Armies Of The Young Child Soldiers In War And Terrorism:

Armies of the Young David M. Rosen, 2005-01-31 Children have served as soldiers throughout history They fought in the American Revolution the Civil War and in both world wars They served as uniformed soldiers camouflaged insurgents and even suicide bombers Indeed the first U S soldier to be killed by hostile fire in the Afghanistan war was shot in ambush by a fourteen year old boy Does this mean that child soldiers are aggressors Or are they victims It is a difficult question with no obvious answer yet in recent years the acceptable answer among humanitarian organizations and contemporary scholars has been resoundingly the latter These children are most often seen as especially hideous examples of adult criminal exploitation In this provocative book David M Rosen argues that this response vastly oversimplifies the child soldier problem Drawing on three dramatic examples from Sierra Leone Palestine and Eastern Europe during the Holocaust Rosen vividly illustrates this controversial view In each case he shows that children are not always passive victims but often make the rational decision that not fighting is worse than fighting With a critical eye to international law Armies of the Young urges readers to reconsider the situation of child combatants in light of circumstance and history before adopting uninformed child protectionist views In the process Rosen paints a memorable and unsettling picture of the role of children in international International Handbook of Comparative Education Robert Cowen, Andreas M. Kazamias, 2009-08-22 A big conflicts project like this Handbook means that you incur debts and not only to your authors and your publisher As editors we along with our colleague Elaine Unterhalter who edited the section on postcolonialism would like to thank most warmly those authors who delivered on time and who did not fuss but just got on and did a r rate job We would also like to thank all authors who did deliver which was almost everyone we asked We know that some of our authors worked in very dif cult private circumstances as they were nishing their chapters and we hope the publication of the Volumes will later be for them a happy reminder of dif culties and disasters overcome The only sad theme is that some very close colleagues with whom we were wo ing and for whom we had the greatest respect and liking became very ill and died while the volumes were being prepared We decided to ask for copyright permissions to publish something of theirs These permissions were graciously given by two major journals and with the agreement also of our publishers Springer Rolland Paulston and Terry McLaughlin have examples of their writing in this Handbook Reimagining Child Soldiers in International Law and Policy Mark A. Drumbl, 2012-01-26 The international community's efforts to halt child soldiering have yielded some successes But this pernicious practice persists It may shift locally but it endures globally Preventative measures therefore remain inadequate Former child soldiers experience challenges readjusting to civilian life Reintegration is complex and eventful The homecoming is only the beginning Reconciliation within communities afflicted by violence committed by and against child soldiers is incomplete Shortfalls linger on the restorative front The international community strives to eradicate the scourge of child soldiering Mostly though these efforts replay the same narratives and circulate the same assumptions Current

humanitarian discourse sees child soldiers as passive victims tools of war vulnerable psychologically devastated and not responsible for their violent acts This perception has come to suffuse international law and policy Although reflecting much of the lives of child soldiers this portrayal also omits critical aspects This book pursues an alternate path by reimagining the child soldier It approaches child soldiers with a more nuanced and less judgmental mind This book takes a second look at these efforts It aspires to refresh law and policy so as to improve preventative restorative and remedial initiatives while also vivifying the dignity of youth Along the way Drumbl questions central tenets of contemporary humanitarianism and rethinks elements of international criminal justice This ground breaking book is essential reading for anyone committed to truly emboldening the rights of the child It offers a way to think about child soldiers that would invigorate international law policy and best practices Where does this reimagination lead Not toward retributive criminal trials but instead toward restorative forms of justice Toward forgiveness instead of excuse thereby facilitating reintegration and promoting social repair within afflicted communities Toward a better understanding of child soldiering without which the practice cannot be ended This book also offers fresh thinking on related issues ranging from juvenile justice to humanitarian interventions to the universality of human rights to the role of law in responding to mass atrocity Research Handbook on Child Soldiers Mark A. Drumbl, Jastine C. Barrett, 2019 Child soldiers remain poorly understood and inadequately protected despite significant media attention and many policy initiatives This Research Handbook aims to redress this troubling gap It offers a reflective fresh and nuanced review of the complex issue of child soldiering The Handbook brings together scholars from six continents diverse experiences and a broad range of disciplines Along the way it unpacks the life cycle of youth and militarization from recruitment to demobilization to return to civilian life The overarching aim of the Handbook is to render the invisible visible the contributions map the unmapped and chart new directions Challenging prevailing assumptions and conceptions the Research Handbook on Child Soldiers focuses on adversity but also capacity emphasising the resilience humanity and potentiality of children affected rather than afflicted by armed conflict The Ashgate Research Companion to War Hall Gardner, Oleg Kobtzeff, 2016-03-23 Many different social scientists have been challenged by the origins of wars their immediate causes and the mechanisms leading to the breakdown of peaceful relations Many have speculated whether conflicts were avoidable and whether alternative policies might have prevented conflict The Ashgate Research Companion to War provides contributions from a number of theorists and historians with a focus on long term systemic conflicts The probl matique is introduced by the Editors highlighting the need for interdisciplinary approaches to the study of war as a global phenomenon The following 29 essays provide a comprehensive study guide in four sections Part I explicates differing theories as to the origins of war under the general concept of polemology Part II analyzes significant conflicts from the Peloponnesian wars to World War II Part III examines the ramifications of Cold War and post Cold War conflict Part IV looks at long cycles of systemic conflict and speculates in part whether another global war is theoretically possible and if so

