Beyond Church Walls Dr. Richard Rouse,2016-05-19 Pastoral care has been traditionally understood as pastoral acts administered to individuals or small groups by an ordained or lay religious practitioner As congregations in the twenty first century begin to reclaim the missional nature of church this view must be broadened to include care and concern for the needs of the larger community A missional perspective of pastoral care embraces the notion that all of Gods people not just trained professionals are called to partner in the healing and redemption of the world In Beyond Church Walls Rick Rouse sets out to articulate precisely what such an approach to pastoral care looks like and the substantial impact it can have on congregations and communities A skilled teacher and pastor with deep experience in real communities Rouse leads readers through the changing realities of the twenty first century and to new ways for missional churches to succeed in offering pastoral care for the whole community Co-Creating Future Social Services Andrzej Klimczuk,Hilla Dolev,Robin

Miller, Carola Orrego, 2025-06-19 The European Social Services Conference ESSC <https://essc.eu.org> is the annual flagship event of the European Social Network ESN <https://www.esn.eu.org> the leading network for public social services in Europe. The ESSC is Europe's largest public social welfare policy and practice forum. The previous edition was attended by almost 700 delegates in Malmö, Sweden, in 2023. At the 32nd European Social Services Conference, Antwerp, Belgium, 26-28 June 2024, we will discuss how we can co-create community-based social services with a specific focus on three thematic strands: 1. Co-creating Cities Social Inclusion, 2. Co-creating Responses to Manage the Future Workforce, and 3. Co-creating Digital Solutions for Social Inclusion. This Research Topic welcomes papers that will provide both theoretical insights and explorations as well as empirical evidence. Alongside learning from practice and responding to research findings, we also want to understand, challenge, and refine the theoretical lenses which underpin our assumptions about social inclusion and diversity in relation to social policy and social services. Potential issues include three thematic strands but are not limited to: 1. Co-creating Cities Social Inclusion: community care models in cities, fighting residential exclusion, neighborhood approaches, managing childhood and youth transitions in areas such as early childcare or child protection, support planning for people with disabilities, aspects related to work and social participation, support programs for ageing populations, fighting loneliness, promoting community support, managing diversity in the community, co-production in local social services, planning, delivery, and evaluation, theories of community development, and how these relate to different forms of social capital. Recent theories and concepts in urban sociology, sociological practice, social policy, and social work, theoretical approaches to social problems, issues and challenges including those underlined by the United Nations Sustainable Development Goals. 2. Co-creating Responses to Manage the Future Workforce: workforce planning and management strategies, training for co-production with people using services and their families, registration and accreditation programs, programs to break down gender stereotypes, innovation and digital programs supporting social care and support such as digital tools or forecasting scenarios, theories of professional motivations, and how these can incentivize or deter person-centered and community care. 3. Co-creating Digital Solutions for Social Inclusion: prioritization of person-centered care and relationship-based practice, improvement of services, interaction, addressing digital readiness for practice, enhancing people's autonomy, increasing the data security, addressing ethical concerns and data protection needs, theoretical approaches to the digital divide, and social inclusion, theories of leadership, and how these translate to virtual contexts. We are looking forward to selecting manuscripts demonstrating a wide range of approaches and forward-thinking ideas to enhance personalization in social services. We want to provide an opportunity for presenters involved in the ESSC 2024 program, covering both scholars and practitioners from various sectors, to publish their papers. We also look forward to including articles from scholars and practitioners who did not present their work during our event. This Research Topic is fully open to practical and theoretical submissions that have not been included for presentation during the ESSC 2024. This Research Topic welcomes submissions of the following article types: Brief

