Creating Outdoor Classrooms Lauri Macmillan Johnson, Kim Duffek, 2010-01-01 Schoolyards have come a long way from the barren playgrounds that many people remember Today s school campuses often feature gardens in which students can learn about native plants and wildlife grow vegetables and fruit explore cultural traditions practice reading and math skills and use their imaginations to create fun play spaces And for a growing number of urban students these schoolyard gardens offer the best if not the only opportunity to experience the natural world firsthand and enjoy its many benefits This book is a practical hands on guide for creating a variety of learning environments in the arid Southwest Filled with clear easy to use information and illustrated with photographs drawings and plans the book covers everything necessary to create schoolyard gardens An introduction to schoolyards as outdoor classrooms and several types of habitats including art gardens cultural history gardens ecological gardens literacy gardens and vegetable gardens Design theory including a history of garden styles and design principles and design elements Beginning the design process including identifying participants and writing a design program that sets out goals and requirements Conducting site research and synthesizing design elements to arrive at a final design Design essentials including project funding and design features maintenance accessibility safety and project evaluation and revision Wildlife ecology including elements needed for survival such as food and shelter Creating gardens for pollinators and other wildlife including hummingbirds butterflies bees moths bats and flies as well as pest control Lists of native plants for various kinds of habitats and nurseries that sell native plants as well as books web sites and other resources for learning more about native plants and wildlife This guide will be essential for landscape architects school personnel parents and students Indeed its principles can be used in designing schoolyard habitats across the country while its information on gardening with native plants and wildlife will be useful to homeowners across the Southwest **Classroom**

of Choice Barbara Szatański, Cecilia Taafe, 1998-09-01 Teaching and Learning in a Digital World Michael E. Auer, David Guralnick, Istvan Simonics, 2017-12-26 This book gathers the Proceedings of the 20th International Conference on Interactive Collaborative Learning ICL2017 held in Budapest Hungary on 27 29 September 2017 The authors are currently witnessing a significant transformation in the development of education The impact of globalisation on all areas of human life the exponential acceleration of technological developments and global markets and the need for flexibility and agility are essential and challenging elements of this process that have to be tackled in general but especially in engineering education To face these current real world challenges higher education has to find innovative ways to quickly respond to them Since its

inception in 1998 this conference has been devoted to new approaches in learning with a focus on collaborative learning Today the ICL conferences offer a forum for exchange concerning relevant trends and research results and for sharing practical experience gained while developing and testing elements of new technologies and pedagogies in the learning context
