Útrásarvíkingar! Alaric Hall, 2020 As the global banking boom of the early twenty first century expanded towards implosion Icelandic media began calling the country's celebrity financiers *trásarvíkingar* raiding vikings This new coinage encapsulated the macho medievalist nationalism which underwrote Iceland's exponential financialisation Yet within a few days in October 2008 Iceland saw all its main banks collapse beneath debts worth nearly ten times the country's GDP Hall charts how Icelandic novelists and poets grappled with the Crash over the ensuing decade As the first English language

monograph devoted to twenty first century Icelandic literature it provides Anglophone readers with an introduction to one of the world's liveliest literary scenes. It also contributes a key case study for understanding global artistic responses to the early twenty first century crisis of runaway unregulated capitalism exploring the struggles of writers to adapt realist forms of art to surreal times. As Iceland's biggest crisis since their independence from Denmark in 1944 the effect of the Crash on the national self image was as seismic as its effects on the economy. This study analyses the centrality of whiteness and the abjection of the developing world in Iceland's post colonial identity and shows how Crash writing explores the collisions of Iceland's traditional nationalist medievalism with a dystopian Orientalist medievalism associated with the Islamic world. The Crash in Iceland was instantly recognised as offering important economic insights. This book shows how Iceland also helps us to understand the cultural convulsions that have followed the Financial Crisis widely in the West.

J.G. Ballard's Surrealist Imagination Jeannette Baxter, 2016-12-05 Making the case that J.G. Ballard's fictional and non fictional writings must be read within the framework of Surrealism Jeannette Baxter argues for a radical revisioning of Ballard that takes account of the political and ethical dimensions of his work. Ballard's appropriation of diverse Surrealist aesthetic forms and political writings Baxter suggests are mobilised to contest official narratives of postwar history and culture and offer a series of counter historical and counter cultural critiques. Thus Ballard's work must be understood as an exercise in Surrealist historiography that is politically and ethically engaged. Placing Ballard's illustrated texts within this critical framework permits Baxter to explore the effects of photographs drawings and other visual symbols on the reading experience and the production of meaning. Ballard's textual spectacles raise a variety of questions about the shifting role of the reader and the function of the written text within a predominantly visual culture while acknowledging the visual contexts of Ballard's Surrealist writings allows a very different historical picture of the author and his work to emerge.

In the Shadow of the Bomb Niall Heffernan, 2018-04-03 Detective McNulty applies bite marks to a deceased man's body with a set of dentures in *The Wire* illustrating how officialdom deals in falsehood. Dr Strangelove lovingly describes the doomsday machine as being free from human meddling while it destroys the world highlighting the absurdity of placing systems above any moral considerations. In *Crash* Ballard survives a car accident only to be cared for by a paternal technology that tends only to his physical needs a life of technical certitude bereft of beauty. The Cold War with its promise of imminent and purposeless doom profoundly shaped the post modern world in ways that are not yet appreciated. This study examines the Cold War zeitgeist and its aftermath as shown in fiction film and television.
