Tucker, 2012 A Beautiful Anarchy How to Create Your Own Civilization in the Digital Age is Jeffrey Tucker s rhapsodic hymn to the digital age and a call to use the tools it has granted us to enhance human freedom and reduce and end intellectual dependency on the state It shows that every truly valuable aspect of our lives extends not from politics and the regime but from our own voluntary choices The aims of A Beautiful Anarchy are 1 to draw attention to the reality that surrounds us but we hardly ever bother to notice much less celebrate 2 to urge a willingness to embrace this new world as a means of improving our lives regardless of what the anachronistic institutions of power wish us to do 3 to elucidate the causes and effects that have created this new world and 4 to urge more of the good institutions that have created this beautiful anarchy This books covers the uses of social media the blessed end of the nation state the way the government is destroying the physical world the role of commerce in saving humanity the depredations of nation state monetary policy the evil of war and the lie of national security and private societies as agents of liberation And it offers a hopeful prognosis for a creative and productive world without central control The book is topical pithy and anecdotal yet points to the big ideas and the larger picture to help frame the great economic and political debates of our time Book description Amazon com **Marketing**
