The 1917 Code of Canon Law, also referred to as the **Pio-Benedictine Code**,^[1] was the first comprehensive codification of Latin canon law. It was promulgated on 27 May 1917 and took legal effect on 19 May 1918. It was in force until the 1983 Code of Canon Law took legal effect and abrogated it^[2] on 27 November 1983.^[2]

1 History

Cover of the 1917 Code of Canon Law

By the 19th Century, this body of legislation included some 10,000 norms. Many these were difficult to reconcile with one another due to changes in circumstances and practice. This situation impelled Pope St. Pius X to order the creation of the first Code of Canon Law, a single volume of clearly stated laws. Under the aegis of the Cardinal Pietro Gasparri, the Commission for the Codification of Canon Law was completed under Benedict XV, who promulgated the Code, effective in 1918. The work having been begun by Pius X and promulgated by Benedict XV, it is sometimes called the "Pio-Benedictine Code"^[3] but more often the 1917 Code. In its preparation, centuries of material was examined, scrutinized for

authenticity by leading experts, and harmonized as much as possible with opposing canons and even other codes, from the Codex of Justinian to the Napoleonic Code.

In response to the request of the bishops at the First Vatican Council,^[3] on 14 May 1904, with the *motu proprio* "*Archiducum avarae mentis*", Pope Pius X set up a commission to begin work on reducing these diverse documents into a single code,^[4] presenting the normative portion in the form of systematic short canons shorn of the preliminary considerations^[5] ("Whereas...") and omitting those parts that had been superseded by later developments.

The code was promulgated on 27 May 1917 as the Code of Canon Law (Latin: *Codex Iuris Canonici*) by his successor, Pope Benedict XV, who set 19 May 1918 as the date on which it came into force.^[6] For the most part, it applied only to the Latin Church except when "it treats of things that, by their nature, apply to the Oriental",^[7] such as the effects of baptism (canon 87). It contained 2,414 canons.^[8]

Newman, Canon Law, & Development David P. Long, 2024-10-25 John Henry Newman is well known as a theologian philosopher historian writer University rector and poet but can he also be associated with the field of canon law When Newman first proposed the possibility of doctrinal development as proof that the Catholic faith was free from corruption and error he claimed the Church is declared to be the great and special support of the Truth her various functionaries are said to be means towards the settlement of diversities and of uncertainty of doctrine and securing unity of faith For Newman these various functionaries included not only apostles prophets evangelists and pastors but also theologians and as is argued in this work canon lawyers While Newman and doctrinal development have become well explored topics in the field of theology there has been little scholarship on how Newman s thoughts on doctrinal development can influence current canon law and Church governance David Long addresses that lacuna by offering a

systematic analysis of Newman's concept of development within current canonical practice. It starts by tracing Newman's notions of personal judgment, public discussion, and episcopal moderation, followed by a presentation of the current canonical understanding of the theologian and finally an application of the connection between Newman's theory on development and present canonical legislation as it involves the role of the theologian. By undertaking such an application and by creating a model for discussion that preserves both development and Tradition, this work humbly proposes a valuable model for understanding the theologian's contribution within the life of the contemporary Church in ways not previously explored.

She who Imagines Laurie M. Cassidy, Maureen H. O'Connell, 2012. The idea and ideal of beauty has been used to oppress women of different ages, body types, skin color, and physical ability. The theoretical discussion of aesthetics has also been conditioned by these same dynamics of power and oppression. In *She Who Imagines*, a diverse set of scholars challenges the exclusion and false definitions while constructing capacious ideas that discover beauty in unexpected places. In these essays, the authors draw on a variety of arts media: painting, photography, portraiture, craftwork, poetry, and hip hop music, thereby joining beauty to truth and in a richly defining way to the practice of justice. In a variety of ways, all the essays link women's definitions of beauty with experiences of suffering and hence with the yearning for justice. All clearly prize resistance to degradation as an essential element of thought.

A Companion to Priesthood and Holy Orders in the Middle Ages Greg Peters, C. Colt Anderson, 2015-11-02. In *A Companion to Priesthood and Holy Orders in the Middle Ages*, a select group of scholars explain the rise and function of priests and deacons in the Middle Ages. Though priests were sometimes viewed through the lens of function, the medieval priesthood was also defined ontologically: those marked by God who performed the sacraments and consecrated the Eucharist. While their role grew in importance, medieval priests continued to fulfill the role of preacher, confessor, and provider of pastoral care. As the concept of ordination changed theologically, the practices and status of bishops, priests, and deacons continued to be refined with many of these medieval discussions continuing to the present day.

