1900 The Generation Before The Great War:

1900, the Generation Before the Great War Edward R. Tannenbaum, 1976 *Portrait of a City* Bruce F. Pauley, 2023-09
Bruce F Pauley highlights his hometown of Lincoln Nebraska to study larger trends that affected daily life during a period of rapid social and technological change between the 1890s and 1920s **The Oxford History of Twentieth Century**
Michael Howard, William Roger Louis, 2002-08-08 In this ambitious book some of the most distinguished historians in the world survey the momentous events and the significant themes of recent times with a look forward to what the future might bring Early chapters take a global overview of the century as a whole from a variety of perspectives demographic scientific economic and cultural Further chapters all written by acknowledged experts chart the century's course region by region The Oxford History of the Twentieth Century is an invaluable repository of information and offers unparalleled insights on the twentieth century **Landscaping the Human Garden** Amir Weiner, 2003 This volume is an ambitious study of efforts by twentieth century states to reshape either through social policy or brute force their societies and populations according to ideologies based on various theories of human perfectibility **Uncertain Victory** James T. Kloppenberg, 1988-03-24
Between 1870 and 1920 two generations of European and American intellectuals created a transatlantic community of philosophical and political discourse Uncertain Victory the first comparative study of ideas and politics in France Germany the U S and Great Britain during these fifty years demonstrates how a number of thinkers from different traditions converged to create the theoretical foundations for new programs of social democracy and progressivism Kloppenberg studies a wide range of pivotal theorists and activists including philosophers such as William James Wilhelm Dilthey and T H Green democratic socialists such as Jean Jaurès Walter Rauschenbusch Eduard Bernstein and Beatrice and Sidney Webb and social theorists such as John Dewey and Max Weber as he establishes the connection between the philosophers challenges to the traditions of empiricism and idealism and the activists opposition to the traditions of laissez faire liberalism and revolutionary socialism By demonstrating a link between a philosophy of self conscious uncertainty and a politics of continuing democratic experimentation and by highlighting previously unrecognized similarities among a number of prominent 19th and 20th century thinkers Uncertain Victory is sure to spur a reassessment of the relationship between ideas and politics on both sides of the Atlantic Political Repression in 19th Century Europe Robert Justin Goldstein, 2013-06-17 Originally published in 1983 The nineteenth century was a time of great economic social and political change As Europe modernized previously ignorant and apathetic elements in the population began to demand political freedoms There was pressure also for a freer press for the rights of assembly and association The apprehension of the existing elites manifested itself in an intensification of often brutal form of political repression The first part of this book summarizes on a pan European basis the major techniques of repression such as the denial of popular franchise and press censorship This is followed by a chronological survey of these techniques from 1815 1914 in each European country The book analyzes the long and short term importance

of these events for European historical development in the 19th and 20th centuries

Literature and Society in Imperial Russia, 1800-1914, 1978-06 Ranging in topic from general discussions of literary theory to close readings of well known literary works these nine papers address nearly every literary movement in nineteenth and early twentieth century Russia and a number of major writers including Pushkin Gogol Turgenev and Dostoevsky Four kinds of issues are addressed theoretical problems in the relationship of literature and society the reading public the rhetoric and ideologies of writers and critics and the relationship between fictional and social worlds In confronting some of the ways in which the social and literary aspects of Russian culture have imposed themselves upon each other this volume seeks an approach to Russian literature that neglects neither the dynamics of social interaction nor the forms and traditions of literature The contributors are Robert L Belknap Jeffrey Brooks Edward J Brown Donald Fanger Jean Franco Robert Louis Jackson Hugh McLean Victor Ripp and William Mills Todd III

Europe's Long Century Spencer Di Scala, 2013 The twentieth century has been interpreted as a short century marked by extremes According to this view the century lasted only from 1914 to 1989 or 1991 These dates coincide with the rise and fall of communism that came to power in Russia in 1917 and ended with the fall of the Berlin wall 1989 or that of the Soviet Union 1991 Thus the concept of a short century is unduly influenced by a Cold War perspective In Europe's Long Century Spencer Di Scala presents an alternative view that will be more helpful to undergraduate history students in the twenty first century namely that twentieth century Europe was actually a long century lasting approximately from 1900 to 2000 with patterns and antecedents discernible before the century began and that continue to be elaborated today Comprehensive current and affordable Europe's Long Century integrates the histories of Eastern Europe Scandinavia and the Balkans that are often neglected in similar treatments It also thoroughly covers the role of science in shaping modern European life and the book's biographical sketches profile the lives of important though not always well known people who influenced Europe's long century

