Voices from the Forest Malcolm Cairns, 2010-09-30 This handbook of locally based agricultural practices brings together the best of science and farmer experimentation vividly illustrating the enormous diversity of shifting cultivation systems as well as the power of human ingenuity Environmentalists have tended to disparage shifting cultivation sometimes called swidden cultivation or slash and burn agriculture as unsustainable due to its supposed role in deforestation and land degradation However a growing body of evidence indicates that such indigenous practices as they have evolved over time can be highly adaptive to land and ecology In contrast scientific agricultural solutions imposed from outside can be far more damaging to the environment Moreover these external solutions often fail to recognize the extent to which an agricultural system supports a way of life along with a society s food needs They do not recognize the degree to which the sustainability of a culture is intimately associated with the sustainability and continuity of its agricultural system Unprecedented in ambition and scope *Voices from the Forest* focuses on successful agricultural strategies of upland farmers More than 100 scholars from 19 countries including agricultural economists ecologists and anthropologists collaborated in the analysis of different fallow management typologies working in conjunction with hundreds of indigenous farmers of different cultures and a broad range of climates crops and soil conditions By sharing this knowledge and combining it with new scientific and technical advances the authors hope to make indigenous practices and experience more widely accessible and better understood not only by researchers and development practitioners but by other communities of farmers around the world

Philo of Alexandria - An Exegete for His Time Peder Borgen, 2014-04-09 Philo s writings are a comprehensive and important source of late Second Temple Judaism This volume gives important insights into his exegetical works The structure of the books and their exegetical ideas are seen here as being closely connected and his writings are analysed against the background of the history variety and outlook of Alexandrian Jewry Philo s exegesis is a meeting place between Jewish and Greek notions and ideas tensions are reflected such as those between particularism and universalism between specific biblical and historical earthly events and general macro and micro cosmic principles and between heavenly ascents and interpreted history and eschatology In addition glimpses are gained of community life in a Hellenistic Jewish community especially of issues on the borderline between Jews and their non Jewish surroundings New Testament material illuminates Philo s broader Jewish context and in turn Philo throws light on New Testament backgrounds