The Rebellion of the Daughters Rachel Manekin, 2025-07-15. In *fin de siècle Kraków* and shortly thereafter, hundreds of young orthodox Jewish women fled their homes and found refuge in the Felician Sisters' convent, where many of them converted to Catholicism. The book recounts this forgotten, perhaps suppressed episode in Eastern European Jewish history by reconstructing the stories of three of these women. It argues that the crisis in traditional Jewish society was precipitated by the practice of sending Jewish girls to Polish public and private schools in accordance with Habsburg law, while not providing them with any Jewish education. When it came time for them to marry, they rebelled against their orthodox parents and escaped to the convent. The book is the first study of Jewish women in Habsburg Galicia, many of them from Hasidic families. It draws on a wealth of sources: court files, police files, government correspondence, press reports, and contemporary literature to give voice to these young women.

Dispelling the Fog Lukáš Novák, Marie Tejklová (Eds.), 2022-04-27 2021 was the fifth anniversary of *Amoris L titia* and according to pope Francis it should have been a year of reflection on the exhortation an opportunity to focus more closely on the content of the document In response to this appeal *Dispelling the Fog* presents five essays analysing the issue of the so called divorced remarried and their access to the Eucharist in connection with the exhortation *Vojt ch imek* focuses on the crucial Chapter 8 of *Amoris L titia* and its possible interpretations Peter Dvo k examines and refutes the claim that the teaching of the exhortation is Thomistic Luk Nov k argues that even after *Amoris L titia* there is no sustainable argument to vindicate the legitimacy of administering the Eucharist to the remarried who refuse to commit themselves to abstinence Stanislav P ibyl interprets the ever increasing demand for unrestricted access to the Eucharist as a manifestation of a general tendency in the post conciliar Church to abandon the Sacrament of Penance Finally Marie Tejklov criticizes the so called Filial Correction for not adequately addressing the symptoms of modernism in *Amoris L titia* given that modernism is based on skepticism it cannot be countered by a mere appeal to the teaching of the Church but calls for a philosophical refutation The book further includes a foreword by bishop Athanasius Schneider an afterword by Professor Stanislav Soušek and rich indices

Clerical Celibacy in the West: c.1100-1700 Helen Parish, 2016-05-23 The debate over clerical celibacy and marriage had its origins in the early Christian centuries and is still

very much alive in the modern church The content and form of controversy have remained remarkably consistent but each era has selected and shaped the sources that underpin its narrative and imbued an ancient issue with an immediacy and relevance The basic question of whether and why continence should be demanded of those who serve at the altar has never gone away but the implications of that question and of the answers given have changed with each generation In this reassessment of the history of sacerdotal celibacy Helen Parish examines the emergence and evolution of the celibate priesthood in the Latin church and the challenges posed to this model of the ministry in the era of the Protestant Reformation Celibacy was and is intensely personal but also polemical institutional and historical Clerical celibacy acquired theological moral and confessional meanings in the writings of its critics and defenders and its place in the life of the church continues to be defined in relation to broader debates over Scripture apostolic tradition ecclesiastical history and papal authority Highlighting continuity and change in attitudes to priestly celibacy Helen Parish reveals that the implications of celibacy and marriage for the priesthood reach deep into the history traditions and understanding of the church **Robert Schuman**

Alan Fimister,2008 On 9th May 1950 Robert Schuman 1886 1963 made the historic declaration that would form the foundation of the European Community What is seldom appreciated is the remarkable degree to which Schuman s actions were the conscious implementation of the Neo Thomistic project of Pope Leo XIII 1878 1903 Leo sought to employ the intellectual resources of St Thomas Aquinas to achieve the restoration both in rulers and peoples of the principles of the Christian life in civil and domestic society The resolution of the Church s difficulties with the French Republic and republicanism generally was a central goal of Leo s programme In the half century that followed a series of philosophers sought to envisage the concrete conditions under which Leo s vision could be realised Foremost among them was Jacques Maritain 1882 1973 Robert Schuman was a close student of Aquinas and committed to the reconciliation of the Church and the Republic As French Foreign Minister he sought to act upon Maritain s belief that a European federation conceived under the banner of liberty would ultimately lead to the establishment of a new Christendom **Rethinking Cooperation with**

Evil Ryan Connors,2023-12-15 Rethinking Cooperation with Evil A Virtue Based Approach applies Thomistic virtue theory to today s most challenging questions of cooperation with evil For centuries moralists have struggled to determine the conditions necessary to justify moral cooperation with evil The English Jesuit Henry Davis even observed T here is no more difficult question than this in the whole range of Moral Theology This important book addresses this challenge by applying the virtue based method of moral reasoning of St Thomas Aquinas to issues of cooperation with evil Those who pastor souls report frequently receiving questions from attentive believers about whether a particular human action inadvertently contributes to some moral evil Examples of potentially immoral cooperation with evil include whether one may shop at a particular franchise known for its support of abortion whether Catholics may attend civil marriages outside the Church or whether an organization may submit to government mandates that health insurance include payment for immoral practices

