Armed with Courage M. Mcneer,1970 **Armed with Courage** May McNeer,1991 Armed Forces Talk ,1949

Ethics in the Indian Military Dr U C Jha,2019-05-06 In today s tempestuous environment the issues of indiscipline corruption and criminality in the armed forces reflect broader issues of military ethics culture and leadership A military leader has to motivate his followers to achieve maximum results with minimum friction within the group The ability to motivate men stems largely from the ability to understand them It is time for military leaders to do some soul searching on the components of military ethics The book argues that the existing legal and policy framework is inadequate to regulate behaviour in the barracks as well as in conflicts It recommends reforms in the military legal system incentives practices and training This book is for policy makers in the armed forces military officers military lawyers academics journalists and those with an interest or professional involvement in the subject Orientation Fact Sheets ,1948 The Handbook of Virtue Ethics Stan van Hooft,2014-09-11 Virtue ethics has emerged as a distinct field within moral theory whether as an alternative account of right action or as a conception of normativity which departs entirely from the obligatoriness of morality and has proved itself invaluable to many aspects of contemporary applied ethics Virtue ethics now flourishes in philosophy sociology and theology and its applications extend to law politics and bioethics The Handbook of Virtue Ethics brings together leading international scholars to provide an overview of the field Each chapter summarizes and assesses the most important work on a particular topic and sets this work in the context of historical developments Taking a global approach by embracing a variety of major cultural traditions along with the Western the Handbook maps the emergence of virtue ethics and provides a framework for future developments **The Virtue of Courage** Blaine J. Fowers,2025-06-12 The contributors to this volume offer new insights on Aristotelian perspectives of courage as well as Stoic Confucian Christian or Thomist Jewish and African perspectives of the virtue They offer important observations about the communal ethnic and religious elements of courage They ask what place courage has in healthcare or contemporary career development and how courage might be applied by ordinary citizens as well as by leaders in contemporary liberal democracies These essays make it clear that reflections on courage are highly salient in a world that is experiencing global political unrest and profound uncertainty about the future
