1911 Revolution A Retrospective After 70:

The 1911 Revolution, 1983 *The 1911 Revolution* Sheng Hu, 1983 ~**The 1911 Revolution** 1911年, 1983 *The 1911 Revolution : a Retrospective After 70 Years* Hu, Sheng, Liu, Ta-nien, 1983 *The 1911 Revolution* Danian Liu, Hu Sheng, 1983 *The 1911 Revolution* S. Hu, D. Liu, 1996 **The 1911 Revolution** Lai To Lee, 1987 Anarchy in the Pure Land Justin Ritzinger, 2017 Anarchy in the Pure Land shows that the modern Chinese reinvention of cult of Maitreya the future Buddha functioned as an important site for articulating a Buddhist vision of modernity **The Chinese in Southeast Asia and Beyond** Ching-Hwang Yen, 2008 The Chinese in Southeast Asia with their growing economic clout have been attracting attention from politicians scholars and observers in recent decades The rise of China as a global economic power and its profound influence over Southeast Asia has cast a spotlight on the role of Southeast Asian Chinese in the region s economic relations with China The Southeast Asian Chinese as an economic force and their growing importance with China are to a certain extent determined by the nature and development of their communities This book uses a multifaceted approach to unravel the forces that helped to transform the communities in the past Containing 17 papers written within a span of six and a half years from 2000 to 2006 the book focuses on the social economic and political aspects of these communities with special emphasis on the Chinese in Malaysia and Singapore *The Oxford History of the British Empire: Volume V: Historiography* Robin Winks, 2001-07-26 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future **Chen Jiongming and the Federalist Movement** Leslie Chen, 1999 The local self government movement in China began in the late Qing and by the Revolution of 1911 no less than five thousand self government councils had formed around the country While the idea of a federated state was cherished by

early revolutionaries a growing conflict between federalist and centralist leaders culminated in the defeat of federalism in the mid 1920s The story of this movement has since remained hidden behind Nationalist and Communist accounts of the early revolutionary struggle This study of Chen Jiongming s political career reopens the record on federalist efforts focusing on Chen s policies and administrative achievements in Fujian and Guangdong It describes Chen s role in the tumultuous politics of southern China from 1909 until his death in 1933 including his relationship and notorious break with Sun Yat sen the leader of the centralist revolutionaries Leslie Chen argues that his father s attempts to create a democratic federalist system in Guangdong were aimed at providing a model for China as a whole His account is lively and readable it gives an intimate yet historically accurate account of Chen Jiongming s considerable role in early twentieth century Chinese history Leslie Chen was born in Guangdong China In 1988 he compiled A Collection of Historiographic Materials for a Biography of Chen Chiung ming Jiongming 1878 1933 He has published two Chinese language biographies of Chen Jiongming

Marxism, China, and Development A. James Gregor, 2017-07-05 China has always been something of a mystery to Westerners For one generation Mao Zedong and his followers were simple agrarian reformers while for another they were the communist emperor and his blue ants In the 1970s some of the finest Sinologists believed there was much the United States could learn from Mao s Great Proletarian Cultural Revolution with regard to bureaucracy criminal justice health care and mass education By the 1980s those same theorists asserted that Maoism was nothing more than a feudal fascism and had absolutely nothing positive to teach Marxism China and Development provides a plausible explanation of these developments that have had such a powerful effect on the people of China for the past half century The author describes and explains the strange collection of beliefs that made up the Marxism of Mao Zedong He seeks to understand why the communist leadership of China like that of the USSR tried to spur economic growth by abandoning the market modalities common to developed economies A James Gregor s conceptual framework is both original and makes more comprehensible the history of Marxism and the history of China Among the major topics he covers are imperialism political democracy economics and alternatives to Maoism and Marxism for China While it is unlikely that our understanding of so complex a series of events as modern Chinese history will soon become less controversial Marxism China and Development s clear concise explanations will clarify some perplexing areas and make the new turns in Chinese political economy more understandable This is a monumental effort at theory construction that will be of interest to political scientists economists sociologists and Sinologists

Chinese Workers of the World Selda Altan, 2024-06-11 Chinese workers helped build the modern world They labored on New World plantations worked in South African mines and toiled through the construction of the Panama Canal among many other projects While

most investigations of Chinese workers focus on migrant labor Chinese Workers of the World explores Chinese labor under colonial regimes within China through an examination of the Yunnan Indochina Railway constructed between 1898 1910 The Yunnan railway a French investment in imperial China during the age of railroad colonialism connected French colonized Indochina to Chinese markets with a promise of cross border trade in tin silk tea and opium However this ambitious project resulted in fiasco Thousands of Chinese workers died during the horrid construction process and costs exceeded original estimates by 74% Drawing on Chinese French and British archival accounts of day to day worker struggles and labor conflicts along the railway Selda Altan argues that long before the Chinese Communist Party defined Chinese workers as the vanguard of a revolutionary movement in the 1920s the modern figure of the Chinese worker was born in the crosscurrents of empire and nation in the late nineteenth century Yunnan railway workers contested the conditions of their employment with the knowledge of a globalizing capitalist market fundamentally reshaping Chinese ideas of free labor national sovereignty and regional leadership in East and Southeast Asia

Transformation of China, 1840-1969 Amit Bhattacharyya, 2007 The discourse traces the path that China traversed from 1840 1969 In the first phase feudal China was transformed into a semi feudal and semi colonial China In the second phase the teeming multitude of the world over saw how the country the happy hunting ground of different imperialist powers was transformed means

A Partnership for Disorder Xiaoyuan Liu, 2002-07-25 A Partnership for Disorder examines American Chinese foreign policy planning in World War II for decolonising the Japanese Empire and controlling Japan after the war This study unravels some of the complex origins of the postwar upheavals in Asia by demonstrating how the US and China s disagreements on many concrete issues prevented their governments from forging an effective partnership The two powers quest for long term cooperation was further complicated by Moscow s eleventh hour involvement in the Pacific War By the war s end a triangular relationship among Washington Moscow and Chongqing surfaced from secret negotiations at Yalta and Moscow Yet the Yalta Moscow system in Asia proved too ambiguous and fragile to be useful even for the purpose of defining a new balance of power among the Allies The failure of the system was compounded by its obliviousness to Asia s dynamic nationalist forces