Although recent moralists have tackled specific topics related to cooperation with evil agreement on an overall common paradigm has not yet been reached *Rethinking Cooperation with Evil* proposes a method for Christian believers and others to approach these questions from the foundation of the thought of St Thomas Aquinas and the magisterial teaching of the Catholic Church This text provides both an overall method for how to understand the issue of cooperation as well as practical counsel for specific cases *Rethinking Cooperation with Evil* advances the theological conversation on this topic from both speculative and practical vantage points To facilitate his argument Connors utilizes historical analyses that contrast Aquinas's method of moral reasoning with that of the casuist treatment of cooperation Consequently the book includes numerous case studies that will be of interest both to moral theologians and readers new to the topic

The Sacraments and Consumer Culture Timothy Brunk, 2020-05-08 2021 Catholic Media Association Award first place award in sacraments What does consumerism have to do with the sacraments We live in cultures where our senses of meaning identity and purpose are often found in what we purchase Apart from the question of hedonism there is the question of how we orient ourselves in an environment in which we end up marketing our very selves In this book Timothy Brunk examines how this consumer culture has had a corrosive effect on the seven sacraments of the Catholic Church He also assesses how sacramental worship can provide resources for responsible Christian discipleship in today's consumer culture

Sent Out into the World Michael McGourty, 2024-01-29 *Sent Out into the World* contains a liturgical theology for a parish community and the new evangelization that is derived from a reading of *The Order of the Dedication of a Church* For this reason its content can be attributed directly to a liturgical rite of the Catholic Church It is not the creation of any one person but rather an exercise in *lex orandi lex credendi* It presents a vision of the parish that comes directly from a rite of the church and focuses the parish community and its members on the mission that it has within the body of Christ Applying the content of the *ordo* to a parish community it presents a theology for those communities in which most Catholics meet the Lord and practice their faith The liturgical theology for a parish community that is presented here focuses all parish communities on Christ and his presence in the liturgical celebrations that take place in the parish churches As this ritual powerfully reminds the baptized from the liturgical and sacramental celebrations in which they encounter Christ in their parish church the faithful are to be sent out into the world as ministers of the new evangelization By reading this book every Christian who practices his or her faith within a parish community will be reminded of the mission which they are called to live as members dismissed to go into the world at the end of every eucharistic celebration

The Clergy Sex Abuse Crisis and the Legal Responses James T. O'Reilly, Margaret S. P. Chalmers, 2014 Legal disputes over worldwide including the U S sexual abuse by Roman Catholic priests and over efforts by Roman Catholic bishops to conceal clerical misconduct have produced many headlines and public discussion However the precise legal issues involved remain a mystery to most observers In this study James O'Reilly and Margaret Chalmers examine the role of canon law in these cases and the interplay between the global church based law and

the laws of individual jurisdictions where criminal actions and lawsuits are brought *Orthodoxy and the Roman Papacy* Adam A. J. DeVille, 2011-03-15 Among the issues that continue to divide the Catholic Church from the Orthodox Church the two largest Christian bodies in the world together comprising well over a billion faithful the question of the papacy is widely acknowledged to be the most significant stumbling block to their unification For nearly forty years commentators theologians and hierarchs from popes and patriarchs to ordinary believers of both churches have acknowledged the problems posed by the papacy In *Orthodoxy and the Roman Papacy Ut Unum Sint* and the Prospects of East West Unity Adam A J DeVille offers the first comprehensive examination of the papacy from an Orthodox perspective that also seeks to find a way beyond this impasse toward full Orthodox Catholic unity He first surveys the major postwar Orthodox and Catholic theological perspectives on the Roman papacy and on patriarchates enumerating Orthodox problems with the papacy and reviewing how Orthodox patriarchates function and are structured In response to Pope John Paul II's 1995 request for a dialogue on Christian unity set forth in the encyclical letter *Ut Unum Sint* DeVille proposes a new model for the exercise of papal primacy DeVille suggests the establishment of a permanent ecumenical synod consisting of all the patriarchal heads of Churches under a papal presidency and discusses how the pope qua pope would function in a reunited Church of both East and West in full communion His analysis involving the most detailed plan for Orthodox Catholic unity yet offered by an Orthodox theologian could not be more timely **Armsbearing and the Clergy in the History and Canon Law of Western Christianity** Lawrence G. Duggan, 2013 The history of the vexed relationship between clergy and warfare is traced through a careful examination of canon law In the first millennium the Christian Church forbade its clergy from bearing arms In the mid eleventh century the ban was reiterated many times at the highest levels all participants in the battle of Hastings for example who had drawn blood were required to do public penance Yet over the next two hundred years the canon law of the Latin Church changed significantly the pope and bishops came to authorize and direct wars military religious orders beginning with the Templars emerged to defend the faithful and the Faith and individual clerics were allowed to bear arms for defensive purposes This study examines how these changes developed ranging widely across Europe and taking the story right up to the present day it also considers the reasons why the original prohibition has never been restored Lawrence G Duggan is Professor of History at the University of Delaware and research fellow of the Alexander von Humboldt Foundation
