Building Bridges of Understanding Lucia De Garcia, 2012-10-19 The idea for this book began to form in my mind when in a rather rare moment of solitude I stood on a high bluff overlooking the Pacific Ocean contemplating a lovely Southern California sunset As I gazed to the horizon at the vivid red and orange hues of the setting sun a gentle sea breeze carried to my ears the faint whispers of my ancestors imploring me from across the ages to pen the words that would chronicle their struggles It seemed to me significant that their efforts which most certainly influenced and shaped my life would now provide me the inspiration to write this book Thus I made the decision to embark upon this story which I hope will serve not only as an enduring testimonial to the trials and tribulations of my forebears but also as a guide to inspire others to share their life experiences through the written word In the northern part of the South American continent in the Andean Mountains the longest mountain range in the world I was born the fifth of eleven siblings My given name is Luca Fabiola Giraldo Estrada Botero Vega Restrepo Londoo a cultural tradition in Latin America to instill in us a sense of heritage so we will never forget our roots going back at least three generations This narrative contains both humorous and serious anecdotes It includes ancient wisdom poetry and songs in Spanish and English that still resonate in my heart chart the course of my life and sustain me The people I have met in my tireless and frequent journeys across hemispheres have transformed my life world leaders in politics religion business community building and the arts I especially want to share events that deeply moved me in sacred places and paid homage alongside believers including Cistercian monks Shamans Muslims Hindus Buddhists Christians and Jews all of whom

contributed to and nourished my spiritual being As a woman an immigrant a minority by public definition a Latina or Hispanic I faced many challenges in finding the courage to venture into the international business arena and travel across the world mostly alone to follow my vision I finally overcame them It is far better to explore problems rather than become paralyzed by them Spanish is my mother language and I learned English later in life While writing this book the two languages collided at times as I journeyed to the depths of my heart to dig into my feelings and describe my life experiences Discovering a new world is an adventure worthy of the many challenges The reasons are obvious it requires money time and determination the uncertainty of a new destination different cultures and traditions the strangers you will meet along the way and the unexpected outcomes are part of the unknown challenges you will encounter I have been to remote and exotic places from the north to the south of the American continent from the Bearing to the Magellan Straits and across the Americas From the east to the west of five continents crossing the Gibraltar Strait between Africa and Europe and sailing the South Pacific Islands the Mediterranean Indian China and the Caribbean Seas To south and east of the African continent on safaris or visiting secluded villages and mountains to work on behalf of child education programs with the purpose of teaching them to survive to preserve the environment and to protect endangered species My legacy and lifes mission is to contribute to humanity to collaborate in building bridges of hope and understandingbridges between people who respect each others differences and value each others shared humanity These are the bridges that people of all cultures must build restore and cross together to reach the land of unity and peace for all My multifaceted life gave me the courage I needed to undertake this story telling mission and my spiritual walk gave me guidance inspiration and the strength The Bridge to Understanding Pasquale De Marco,2025-07-19 In a world where division and misunderstanding seem to be on the rise The Bridge to Understanding offers a timely and essential guide to building bridges between people from all walks of life This comprehensive book explores the importance of understanding in our personal lives our communities and the world at large It provides practical tools and strategies for developing the skills and knowledge needed to understand others even when they come from different cultures backgrounds or perspectives The book begins by examining the foundations of understanding including the importance of empathy active listening and open mindedness It then delves into the challenges to understanding such as prejudice discrimination and conflict The author provides guidance on how to overcome these challenges and build bridges of communication and connection The book also explores the role of understanding in various aspects of our lives including relationships community the workplace and the global stage It offers insights into how understanding can help us build stronger relationships create more inclusive communities foster collaboration and teamwork and address global issues such as poverty inequality and climate change With its clear and engaging writing style The Bridge to Understanding is an invaluable resource for anyone who wants to improve their ability to understand others and build stronger connections with the world around them This book is essential reading for anyone who wants to Build stronger
