Making a Nation, Breaking a Nation Andrew Wachtel, 1998 This book focuses on the cultural processes by which the idea of a Yugoslav nation was developed and on the reasons that this idea ultimately failed to bind the South Slavs into a viable nation and state The author argues that the collapse of multinational Yugoslavia and the establishment of separate uninational states did not result from the breakdown of the political or economic fabric of the Yugoslav state rather that breakdown itself sprang from the destruction of the concept of a Yugoslav nation Had such a concept been retained a collapse of political authority would have been followed by the eventual reconstitution of a Yugoslav state as happened after World War II rather than the creation of separate nation states Because the author emphasizes nation building rather than state building the causes and evidence he cites for Yugoslavia's collapse differ markedly from those that have previously been put forward He concentrates on culture and cultural politics in the South Slavic lands from the mid nineteenth century to the present in order to delineate those ideological mechanisms that helped lay the foundation for the formation of a Yugoslav nation in the first place sustained the nation during its approximately seventy year existence and led to its dissolution The book describes the evolution of the idea of Yugoslav national unity in four major areas linguistic policies geared to creating a shared national language the promulgation of a Yugoslav literary and artistic canon an educational policy that emphasized the teaching of literature and history in schools and the production of new literary and artistic works incorporating a Yugoslav view In the book's conclusion the author discusses the relevance of the Yugoslav case for other parts of the world considering whether the triumph of particularist nationalism is inevitable in multinational states

Building a Nation at War J. Megan Greene, 2023-11-20 Building a Nation at War argues that the Chinese Nationalist government's retreat inland during the Sino Japanese War 1937-1945 its consequent need for inland resources and its

participation in new scientific and technical relationships with the United States led to fundamental changes in how the Nationalists engaged with science and technology as tools to promote development. The war catalyzed an emphasis on applied sciences, comprehensive economic planning and development of scientific and technical human resources, all of which served the Nationalists' immediate and long-term goals. It created an opportunity for the Nationalists to extend control over inland China and over education and industry. It also provided opportunities for China to mobilize transnational networks of Chinese Americans, Chinese in America, and the American government and businesses. These groups provided technical advice, ran training programs, and helped the Nationalists acquire manufactured goods and tools. J. Megan Greene shows how the Nationalists worked these programs to their advantage, even in situations where their American counterparts clearly had the upper hand. Finally, this book shows how, although American advisers and diplomats criticized China for harboring resources rather than putting them into winning the war against Japan, U.S. industrial consultants were also strongly motivated by postwar goals.

Football and Nation Building in Colombia (2010-2018) Peter J. Watson, 2022-06-09. An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM. This book explores the pivotal role that football played as part of Colombian President Juan Manuel Santos' national unity project, centred on the peace process with the FARC. Football has huge political and social capital in Latin America and has often been rhetorically deployed by governments for various ends; rarely, however, has football's power and potential been used in such a deliberate, strategic and active way towards a national peace process and targeted such enduring divisions that have historically impeded a sense of a united nation and national identity. Football in Colombia is understood popularly as one of the few things capable of uniting the country, a belief that Santos seized upon as the national team had a successful campaign in the 2014 World Cup. This first book on Colombian football in English explores previous iterations of football nationalism in the country, including the El Dorado and Narcofootball eras, before analysing Santos' three-pronged strategy: empowering professional and amateur football, including the use of political speeches and Twitter; legislation and public policy; and Sport for Development and Peace campaigns, with a particular focus on football in the FARC demobilisation and reincorporation camps following the historic peace agreement.

examines how Latin American countries and Spain tried to build modern and efficient state institutions for more than a century without much success The Spanish and Latin American experience of the nineteenth century was arguably the first regional stage on which the organizational and political dilemmas that still haunt states were faced This book provides an unprecedented perspective on the development and contemporary outcome of those state and nation building projects

Creating a Place For Ourselves Brett Beemyn, 2013-05-13 *Creating a Place For Ourselves* is a groundbreaking collection of essays that examines gay life in the United States before Stonewall and the gay liberation movement Along with examining areas with large gay communities such as New York San Francisco and Fire Island the contributors also consider the thriving gay populations in cities like Detroit Buffalo Washington D C Birmingham and Flint demonstrating that gay communities are truly everywhere Contributors Brett Beemyn Nan Alamilla Boyd George Chauncey Madeline Davis Allen Drexel John Howard David Johnson Liz Kennedy Joan Nestle Esther Newton Tim Retzliff Marc Stein Roey Thorpe *A Nation Transformed by Information* Alfred D. Chandler, Jr., James W. Cortada, 2000 This book makes the startling case that North Americans were getting on the information highway as early as the 1700 s and have been using it as a critical building block of their social economic and political world ever since From the beginning North Americans were willing to invest in the infrastructure to make such connectivity possible This book explores what the deployment of these technologies says about American society The editors assembled a group of contributors who are experts in their particular fields and worked with them to create a book that is fully integrated and cross referenced **The Imaginary Australian** Miriam Dixon, 1999 Examination of the nature of Australian national identity includes reference to Aborigines discussed in terms of violence racism guilt remorse and memory questions the characterisation of race relations through forgetting and silence Stanner and violence Rowley argues that simplified historical narratives about race relations impede reparative energy in race relations psychological understanding of racism theories of the nation crisis of history and time in Australia and its impact on identity **Language Policy and Nation-Building in Post-Apartheid South Africa** Jon Orman, 2008-08-27 The preamble to the post apartheid South African constitution states that South Africa belongs to all who live in it united in our diversity and promises to lay the foundations for a democratic and open society in which government is based on the will of the people and every citizen is equally protected by law and to improve the quality of life of all citizens This would seem to commit the South African government to amongst other things the implementation of policies aimed at fostering a common sense of South African national identity at societal development and at reducing of levels of social inequality However in the period of more than a decade that has now elapsed since the end of apartheid there has been widespread discontent with regard to the degree of progress made in connection with the realisation of these constitutional aspirations The limits to liberation in the post apartheid era has been a theme of much recent research in the fields of sociology and political theory e.g. Luckham 1998 Robins 2005a Linguists have also paid considerable attention to the South African situation with the realisation that many of