whether it can be averted This comprehensive volume brings us a much needed analysis of wars throughout the ages their origins their consequences and their relationship to the present A valuable understanding that is ideal for social scientists from a variety of backgrounds Militarized Youth Johanna Higgs, 2019-10-08 Based on ethnographic fieldwork and interviews from across Colombia including former child guerillas former hostages of the guerilla organization mothers of child soldiers and humanitarian aid workers this volume explores the experiences of children involved with the Colombian guerilla group the Fuerzas Armadas Revolucionarias de Colombia Farc Going beyond the predominant humanitarian perspectives on child soldiers Johanna Higgs delves into the specific social and cultural aspects of the Colombian conflict to give a contextualized culturally relevant understanding of the processes of both militarization and demobilization of children deploying the theoretical lens of lifeworlds In so doing Higgs not only provides insight into children's involvement in conflict in Colombia but presents a clear case for a move away from homogenized understandings of child soldiers thus far dominated by viewpoints from industrialized Western nations Tying together perspectives from anthropology sociology psychology politics and international development Higgs provides not only a much needed examination of how children are militarized soldiering in the Farc context and demilitarization but also a blueprint for how research can be tied to specific cultural **Child to Soldier** Opiyo Oloya, 2013-04-02 What happens when children are forced to become child soldiers How contexts are they transformed from children to combatants In Child to Soldier Opiyo Oloya addresses these timely troubling questions by exploring how Acholi children in Northern Uganda abducted by infamous warlord Joseph Kony and his Lord's Resistance Army LRA become soldiers Oloya himself an Acholi a refugee from Idi Amin's rule of Uganda and a high ranking figure in Canadian education is a scholar who challenges conventional thinking on child inducted soldiers by illustrating the familial loyalty that develops within a child's new surroundings in the bush Based on interviews with former child combatants this book provides a cultural context for understanding the process of socializing children into violence Oloya details how Kony and the LRA exploit and pervert Acholi cultural heritage and pride to control and direct the children in war Child to Soldier is also ground breaking in its emphasis on the tragic fact that child inducted soldiers do not remain children forever but become adults who remain sharply scarred by their introduction into combat at a young age Given the constant struggle in courts in deciding whether former child inducted soldiers should be pardoned or prosecuted for their activities and conduct Oloya s eye opening book will have a major impact The Legal Regime of the International Criminal Court José Doria, Hans-Peter Gasser, M. Cherif Bassiouni, 2009 This impressive and unique collection of essays covers important aspects of the legal regime of the International Criminal Court ICC The volume begins with an analysis of the historical development of the ICC the progressive development of international humanitarian and international criminal law by the ad hoc Tribunals and the work of mixed national international jurisdictions The legal and institutional basis of the ICC is then dealt with in detail including the organs of the ICC war crimes crimes against humanity and crimes of aggression modes of liability before

