Constructing a Place of Critical Architecture in China Guanghui Ding, 2016-03-09

For the past 30 years The Chinese journal Time Architecture Shidai Jianzhu has focused on publishing innovative and exploratory work by emerging architects based in private design firms who were committed to new material theoretical and pedagogical practices In doing so this book argues that the journal has engaged in the presentation and production of a particular form of critical architecture described as an intermediate criticality as a response to the particular constraints of the Chinese cultural and political context The journal's publications displayed a dual critique a resistant attitude to the dominant modes of commercial building practice characterised by rapid and large scale urban expansion and an alternative publishing practice focusing on emerging independent architectural practitioners through the active integration of theoretical debates architectural projects and criticisms This dual critique is illustrated through a careful review and analysis of the history and programme of the journal By showing how the work of emerging architects including Yung Ho Chang Wang Shu Liu Jiakun and Urbanus are situated within the context of the journal's special thematic editions on experimental architecture exhibition group design new urban space and professional system the book assesses the contribution the journal has made to the emergence of a critical architecture in China in the context of how it was articulated debated presented and perhaps even produced within the pages of the publication itself The protagonists of critical architecture have endeavoured to construct an alternative mode of form and space with strong aesthetic and socio political implications to the predominant production of architecture under the current Chinese socialist market economy To rebel against certain forms of domination and suppression by capital and power is by no means to completely reject them rather it is to use them

Architecture and the Landscape of Modernity in China before 1949 Edward Denison, 2017-02-17

This book explores China's encounter with architecture and modernity in the tumultuous epoch before Communism an encounter that was mediated not by a singular notion of modernism emanating from the west but that was uniquely multifarious deriving from a variety of sources both from the west and importantly from the east The heterogeneous origins of modernity in China are what make its experience distinctive and its architectural encounters exceptional These experiences are investigated through a re-evaluation of established knowledge of the subject within the wider landscape of modern art practices in China The study draws on original archival and photographic material from different artistic genres and architecturally concentrates on China's engagement with the west through the treaty ports and leased territories the emergence of architecture as a profession in China and Japan's omnipresence not least in Manchuria which reached its

apogee in the puppet state of Manchukuo The study's geographically temporally and architecturally inclusive approach framed by the concept of multiple modernities questions the application of conventional theories of modernity or post colonialism to the Chinese situation By challenging conventional modernist historiography that has marginalised the experiences of the west's other for much of the last century this book proposes different ways of grappling with and comprehending the distinction and complexity of China's experiences and its encounter with architectural modernity The Arts of China Hugo Munsterberg, 1972 **Art and Architecture of China** Sheila Hollihan-Elliott, 2011-09 *The Condition of Chinese Architecture* Pier Alessio Rizzardi, Zhang Hankun, 2018 In China 1% of the world's architects have to design 50% of all the buildings and must do so for 15% of the profit This extreme situation in which architects have to operate design and build creates the theoretical basis for *The Condition of Chinese Architecture* In addition to interviewing the critical voices of contemporary Chinese architecture the authors report the nowadays reality of the country the architectural evolution since the first contacts with the West in 1582 and the issues affecting its contemporary practice The result is a groundbreaking cumulative reckoning teased out through layers of personal accounts and cross disciplinary research drawing on architecture aesthetics philosophy politics and society 2018 TCA Think Tank thinktank.com *The Condition of Chinese Architecture* Pier Alessio Rizzardi, Zhang Hankun Contributing Authors Li Xiangning, Harry den Hartog, Rory Stott, Charlie Q L Xue Interviewees Chang Yong Ho Atelier FCJZ, Liu Jiakun, Jiakun Architects, Ma Yansong, MAD architects, Liu Xiaodu, URBANUS Architecture Design, Zhang Ke, Zao Standard, architecture Qi Xin, Qi Xin Architects and Engineers, Chen Yifeng, Atelier Deshaus, Rocco Yim, ROCCO Design Architects Limited, Li Xiaodong, Li Xiaodong Atelier, Li Hu, OPEN Architecture, Zhang Lei, AZL Atelier, Zhang Lei, Zhang Bin, Atelier Z, Zhu Pei Studio, Pei Zhu, Xu Tiantian, DnA Design and Architecture, Liu Yuyang, LYA Atelier, Liu Yuyang Architects, Lu Wenyu, Amateur Architecture The Arts of China, Fifth Edition, Revised and Expanded Michael Sullivan, 2008 From the Neolithic to the avant garde and through all the brilliant centuries in between Michael Sullivan's introduction to Chinese art history is the classic in its field unsurpassed in its clarity balance and sure grasp of the subject Whether for the classroom student or the casual reader its remarkable range and elegant style make this book a wonderful way for anyone to begin learning about Chinese art Jerome Silbergeld Princeton University I have used Sullivan's *Arts of China* in my class for thirty years No other historian of Chinese art today commands such a wide range of knowledge as Michael Sullivan Richard Barnhart Yale University editor of *Three Thousand Years of Chinese Painting* After more than forty years since its first publication Michael Sullivan's *Arts of China* now in its fifth edition remains the most concise yet most comprehensive introduction to the history of Chinese art to students and the public Wu Hung Harrie A Vanderstappen Distinguished Service Professor University of Chicago Michael Sullivan is the acknowledged dean of modern Chinese art studies and any work bearing his name guarantees both a high level of quality and a wide readership Maxwell K Hearn Metropolitan Museum of Art **Chinese Architecture** Xinian Fu, Daiheng Guo, Xujie Liu, Guxi Pan, Yun Qiao, Dazhang
