Creative Conscience:

The Creative Conscience as Human Destiny Eduard Hugo Strauch, 2004 The Creative Conscience as Human Destiny explains how human nature derived from our biogenetic evolution Whereas human ingenuity and self realization replicate nature s creativity its morphogenesis human conscience epitomizes the integration of organic life its symbiosis These mutual processes became incarnate as humanity s creative conscience Similarly the co evolution of man and woman has enabled us to create cultures and civilization From our intimation of a Supreme Being in nature human beings have also evolved a supraconscience By acknowledging the wisdom of nature we have a philosophy of life for the future

The Critique of Bioethical Principlism in Contrast to an African Approach to Bioethics Jude Thaddaeus Buyondo, 2024-08-16 Though some argue that bioethics in the Black African world is simply a reflection of the Western approach to bioethics this work suggests otherwise While the Western approach bioethical principlism claims to offer an absolute approach to bioethics in a universalized common morality this book argues that bioethical principlism can be complemented with African approaches to bioethics Western principlism as primarily presented by Thomas L Beauchamp and James F Childress can hardly be incarnated in the African context of bioethical problems unless it is complemented by a contextual normative understanding of African social realities realities that themselves must be enriched by bioethical principlism Without claiming to offer the last word on intercultural bioethics or disputing which bioethical approaches deserve prioritization the work interactively relies on ordinary moral experiences that are practically visible in lived social realities as well as the community realities surrounding Africans south of the Sahara Prescriptively in order to not simply promote life but to do so fully the African ethical system supports an integral community life by continuously promoting the norm of solidarity continued vitality and the hierarchization of life within the corporate community which the individual must not blindly follow but responsibly interact with without her identity freedom and conscience being crushed

Sex and Dehumanization David Holbrook, 2018-04-24 Never before published in the United States David Holbrook s study offers the sort of common sense all too uncommon in this area of study His essential premise is that sex has become converted from an instrument for the expression of happiness and affection into an end unto itself In the search for sexual liberation all that has been accomplished is the mechanization of sexuality and the destruction of the full range of emotions that nourish the human search for social and biological meaning *Sex and Dehumanization* is one of those rare books that will immediately strike the reader as part of the common wisdom that has somehow been lost in a search for the pleasure principle unhinged from other values and goals During the past quarter century Holbrook argues not only has the concept of sex become increasingly separated from the rest of existence but sex casualties have increased disastrously The spread of AIDS has brought an ominous and deadly manifestation of this thesis into the human equation yet at the same tune the response to this menace has been nothing short of manic denial A similar picture emerges in less deadly forms Whatever statistics one examines whether those of sexual activity among young children abortion or sexual disease one finds a grim antidote to any hopes of progress in the sphere of human dealings with the sexual Holbrook locates many of the problems involved in this separation of sex and affection in the emergence of the idea that our lives are governed by impersonal forces beyond human control *Sex and Dehumanization* is in the great tradition of social history and psychiatric analysis Robert Nye writing in the Scotsman says that Holbrook s diagnosis of our unease should be attentively studied by all who really care about sex and love and the