the factors that have prevented and are continuing to prevent effective progress towards the achievement of these constitutional goals are linguistic in their origin

A Nation's Hope: Stability, Struggle, and Innovation in the Realm of Currency Pasquale De Marco, 2025-05-17 In the realm of economic history Argentina stands as a nation that has relentlessly pursued stability and prosperity often against daunting odds This book delves into the intricacies of Argentina's monetary and economic policies offering a comprehensive examination of the country's quest for lasting growth The narrative begins with Argentina's early attempts to establish a stable currency and financial system The implementation of the Caja de Conversi3n a currency board that pegged the peso to gold brought a period of unprecedented stability and economic growth However the nation's vulnerability to external shocks and internal imbalances ultimately led to the collapse of the currency board and a severe economic crisis The aftermath of the currency board's failure left Argentina grappling with the need for a new monetary framework The adoption of the Convertibility Plan which pegged the peso to the U S dollar ushered in a period of stability and growth However the plan's rigid exchange rate regime proved unsustainable in the face of external economic pressures culminating in the Convertibility Crisis of 2001 The economic fallout from the Convertibility Crisis was devastating Argentina faced a deep recession soaring unemployment and a sharp increase in poverty The nation embarked on a difficult journey of economic recovery implementing structural reforms and seeking international assistance The adoption of a more flexible exchange rate regime and the implementation of prudent monetary and fiscal policies gradually restored stability and growth Despite these achievements Argentina's economy remains vulnerable to external shocks and internal imbalances The country's history serves as a cautionary tale highlighting the challenges of maintaining economic stability in a globalized and interconnected world Yet it also demonstrates the resilience and determination of a nation committed to building a prosperous future for its citizens This book is an essential resource for economists policymakers and anyone interested in understanding the complexities of managing a nation's finances It provides a valuable lens through which to examine the challenges and triumphs of a nation striving for stability and growth in a dynamic and interconnected global economy If you like this book write a review on google books

Building the Nation Heather Selma Gregg, 2018-12-01 Building the Nation draws from foreign policy reports and interviews with U S military officers to investigate recent U S led efforts to nation build in Iraq and Afghanistan Heather Selma Gregg argues that efforts to nation build in both countries focused more on what should be called state building or how to establish a government rule of law security forces and a viable economy Considerably less attention was paid to what might truly be called nation building the process of developing a sense of shared identity purpose and destiny among a population within a state's borders and popular support for the state and its government According to Gregg efforts to stabilize states in the modern world require two key factors largely overlooked in Iraq and Afghanistan popular involvement in the process of rebuilding the state that gives the population ownership of the process and its results and efforts to foster and strengthen national unity Gregg offers a hypothetical look at how the United States and its allies could have used a population centric approach to build viable states in Iraq and Afghanistan focusing on initiatives that would have given the population buy in and agency Moving forward Gregg proposes a six step program for state and nation building in the twenty first century stressing that these efforts are as much about how state building is done as they are about specific goals or programs

Rodriguez, 2016-12-01 Focused on the appropriation of John Dewey's ideas on progressive education in revolutionary Mexico this book reconsiders the interpretation and application of Dewey's ideas in the world Rodriguez examines the use of Dewey in Mexico's state building projects as a vantage point to assess the global impact of Dewey's pedagogy As these projects converged with Dewey's desire to employ education as a tool for effective social change Rodriguez understands Dewey not just as a philosopher but as an integral part of the Americas progressive movement and era

Media and Nation Building John Postill, 2006 With the end of the Cold War and the proliferation of civil wars and regime changes the question of nation building has acquired great practical and theoretical urgency From Eastern Europe to East Timor Afghanistan and recently Iraq the United States and its allies have often been accused of shirking their nation building responsibilities as their attention and that of the media turned to yet another regional crisis While much has been written about the growing influence of television and the Internet on modern warfare little is known about the relationship between media and nation building This book explores for the first time this relationship by means of a paradigmatic case of successful nation building

Malaysia Based on extended fieldwork and historical research the author follows the diffusion adoption and social uses of media among the Iban of Sarawak in Malaysian Borneo and demonstrates the wide ranging process of nation building that has accompanied the Iban adoption of radio clocks print media and television In less than four decades Iban longhouses villages under one roof have become media organizations shaped by the official ideology of Malaysia a country hastily formed in 1963 by conjoining four disparate territories *Creating the National Mosaic* Miriam Verena Richter,2011 Preliminary Material National Identity Formation The Canadian Situation Canadian Cultural Policy with Regard to Children s Culture and Literature The Immigrant Experience as Depicted in Anglo Canadian Youth Fiction 1950 1994 The Development of Canadian Multicultural Children s Literature Conclusion and Outlook for the Future Bibliography Index
