John Clayton

1999 World Encyclopedia On Cd Rom:

CD-ROMs in Print, 2003 *The Source* John Clayton, 2010-06-15 What is the origin of the world and of life itself Did a series of accidents and evolution bring about the world as we know it Or is there a design and purpose behind it all And if there is a design is there an ultimate designer A number of years ago John Clayton a second generation atheist and respected scientist and teacher set out to disprove the Bible from a scientific point of view Instead his six year study brought him to a profound faith in the God of the Bible Now in this highly informative and easy to understand book John Clayton and Nils Jansma a geotechnical engineer and geologist present convincing evidence that the Bible and the facts of science agree As the public moves away from a belief in God as Creator of our heaven and earth it becomes imperative that all believers be well informed on this vital subject This book will become a resource you will use again and again *The Software*
