Apocalypse Amos Nur, Dawn Burgess, 2021-09-14 What if Troy was not destroyed in the epic battle immortalized by Homer What if many legendary cities of the ancient world did not meet their ends through war and conquest as archaeologists and historians believe but in fact were laid waste by a force of nature so catastrophic that religions and legends describe it as the wrath of god Apocalypse brings the latest scientific evidence to bear on biblical accounts mythology and the archaeological record to explore how ancient and modern earthquakes have shaped history and for some civilizations seemingly heralded the end of the world Archaeologists are trained to seek human causes behind the ruins they study Because of this the subtle clues that indicate earthquake damage are often overlooked or even ignored Amos Nur bridges the gap that for too long has separated archaeology and seismology He examines tantalizing evidence of earthquakes at some of the world's most famous archaeological sites in the Mediterranean and elsewhere including Troy Jericho Knossos Mycenae Armageddon Teotihuacan and Petra He reveals what the Bible the Iliad and other writings can tell us about the seismic calamities that may have rocked the ancient world He even explores how earthquakes may have helped preserve the Dead Sea Scrolls As Nur shows recognizing earthquake damage in the shifted foundations and toppled arches of historic ruins is vital today because the scientific record of world earthquake risks is still incomplete Apocalypse explains where and why ancient earthquakes struck and could strike again

Atoms, Bombs and Eskimo Kisses: A Memoir of Father and Son Claudio G. Segrè, 2019-08-09 There are few books that explore the complex relations between famous parents and their children I knew Claudio and his Nobel laureate father Emilio Segrè in this honest angry loving memoir I hear their voices again speaking

across the gulf that all families struggle to bridge Richard Rhodes author of *Dark Sun The Making of the Hydrogen Bomb* This is a warm and openhearted book Claudio Segr shows that all the traditional tensions between fathers and sons can still exist even in the extraordinary milieu he grew up in He evokes that experience with grace and a fine eye for the telling details Adam Hochschild author of *Half the Way Home* It s a wonderful book a coming of age story in the atomic era the struggle of a son for the love and respect of a famous father It is also a perceptive insight into the pursuit of science the price of fame and how families bridge differences between generations and cultures to find age old connections and ultimately love and understanding James Kunetka author of *City of Fire Los Alamos and the Atomic Age* and *Oppenheimer The Years of Risk* The Nobel Prize winning physicist Emilio Segr gave an account of his own life in the posthumously published *A Mind Always in Motion* In the present book Segr s only son now himself deceased gives an account of his growing up with such a father The experience as he describes it was not an easy one Transported in infancy from Italy to the United States Claudio was required to negotiate his way between his family s persistent conviction of European cultural superiority and the danger of being perceived as not one of us by his new compatriots Admiring his father he was conscious of himself as Son of Superman alternatively feeling eclipsed by and relishing the position Academically he was beset by a joyless desire to achieve and only seldom gained the praise or sympathy he longed for from his exacting and often sarcastic father But he discovered the delights of hot dogs comic books and baseball and forged ahead on his own by choosing the reputedly Red Reed College over his family s preferred Berkeley After graduation in search of work to which he could be as devoted as my father was to physics he spent some years as a journalist before ultimately making a creditable academic career as a historian along the way establishing an apparently satisfactory family life of his own The book ends with an account of his relations with his father as an adult including a disappointing attempt at a therapeutic confrontation Katherine Livingston *Science* How does a son emerge from his father s shadow when it is the size of a mushroom cloud Such was the plight of Claudio G Segr whose father Emilio won the Nobel Prize in Physics in 1959 and helped to create the atomic bomb He recounts his lifelong quest to establish an independent identity He also tells of his hope that his own success would earn him the respect and acceptance of his difficult father Segr alternately describes his father as Superman a mighty king and a basilisk a mythical reptile whose very look is fatal Nevertheless his father emerges as a good caring man unsure how to handle the fame that separates him from his son It is tragic therefore that no true reconciliation occurs and that Segr s only moment of catharsis takes place when it is already too late in 1989 when he delivers his father s eulogy Douglas A Sylva *The New York Times* In this heartfelt counterpart to his father s autobiography *A Mind Always in Motion* journalist and professor Claudio Segr attempts to shed some thawing light on the cold peace between father and son that lasted until Emilio Segr s death in 1989 despite the affectionate nose rubbings of the title *Publishers Weekly* The son of a Nobel laureate and Manhattan Project collaborator meditates on the inspirations and disappointments of a difficult relationship In 1959 the author s father shared the Nobel

Prize for his work on antimatter But fatherhood isn't as precise a science as physics and young Claudio mixed pride in his father's superman achievements with frustration and rage at the impossible standards and criticisms that so outweighed the occasional moment of affection between them Segr's memoir of an immigrant childhood is often poignant at bottom a thoughtful account of life with a father who found the behavior of atomic particles far easier to comprehend than the emotional life of his son Kirkus Reviews

Arab Women in Arab News Amal Al-Malki, David Kaufer, Suguru Ishizaki, Kira Dreher, 2012-03-15 This book addresses east west understandings of Arab women as portrayed through translated media The vast majority of media studies on Arab women are western based They study the effect of western stereotypes in western media depictions of Arab women There is a vast scholarly literature tracing western stereotypes of Arab women from medieval times to the present From 1800 the dominant western stereotype of Arab women depicts them as passive and oppressed Thirty years of social science media research in the west has shown that media images of Arab women reinforce this two hundred year old stereotype Much of this research has studied silent image bites of Arab women where women are pictured in veils and their own voices are replaced by western captions or voice overs This book sets out to answer this question To answer it we contracted with a global news translation service from the Middle East to collect and translate a sample of 22 months of new summaries from 103 Arab
