Creating Spaces And Finding Voices:

Creating Spaces and Finding Voices Janet L. Miller, 1990-07-05 This book follows the shared journey of five classroom teachers and a university professor as they together examine the possibilities and dilemmas of collaborative inquiry and teacher empowerment Teachers voices in spite of their similarities and differences still are not heard in the clamor for educational reform nor are they recognized on the national agendas for research on teacher education Miller and her colleagues articulate and question the contexts and assumptions that influence and frame teaching practice as they explore the constraints and the possibilities of defining and thus empowering teachers as teacher researchers Here the multiple and changing voices of teachers are clearly heard and Miller shares their experiences their frustrations their hopes and their issues By grounding these concerns within the particularities of their teaching Miller and her colleagues explore concrete situations in which they challenge and support one another Through these stories of collaborative efforts others are invited to join together in the continuous process of creating those spaces in which all teachers voices may be acknowledged and valued

Sounds of Silence Breaking Janet L. Miller, 2005 This book contains a broad range of Millers writings and intertwines interpretations of educational theories events and practices throughout private and public dimensions of Miller s life

Representation and the Text William G. Tierney, Yvonna S. Lincoln, 1997-01-01 Focuses on authorial representations of contested reality in qualitative research This book focuses on representations of contested realities in qualitative research The authors examine two separate but interrelated issues criticisms of how researchers use voice and suggestions about how to develop experimental voices that expand the range of narrative strategies Changing relationships between researchers and respondents dictate alterations in textual representations from the view from nowhere to the view from a particular location and from the omniscient voice to the polyvocality of communities of individuals Examples of new representations and textual experiments provide models for how some authors have struggled with voice in their texts and in so doing broaden who they and we mean by us

Feminism And Social Justice In Education Kathleen Weiler, 2005-08-04 After more than twenty years of feminist education research policy development and innovative school practice it seems appropriate to evaluate the impact and significance of this world wide struggle for social justice in education At the same time the recent restructuring of educational provision whether in the name of sexual equality or the ideologies of the New

Right also requires a considered response from Those Committed To Promoting Greater Social Equality This Collection offers a unique opportunity to host an international forum on contemporary thinking and practice not just within different national contexts but for feminism more generally In adopting a critical feminist approach the chapters re establish such egalitarian traditions as radical feminism black feminism and socialist feminism and address such themes as the interrelation between social class race and gender and the ways these articulate with feminist educational practice In gathering together leading educators from five different countries all committed to the project of social transformation this book represents the shifting concerns of the feminist theoretical debate and helps formulate feminist educational agendas more suited to the political and economic conditions which prevail in the 1990s

Feminist Science Education Angela Calabrese Barton,1998 This volume presents a case for liberatory science education from a feminist perspective Based on a two year teacher research study Feminist Science Education questions and challenges how power and knowledge relationships position teachers students and science with and against one another in the classroom Using stories about life in and out of the classroom this book describes the impact that exploring this situated nature of science and teaching has for transforming science education

(Post)Critical Methodologies: The Science Possible After the Critiques Patti Lather,2017-02-03 In the World Library of Educationalists series international experts themselves compile career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings major theoretical and practical contributions so the world can read them in a single manageable volume Readers will be able to follow the themes and strands and see how their work contributes to the development of the field Post Critical Methodologies forms a chronology through the texts and concepts that span Patti Lather s career Examining post critical feminist and poststructural theories Lather s work is organized into thematic sections that span her 35 years of study in this field These sections include original contributions formed from Lather s feminism and critical theory background They contain her most cited works on feminist research and pedagogy and form a collection of both early and recent writings on the post and post post with a focus on critical policy studies and the future of post qualitative work With a focus on the implications for qualitative inquiry given the call for scientifically based research in education this compelling overview moves through Lather s progressive thoughts on bridging the gap between quantitative and qualitative research in education and provides a unique commentary on some of the most important issues in higher education over the last 30 years This compilation of Lather s contribution to educational thinking will prove compelling reading to all those engaged in student learning in higher education worldwide

Inside Stories Kathleen B. deMarrais, 2012-12-06 Although articles reporting research studies are helpful in acquainting students with methodological approaches they often make the process look so straightforward clean and effortless It is rare to find an article that tells the real story behind the finished product By having real researchers tell their own stories of mucking around with methodological and ethical issues in qualitative research we get a more realistic human story of the process This is a collection of such stories Authors were asked to describe their own experiences with methodological and ethical struggles as they engaged in their work Each of the essays offers insight into the research approach used as well as particular issues which became apparent during the research process Key issues raised by the authors include early learnings gaining entry overlapping conflicting roles and the boundaries of these roles differential power relationships who tells the story and whose story is told ethical concerns related to confidentiality and the influence of a researcher s particular philosophy or theoretical framework on his or her research Throughout the book we see scholars whose personal stories or autobiographies intersect closely with their research projects deMarrais introduces a unique framework to help students gain an overview of qualitative research methods and the underpinnings and processes in these approaches This framework is centered on the ways we understand phenomena using qualitative research approaches that engage archival knowledge narrative knowledge or observational knowledge
