Roberts,David Sims,2017-09-30 There is a great deal of interest in churches across the UK US and Europe about applying ideas from the world of leadership and management to Christian ministry There are those who wish to apply sometimes quite uncritically mechanistic approaches which they hope will enable churches to be run in a more business like manner There are also those who argue that insights from organizational studies have no place whatsoever in churches This innovative and original book builds on qualitative thinking about organizational narrative and argues that it can provide significant insights into how churches function which is much more in keeping with their ethos and history As well as analysing how stories and storytelling work in churches it also provides practical ideas for how they can be used to improve church leadership Taking the work of organizational thinkers and researchers and bringing it into conversation with biblical scholars theologians and church historians the authors establish a conversation across these disciplines and explore how story and narrative work through and within churches