Research Report Community Case Study Conceptual Analysis General Commentary Hypothesis Theory Methods Mini Review Opinion Original Research Perspective Policy and Practice Reviews Review and Study Protocol *Bullying in North American Schools* Dorothy L. Espelage, Susan M. Swearer, 2010-10-18 This book provides an exciting compilation of research with a social ecological perspective that illustrates the complexity of bullying behaviors and offers suggestions for data based decision making to intervene and reduce those behaviors Connecting generations: planning and implementing interventions for intergenerational contact World Health Organization, 2023-10-10 The product is designed to provide a simple step by step guide for developing intergenerational projects The how to guide is a derivative product of the UN Global report on ageism and forms part of a toolkit The Guide is informed by a specific evidenced based review and lessons from years of grass roots intergenerational community practice **Handbook of Research in Pediatric and Clinical Child Psychology** Dennis Drotar, 2013-11-11 The professional development of researchers is critical for the future development of the fields of pediatric and clinical child psychology In order to conduct research in pediatric and clinical child psychology researchers need to work with a wide range of populations and master an increasingly wide range of skills many of which are either not formally taught or considered in sufficient depth in clinical training Such skills include the development of resources for research by writing grants to government agencies and foundations skills in preparing research for publications concerning original research review articles or case reports scientific presentation skills the ability to review and edit scientific manuscripts and to implement and manage research in applied settings Moreover the increasing complexity of research in pediatric and clinical child psychology requires successful researchers in these fields to develop their expertise with a wide range of new specialized methodologies data analytic methods models of data analysis and methods of assessment Finally to enhance the relevance of their research to practice researchers in pediatric and clinical child psychology need to integrate their work with clinical service delivery programs that are based on empirical research The necessity to train researchers in pediatric and clinical child psychology in such multifaceted knowledge and skills places extraordinary burdens on professional training programs Professional researchers in pediatric and clinical child psychology also are challenged to develop new knowledge and skills through continuing education and faculty development programs **Resources in Education**, 1997 **Transformational Teaching** Kenneth S. Coley, Martha E. MacCullough, Deborah L. MacCullough, 2023-02-15 Transformational Teaching by Kenneth Coley Martha MacCullough and Debbie MacCullough provides a comprehensive Christ centered introduction to instructional design and effective teaching It will be useful for education courses teachers in training and experienced teachers who want to elevate their pedagogy from a Christian framework *Technology in Social Work Education and Curriculum* Florence W Vigilante, Richard L Beaulaurier, Martha F Haffey, 2016-05-06 Save time and trouble as you incorporate technology into your social work curriculum The dramatic increase in the use of computers and other forms of technology in social work education and practice has educators trainers

and administrators investing valuable time money and effort into trying to make the transition from traditional teaching to a Web assisted learning environment Technology in Social Work Education and Curriculum takes the mystery out of the online experience with practical information on using technology to enhance and enrich learning but not at the expense of the human approach to social work This unique book presents a variety of creative and interesting methods for incorporating technology that s affordable and user friendly and for developing online skills that won t become obsolete as computer hardware and software evolves Technology in Social Work Education and Curriculum transforms technology into an everyday resource for agency field instructors human service educators trainers and social work administrators The book addresses concerns that educators with limited technical skills may have in using technology to teach cultural competency group work research direct practice social policy and advocacy and field practicum presenting hands on approaches that are innovative but accessible And by focusing on approaches rather than simply reviewing available hardware and software the book provides you with background knowledge that makes it easier for you to successfully incorporate online learning into the classroom Technology in Social Work Education and Curriculum examines using instructional technology to emotionally engage students in the learning process using digital video and qualitative data analysis software to teach group practice the role technology plays in advocacy distance education technologies in policy education incorporating Web assisted learning into a traditional classroom setting the advantages of distance education over more conventional approaches a model for planning the use and integration of computer technology in schools of social work how the behaviors of computer consultants can affect the students who seek their help using innovation diffusion theory in technology planning and much more Social workers have traditionally embraced the latest technologies and scientific developments since the earliest days of the profession Technology in Social Work Education and Curriculum helps continue that tradition offering invaluable guidance to educators and administrators no matter how experienced or inexperienced they are in dealing with communications technologies
