Creation Myths of Primitive America in Relation to the Religious History and Mental Development of Mankind

Jeremiah Curtin,1899 *Creation Myths of Primitive America* Karl Kroeber,2002-11-05 The remarkably accurate original translations of Native American myths from one of 19th century America s foremost linguists Native American mythology shows vestiges of religious concepts already old when the Egyptians evolved their form of worship This volume offers an unusual collection of myths from two Native American cultures the Wintu and Yana recorded and translated in the 1880s by Jeremiah Curtin one of the outstanding American linguists of the later 19th century Because Curtin sought out storytellers who were not influenced by other cultures his translations offer remarkably accurate accounts of the fundamental beliefs of Native Americans In his introduction Curtin explains the profound antiquity of these myths of creation which preserve some of the earliest religious expression He also provides an unflinching account of the appalling genocidal attacks on the peaceful Yana by white Californians in the 1860s Because the Yana became extinct Curtin s rendering of some of their important myths is an especially valuable contribution to contemporary understanding of Native American mythology *Creation Myths of Primitive America in Relation to the Religious History and Mental Development of Mankind, Part 1* Jeremiah Curtin,2023-07-18 Explore the mythology of primitive America with Jeremiah Curtin s scholarly work *Creation Myths of Primitive America in Relation to the Religious History and Mental Development of Mankind Part 1* This book offers a comprehensive analysis of the cultural and psychological aspects of myth making This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

Creation Myths of Primitive America Jeremiah Curtin,1969 **Creation Myths of Primitive America** Jeremiah

Curtin,2014-02 THE creation myths of America form a complete system they give a detailed and circumstantial account of the origin of this world and of all things and creatures contained in it In the course of the various narratives which compose this myth system an earlier world is described to us with an order of existence and a method of conduct on which the life of primitive man in America was patterned That earlier world had two periods of duration one of complete and perfect harmony another of violence collision and conflict The result and outcome of the second period was the creation of all that is animated on earth except man Man in the American scheme of creation stands apart and separate he is quite alone peculiar and special Above all he belongs to this continent The white man was unknown to American myth makers as were also men of every other race and of every region outside of the Western Hemisphere Described briefly and by an Indian the American

myth system is as follows There was a world before this one in which we are living at present that was the world of the first people who were different from us altogether Those people were very numerous so numerous that if a count could be made of all the stars in the sky all the feathers on birds all the hairs and fur on animals all the hairs of our own heads they would not be so numerous as the first people **Creation Myths of Primitive America** Jeremiah Curtin,1999-01-01 This Elibron Classics title is a reprint of the original edition published by Williams and Norgate in London 1899 **Creation Myths of Primitive America in Relation to the Religious History and Mental Development of Mankind** Jeremiah Curtin,1899

recurrent which began before all the first people were metamorphosed conflicts which are going on at present and which will go on forever struggles between light and darkness heat and cold summer and winter struggles between winds which blow in opposite directions in fact accounts of various phenomena and processes which attract the attention of savage men more than others because savage men are living face to face with them always We must not consider the final act as the whole the change had been in process for a long period and the final words from opponents in conflict the commands of Ollebis the decisions of personages who changed themselves at the approach of Indians or at signs of their coming are but the very last act the final incident the official ending so to speak of an immensely long career in each case **Native American**
