Armenian Village Life Before 1914 Susie Hoogasian Villa, Mary Allerton Kilbourne Matossian, 1982 **A History of Armenian Women's Writing, 1880-1922** Victoria Rowe, 2003 A History of Armenian Women's Writing 1880-1921 introduces the reader to the wealth and diversity of women's writing in Armenian in the late nineteenth and early twentieth centuries. The volume focuses on six Armenian women writers: Srpouhi Dussap, Sibyl Mariam Khatisian, Marie Beylerian, Shushanik Kurghinian, and Zabel Yesayan, and these authors' novels, short stories, poems, and essays. The study contends that Western and Eastern Armenian women writers, while not displaying a uniformity of opinion and vision, nevertheless found inspiration in the activism, writings, and arguments of one another and form a literary genealogy of women's writing in Armenian. The study has several objectives. For general readers and those interested primarily in the historical account, it provides a chronological description of the formative period of modern Armenian women's writing, beginning in 1880 with the publication of a series of articles on women's education and employment by Srpouhi Dussap, and concludes with the physical dislocations and psychological traumas of the Armenian Genocide in 1915 and the fall of the first independent Republic of Armenia in 1921. On another level, the book concentrates on disentangling the contemporaneous intellectual debates about Armenian women's proper sphere. The author argues that the role of the Armenian woman was central to debates about national identity, education, the family, and society by Armenian writers, and women writers sought to participate in and guide this discourse through literary texts.

Armenian Christianity Today Alexander Agadjanian, 2016-04-15 Armenian Christianity Today examines contemporary religious life and the social, political, and cultural functions of religion in the post-Soviet Republic of Armenia and in the Armenian Diaspora worldwide. Scholars from a range of countries and disciplines explore current trends and everyday religiosity, particularly within the Armenian Apostolic Church (AAC) and amongst Armenian Catholics, Protestants, and vernacular religions. Themes examined include Armenian grassroots religiosity, the changing forms of regular worship and devotion, various types of congregational life, and the dynamics of social composition of both the clergy and lay believers. Exploring through the lens of Armenia, this book considers wider implications of postsecular trends in the role of global religion.

Survivors Donald E. Miller, Lorna Touryan Miller, 1993-04-08 Between 1915 and 1923, over one million Armenians died victims of a genocidal campaign that is still denied by the Turkish government. Thousands of other Armenians suffered torture, brutality, deportation. Yet their story has received scant attention. Through interviews with a hundred elderly Armenians, Donald and Lorna Miller give the forgotten genocide the hearing it deserves. Survivors raise important issues about genocide and about how people cope with traumatic experience. Much here is wrenchingly painful, yet it also speaks to the strength of the human spirit.

Democracy Building and Civil Society in Post-Soviet Armenia Armine Ishkanian, 2008-03-26 This volume considers the challenges of democracy building in post-Soviet Armenia and the role of civil society in that process. It argues that, contrary to the

expectations of Western aid donors who promoted civil society on the assumption that democratization would follow from the establishment of civil society democratic regimes have failed to materialize and moreover a backlash has emerged in various post Soviet states Armine Ishkanian explores how far the growth of civil society depends on a country's historical political and socio cultural context and how far foreign aid often provided with conditions which encouraged the promotion of civil society had an impact on democratization Based on extensive original research including fieldwork interviews with participants Democracy Building and Civil Society in Post Soviet Armenia considers various democratization initiatives in recent years and assesses how far the Armenian experience is similar to or different from the experiences of other post Soviet states

Armenian-Americans Anny Bakalian, 2017-07-12 Assimilation has been a contentious issue for most immigrant groups in the United States The host society is assumed to lure immigrants and their descendants away from their ancestral heritage Yet in their quest for a better life few immigrants intentionally forsake their ethnic identity most try to hold onto their culture by transplanting their traditional institutions and recreating new communities in America Armenian Americans are no exception Armenian Americans have been generally overlooked by census enumerators survey analysts and social scientists because of their small numbers and relative dispersion throughout the United States They remain a little studied group that has been called a hidden minority Armenian Americans fills this significant gap Based on the results of an extensive mail questionnaire survey in depth interviews and participant observation of communal gatherings this book analyzed the individual and collective struggles of Armenian Americans to perpetuate their Armenian legacy while actively seeking new pathways to the American Dream This volume shows how men and women of Armenian descent become distanced from their ethnic origins with the passing of generations Yet assimilation and maintenance of ethnic identity go hand in hand The ascribed unconscious compulsive Armenianness of the immigrant generation is transformed into a voluntary rational situational Armenianness The generational change is from being Armenian to feeling Armenian The Armenian American community has grown and prospered in this century Greater tolerance of ethnic differences in the host society the remarkable social mobility of many Armenian Americans and the influx of large numbers of new immigrants from the Middle East and Soviet bloc in recent decades have contributed to this development The future of this community however remains precarious as it strives to adjust to the ever changing social economic and political conditions affecting