The Generation of 1914 Robert WOHL, Robert Wohl, 2009-06-30 The generation of 1914 holds a special place in memory affection and myth In this irresistible and moving book Robert Wohl rescues it from the shadows of legend and brings it fully into the realm of understanding He tells the story of the young men the middle class elite of five European countries France Germany England Spain and Italy to recreate the generational consciousness that united them as well as the unique national experience that made them different These were men born at the end of the nineteenth century when the world of reason was disintegrating into a world of irrationality They were destined to rule but their lives were interrupted by the greatest of wars leaving them searching for identity and historical continuity Wohl recaptures this search through novels poems autobiographies memoirs sociological treatises philosophical essays university lectures political speeches conversations when recorded letters personal notebooks and newspaper articles His book is a brilliant study of European mentalities both collective and individual Probing behind ideas to find the experience that inspired them Wohl illuminates in unexpected ways the origins of World War I and its impact on its

participants His exploration of the consciousness of generational unity and the power of the generational bond enables him to place in a novel context the spread of pessimism and despair the waning of liberal and humanitarian values the rise of Communist and Fascist movements and the sudden eruption of violence in Europe s progressive countries between the two world wars

Speaking in Other Voices Joan Gross,2001-01-01 Linking actual instances of language use with structures of social power in francophone Belgium Gross outlines the history and contemporary configuration of rod puppetry in Li ge The analysis of this working class performance art moves between what occurs on and off stage As puppeteers speak in other voices sometimes in Walloon and sometimes in French they create a sociolinguistic model based on 19th century renditions of medieval texts the voices of past puppeteers and the language that surrounds them The high level of linguistic reflexivity created by the regional language movement has led to frequent metalinguistic and metapragmatic commentaries within the puppet shows This complex speech genre embedded in social context shows the influence of identity struggles from local class oppositions to imperial designs abroad Keeping a tight focus on language *Speaking in Other Voices* examines the process of entextualization and recontextualization as stories of war and religion are transmitted to succeeding generations

Military Review ,1977 **Hitler in Vienna, 1907-1913** J. Sydney Jones,2002-01-22 The Hitler who arrived in Vienna in 1907 was a young aspiring artist the man who left six years later was a hate filled dictator in the making destined to plunge the world into war Jones look at Hitler s formative years provides a startling and insightful picture into the future Fuhrer examining his career as an artist his acquaintances and his developing political beliefs Jones also explores the Vienna of those fragile years before World War I a home to an amazing array of artists thinkers and future leaders including Sigmund Freud composer Gustav Mahler philosopher Ludwig Wittgenstein Communist leader Leon Trotsky painter Gustav Klimt composer Arnold Schoenberg and many others In this remarkable setting where the days of the Austro Hungarian Empire were running out and suicide became a widespread trend Jones shows how the tumultuous period left a significant mark on the young Hitler

Description **The Culture of Time and Space, 1880-1918** Stephen Kern,2003-11-30 Kern writes about the changes in technology and culture between 1880 and World War I that created new modes of understanding and experiencing time and space He provides an illuminating new preface about the breakthrough in interpretive approach that has made this a seminal work in interdisciplinary studies *Russian Peasant Schools* Ben Eklof,2023-12-22 This pioneering study of primary schools in the Russian countryside during the late tsarist period examines the contribution of education to the transition to modernity The author links social institutional and cultural history thus providing a multi dimensional description of the village response to pressures of the modern world This pioneering study of primary schools in the Russian countryside during the late tsarist period examines the contribution of education to the transition to modernity The author links social institutional and cultural history thus providing a multi d *Millennials, Generation Z and the Future of Tourism* Fabio Corbisiero,Salvatore Monaco,Elisabetta Ruspini,2022-06-23 This book examines the lifestyles expectations and plans of Millennials and Generation Z and how they are redefining tourism It demonstrates that if the tourism industry is to enjoy future growth it must understand and meet the particular needs of these two generations The volume explores the present and future challenges faced by the tourism industry as a result of the generational turnover and seeks to answer the following questions What contribution can the new generations make to the future of tourism How are technological advancements and social networks shaping future travel trends Can a generational perspective be useful to help the tourism industry recover from the COVID 19 crisis The book will be of interest to researchers and students of sociology and tourism studies as well as tourism professionals *The American Century in Europe* R. Laurence Moore,Maurizio Vaudagna,2018-07-05 The notion of an American Century has fallen out of favor in recent years historians prefer to focus on the United States as part of a transatlantic community The contributors to this volume edited by R Laurence Moore and Maurizio Vaudagna seek to understand how the exercise of American power was in crucial ways shaped and limited by the historic ties of the United States to Europe They evaluate the impact of the American Century as publisher Henry R Luce named it in 1941 from Woodrow Wilson s dream of a new world order to Cold War economic policies to more recent American cultural imperialism and its immediate descendent American led globalization The American Century in Europe gathers an international group of scholars who explore the ways twentieth century American power diplomatic cultural and economic has been felt across the Atlantic The authors demonstrate that the American Century was marked less by American hegemony than by reciprocal influence between the United States and Europe The scale of American wealth certainly guaranteed influence abroad but as the essays demonstrate the American thirst for trade just as surely opened America s borders to cultures from around the world *Cities and the Making of Modern Europe, 1750-1914* Andrew Lees,Lynn Hollen Lees,2007-12-13 A survey of urbanization and the making of modern Europe from the mid eighteenth century to the First World War
