Del uze *The Architecture of the French Enlightenment* Allan Braham,1989-01-01 Allan Braham s comprehensive treatment of this brilliant and complex period introduces the reader to the major buildings architects and architectural patrons of the day At the same time it explores the broader determinants of architectural production the rapid economic expansion of Paris and the main provincial centers and the increasing demand for improved public amenities theaters schools markets and hospitals This generously illustrated book provides a vivid commentary on society and manners in pre Revolutionary France **Urban Achievement in Early Modern Europe** Patrick O'Brien,2001-04-12 Comparative urban history examines early modern economic and cultural achievements in Antwerp Amsterdam and London *The English Mannerist Poets and the Visual Arts* L. E. Semler,1998 In this study L E Semler begins with a comprehensive historical definition of Mannerism in visual arts from which he derives four key terms that constitute the nucleus of the aesthetic technical precision elegance grazia and the difficulta facilita formula These principles interwoven with one another and with maniera are derived from visual arts but are specifically designed to be transferable to any medium The rest of the book situates the English poets in relation to the visual arts including painting limning gold and silversmithery architecture and garden design and discusses their verse in relation to the key Mannerist principles **Serlio on Domestic Architecture** Sebastiano Serlio,Myra Nan Rosenfeld,1996-01-01 Sixth book of classic treatise by influential Italian Renaissance architect 76 plates with extensive editorial apparatus depicting farmhouses villas fortresses pavilions palaces etc Extensive scholarly discussions Introduction Notes 173 illustrations **Louis XIV's Architect** Richard Ballard,2023-12-30 A must read for those seeking to understand the intersection of politics and art in a pivotal moment of European history This is a study of royal absolutism in a most extreme form in modern European history and of the nature of Louis XIV s concept of personal glory and of the embodiment of France as a new superpower It is a study of political ideas expressed in architecture to establish Versailles as the centre of French world power and royal prestige It is also a personal story full of social cultural and economic history of the period as seen in the life and work of Louis Le Vau from a humble

family of craftsmen who was a self taught architect in the early history of the profession skilled in technical craft skills and even grand design He was a major contributor to the architectural glories of Paris including the Louvre Vincennes Versailles and the College of the Four Nations And all achieved despite interference from the great magnates of the age like Mazarin and Colbert and constant mind changing by the King who wanted every feature in the buildings to reflect his concept of personal royal prestige Le Vau was Louis XIV s First Architect from 1654 until his death and disgrace in 1670 The social cultural economic and political backdrop is striking with court intrigue scandal corruption luxury indulgence and the rise of a rich bourgeoisie but the main thrust of the story concerns Louis XIV and the royal personal ambition and the work of a stone cutter s son who became the Sun King s instrument The study is good on the more technical features of architectural history reminiscent of Pevsner s marvellous Buildings of England series

The Road from Eden John Barber,2008

The Spiritual Rococo GauvinAlexander Bailey,2017-07-05 A groundbreaking approach to Rococo religious d r and spirituality in Europe and South America The Spiritual Rococo addresses three basic conundrums that impede our understanding of eighteenth century aesthetics and culture Why did the Rococo ostensibly the least spiritual style in the pre Modern canon transform into one of the world s most important modes for adorning sacred spaces And why is Rococo still treated as a decadent nemesis of the Enlightenment when the two had fundamental characteristics in common This book seeks to answer these questions by treating Rococo as a global phenomenon for the first time and by exploring its moral and spiritual dimensions through the lens of populist French religious literature of the day a body of work the author

calls the Spiritual Rococo and which has never been applied directly to the arts The book traces Rococo s development from France through Central Europe Portugal Brazil and South America by following a chain of interlocking case studies whether artistic literary or ideological and it also considers the parallel diffusion of the literature of the Spiritual Rococo in these same regions placing particular emphasis on unpublished primary sources such as inventories One of the ultimate goals of this study is to move beyond the cliché of Rococo s frivolity and acknowledge its essential modernity Thoroughly interdisciplinary The Spiritual Rococo not only integrates different art historical fields in novel ways but also interacts with church and social history literary and post colonial studies and anthropology opening up new horizons in these fields