Ararat in America Benjamin F. Alexander, 2023-11-30 How has the distinctive Armenian American community expressed its identity as an ethnic minority while assimilating to life in the United States This book examines the role of community leaders and influencers including clergy youth organizers and partisan newspaper editors in fostering not only a sense of Armenian

identity but specific ethnic partisan leanings within the group's population Against the backdrop of key geopolitical events from the aftermath of the Armenian Genocide to the creation of an independent and then Soviet Armenia it explores the rivalry between two major Armenian political parties the Tashnags and the Ramgavars and the relationship that existed between partisan leaders and their broader constituency Rather than treating the partisan conflict as simply an impediment to Armenian unity Benjamin Alexander examines the functional if accidental role that it played in keeping certain community institutions alive He further analyses the two camps as representing two conflicting visions of how to be an ethnic group drawing a comparison between the sociology of religion models of comfort religion and challenge religion A detailed political and social history this book integrates the Armenian experience into the broader and more familiar narratives of World War I World War II and the Cold War in the USA

The Waning of the Mediterranean, 1550-1870 Faruk Tabak, 2008-02-11 2008 Outstanding Academic Title Choice Magazine Conventional scholarship on the Mediterranean portrays the Inner Sea as a timeless entity with unchanging ecological and

agrarian features But Faruk Tabak argues some of the traditional and olden characteristics that we attribute to it today are actually products of relatively recent developments Locating the shifting fortunes of Mediterranean city states and empires in patterns of long term economic and ecological change this study shows how the quintessential properties of the basin the trinity of cereals tree crops and small livestock were reestablished as the Mediterranean s importance in global commerce agriculture and politics waned Tabak narrates this history not from the vantage point of colossal empires but from that of the mercantile republics that played a pivotal role as empire building city states His unique juxtaposition of analyses of world economic developments that flowed from the decline of these city states and the ecological change associated with the Little Ice Age depicts large scale long term social change Integrating the story of the western and eastern Mediterranean from Genoa and the Habsburg empire to Venice and the Ottoman and Byzantine empires Tabak unveils the complex process of devolution and regeneration that brought about the eclipse of the Mediterranean

Looking Toward Ararat Ronald Grigor Suny,1993-05-22 As a new independent Republic of Armenia is established among the ruins of the Soviet Union Armenians are rethinking their history the processes by which they arrived at statehood in a small part of their historic homeland and the definitions they might give to boundaries of their nation Both a victim and a beneficiary of rival empires Armenia experienced a complex evolution as a divided or an erased polity with a widespread diaspora Ronald Grigor Suny traces the cultural and social transformations and interventions that created a new sense of Armenian nationality in the nineteenth and twentieth centuries Perceptions of antiquity and uniqueness combined in the popular imagination with the experiences of dispersion genocide and regeneration to forge an Armenian nation in Transcaucasia Suny shows that while the limits of Armenia at times excluded the diaspora now at a time of state renewal the boundaries have been expanded to include Armenians who live beyond the borders of the republic

Byzantine Tree Life Thomas Arentzen,Virginia Burrus,Glenn Peers,2021-07-11 This book examines the many ways Byzantines lived with their trees It takes seriously theological and hagiographic tree engagement as expressions of that culture s deep involvement and even fascination with the arboreal These pages tap into the current attention paid to plants in a wide range of scholarship an

attention that involves the philosophy of plant life as well as scientific discoveries of how communicative trees may be and how they defend themselves Considering writings on and images of trees from Late Antiquity and medieval Byzantium sympathetically the book argues for an arboreal imagination at the root of human aspirations to know and draw close to the divine