the ICC and defences before the ICC Part III focuses on the court at work including its procedural rules criminal proceedings at the ICC penalties and appeal and revision procedures Part IV deals with the relationship of the ICC with states and international organizations The contributors are established scholars in the field of international criminal and humanitarian law many of whom are practitioners in the various tribunals Children and Global Conflict Kim Huynh, Bina D'Costa, Katrina Lee-Koo, 2015-04-09 Examines how children armed conflict and the international community interact in the The Child and the World Jana Tabak, 2020 However unthinkable child soldiers may be within a generalized conception of childhood they are not imaginary figures rather they are a constant in almost every armed conflict around the world The participation of children in wars may question the idea of childhood as a once upon a time story with a happy and predictable ending disrupting the natural idea of a protected and innocent childhood and also eliciting fear uncertainty revulsion horror and sorrow Using the perspectives of both childhood studies and critical approaches to international relations Jana Tabak explores the constructions of child soldiers as children at risk and at the same time risky children More specifically The Child and the World aims both to problematize the boundaries that articulate child soldiers as necessarily deviant and pathological in relation to normal children and to show how these specific limits participate in the re production and promotion of a particular version of the international political order In this sense the focus of this work is not on investigating child soldiers lives and experiences per se but on their presumed threatening feature as they depart from the protected territory of childhood disquieting everyday international life War Crimes and the Conduct of Hostilities Fausto Pocar, Marco Pedrazzi, Micaela Frulli, 2013-09-30 This comprehensive collection addresses an overlooked area war crimes and the conduct of hostilities It uplifts aspects that are particularly under appreciated including cultural property fact finding arms transfer chemical weapons sexual viole Childhood in Contemporary Diasporic African Literature Christopher E. W. Ouma, 2020-02-27 This book examines the representation of figures memories and images of childhood in selected contemporary diasporic African fiction by Adichie Abani Wainaina and Oyeyemi The book argues that childhood is a key framework for thinking about contemporary African and African Diasporic identities It argues that through the privileging of childhood memory alternative conceptions of time emerge in this literature and which allow African writers to re imagine what family ethnicity nation means within the new spaces of diaspora that a majority of them occupy The book therefore looks at the connections between childhood space time and memory childhood gender and sexuality childhoods in contexts of war as well as migrant childhoods These dimensions of childhood particularly relate to the return of the memory of Biafra the figures of child soldiers memories of growing up in Cold War Africa queer boyhoods sonhood as well as experiences of migration within Africa North America and Europe **Child Slavery before and after Emancipation** Anna Mae Duane, 2017-02-17 An innovative interdisciplinary anthology arguing that we are unable to fully understand slavery then and now without attending to children's roles in slavery's machinations By all means necessary: Protecting civilians and

preventing mass atrocities in Africa Dan Kuwali, Frans Viljoen, 2017-05-16 The Children's Table Anna Mae Duane, 2013-06-01 This collection brings together an eclectic range of prominent scholars in architecture education history law literary criticism and cultural studies to explore how the field of childhood studies questions some of the most basic tenets of humanities scholarship and to consider how these questions can bridge disciplines Each essay pairs childhood studies with another field of inquiry to ask explicitly how foregrounding the child reorients long established scholarly foundations in that field Childhood studies insistence that we need to rethink the symbolic work of the child necessarily realigns a host of other fields that often uncritically draw upon the false dichotomy separating the vulnerable dependent child from the allegedly independent and autonomous adult By complicating our assumptions about the child we are also providing a new way of thinking through some of the most basic tenets of the humanities Anna Mae Duane notes that much of the exciting work in the humanities seeks to recover the voices of those who have been infantilized including women people of color and the GLBT community This volume features thirteen essays by leading scholars who reveal how childhood studies offers a vital methodological and theoretical roadmap for engaging issues that are among the most important and provocative in the humanities the recovery of colonized voices the definition of agency the performance of identity and the construction of gender and race to name a few Each of the essays seeks to understand how rhetorical views of childhood shape views of power politics knowledge and sociality Nonstate Warfare Stephen Biddle, 2021-04-06 The fallacy of guerilla warfare Materially optimal behavior Politically achievable behavior Hezbollah in the 2006 Lebanon Campaign The Jaish al Mahdi in Iraq 2003 2008 The Somali National Alliance in Somalia 1992 1994 The ZNG HV and SVK in the Croatian Wars of Independence 1991 1995 The Vietcong in the Second Indochina War 1965 1968 Conclusion and implications
