Drive to Hegemony David Healy, 1988 In the 1890s the Caribbean began to attract the interest of the great powers United States leaders had both economic and strategic goals in the region and they believed they could profit from Caribbean nations while leading them to democracy and prosperity American citizens saw the lack of progress in the Caribbean as the result of the inhabitants inferiority and they feared that European countries particularly Germany might fill the region s power vacuum The Spanish American War crystallized U S interests in the region soon there was an isthmian canal a protectorate in Cuba and a colony in Puerto Rico But Washington s policy makers soon faced growing problems in the Caribbean How to bring peace to these countries without being drawn into domestic squabbles How to impose U S policy without the use of force How to promote local democracy while retaining a controlling interest Eventually the goals of local economic development and self determination were sacrificed to the need for security and stability often brought about through U S supported dictatorships Healy integrates these elements into a broad picture of U S policy development in the Caribbean the differences between successive administrations from McKinley to Wilson the role of the armed forces inter agency differences and the role of private enterprise and private citizens He considers the underlying assumptions of both U S policy makers and their Caribbean counterparts forming a balanced and accurate assessment Inside jacket flaps

sailed flat and sure and soon became my new home One of its best features was its ability to take me places I d never been where I would meet characters I could not have imagined or made up One of them was an exciting woman We hooked up at a high school reunion our 40th Now I invite you to spend some time with a new if vintage skipper on this voyage of discovery The years go by quickly I promise you John Huetter Born into a military family John Huetter first sailed at age nine during long summers on the Mediterranean The boat was 12 ft long wooden with a single canvas sail and hemp rigging Nearly fifty years later he went sailing again this time on a cruising catamaran from the U S East Coast to the West Coast stopping by the Bahamas Caribbean South America en route to the Panama Canal Central America and Mexico In between the author played football and rowed crew in high school jumped for the USAF Academy Parachute Team designed computer control systems raced and tested off road motorcycles and started up alternate energy and technology R D companies He also had a long happy relationship and two wonderful children He s currently looking for that beach with clear warm water and the perfect surf break
