Ark Of Koans:

Elegy E.D. Blodgett, 2005-08-04 Elegy is a collaboration of the poetry of E D Blodgett and the black and white photography of Yukiko Onley to create a wistful remembrance of loss death and transition in honor of Onley's late husband The reflective poetry guietly muses about the unknown while the still images of natural beauty evoke a related mood Elegy is not subdivided into separate poems per se it is rather one long poem of memory longing and healing Children E.D. Blodgett, 2018-03-22 In a series of poems inspired by Gustav Mahler's Kindertotenlieder E D Blodgett searches for meaning amidst grief In the contemplative gentleness of his words he finds the special light children possess in their state of unknowing as they encounter the world These sparse poems move through acceptance and resignation to the solace that exists in the word Blodgett's poetry will speak to readers who have experienced loss are exploring grief or want to find a way to connect with stillness as bells that ring through the winter air the clear laughter of children sings in the trees almost like brooks bursting in spring the air stands up its joy unbound the breath of it the bright birth of stars A World of Local Voices Klaus Martens, Paul Duncan Morris, Arlette Warken, 2003 The present volume contains papers and poems presented at Saarland University's international conference A World of Local Voices Poetry in English Today October 22 23 1999 and the Day of International Poetry October 24 1999 both organised by the university's Department of North American Literature and Culture The conference set out to explore how the modernist tendency towards overarching concepts and a poetry of ideas is slowly being superseded by a more modest poetry of place which at the same time seems to be loosely subsumed within the unifying medium of English in its various forms The Day of International Poetry was meant to put into operation some of the poetic issues discussed during the conference by asking poets from several English speaking countries Canada India Jamaica and the USA to contribute their individual voices to an international reading of poetry This volume comprises critical contributions which deal with the interplay of aesthetic cultural and political forces in comtemporary poetry The common reference of this collection is poetry written in varieties of the English language including translations The essays show awareness of the current critical debates concerning postcolonialism and intercultural literary relations while also suggesting new paradigms of critical understanding based on the analyses of individual poetic expression As a supplement selected poets and translators have submitted individual poetic texts with accompanying commentaries Poetics of Naming George Melnyk, 2003-10-20 The Poetics of Naming is a fascinating blend of postmodern philosophy and mysticism that challenges our conventional view of language It begins with the narrator's discussion of a multi faceted identity based on his name s Because this identity is multi lingual and multi national its layering of the self leads to a confrontation with language The narrator asks what is the relationship between language and truth The formative power of language is great but what happens when we become languageless The book becomes an expression of a mystical experience the narrator calls poesis in which he stepped outside of language Expressing this experience of languagelessness through language is the

paradox at the core of the book To achieve a simulation of languageless reality the author uses a variety of linguistic techniques that uproot meanings break up words and reconstruct terms in novel ways Through deconstruction the metaphoric structure of language is revealed This metaphoric structure is itself approached metaphorically so that the reader begins to sense the trap of a linguistic universe from which there is no escape The book is a literary exercise that simulates the author's poesis experience for the reader Eventually the flood of words on the page begins to go out of focus and dissolve as the reader approaches languagelessness The Poetics of Naming is not for the faint of heart It challenges its readers to move away from the comfortable universe of ordinary language and its meanings and enter a world where the boundaries crumble like digital illusions and limitlessness appears on the horizon of consciousness Poesis is frightening frustrating and Journal of Canadian Poetry ,2003 **Apostrophes VI** E.D. Blodgett, 2004-09-15 E D Blodgett winner of the Governor General's Award for Poetry returns to Apostrophes with a music passing through his eyes His latest collection open the grass brings glimpses into eternity visions of a translucent muse trickling through fingers and places of silence and darkness and epiphany Blodgett's poetry has the ability to penetrate the mundane with a profound aesthetic sense His spare strong words kick up pleasure in the eye and unforeseen recognition. These sixty six poems open the natural world to embrace human passage The Surface of Meaning Robert Bringhurst, 2008 The design and manufacture of books can tell as much about a people or a culture as the ambience of its streets and the architecture of its buildings In our everyday lives books surround us even if we are among the many who never read another one after high school Their very jacket design asks us to make meaning of their presence and when we open them the layout of words and stories within their covers makes us readers even before we begin to read To Robert Bringhurst typographer poet and writer the presence of books and the story of books in Canada are preludes to understanding our culture From the tattered book of Canadian poetry your moody cousin carried everywhere to the pristine hardcover book of Atwood's latest work in your brainy co worker's hands book design says much about who and where we are as Canadians In The Surface of Meaning Robert Bringhurst takes us on another of his walking tours this time through the bramble of English and French Canadian books and book design from the mid 18th Century to the present day Along the way he discovers a true image trove of identity culture and history And he does what no other work on books and publications does He creates a truly national survey of Canadian books by bringing Canada's long history of Aboriginal story telling into a context of book It is a context that goes into the depths of our prehistory far beyond the printed page The Surface of Meaning is a tribute to Canadian books and publishing It is irresistible to readers who love books as well as to designers and others who may simply prefer to look at them **Ouill & Ouire** .2004
