Arms And Armour Of The Greeks

P. Meineck, D. Konstan

A decorative red circular graphic element, resembling a stylized arrow or a semi-circle, is positioned to the right of the authors' names.

Arms And Armour Of The Greeks:

Arms and Armour of the Greeks Anthony M. Snodgrass,1967 Arms and Armour of the Greeks Anthony MacElrea Snodgrass,1967 **Arms and Armor of the Greeks** Anthony M. Snodgrass,1999 In Arms and Armor of the Greeks A M Snodgrass uses literary archaeological and artistic evidence to piece together a picture of ancient Greek armory from the Mycenaean period through the campaigns of Alexander the Great Ancient Greece was neither populous nor rich in natural resources Snodgrass explains so it is remarkable that the Greeks succeeded in battle as often as they did A new afterword written for this edition comments on recent research and discoveries in the field Arms and Armour of the Greeks A. M. Snodgrass,1982 Hjelme Spydb spydb rere infanteri Kavalleri rytteri **Greek Arms & Armour** University of Newcastle upon Tyne. Greek Museum,Patricia Foster,1978 **Warfare in Ancient Greece** Tim Everson,2004-11-18 Discussing the background weapons and tactics of the ancient Greeks this title describes the weapons armour chariots and other military equipment used from 1550 to 150 BC It traces how and when various pieces of equipment came into use where they were introduced from the effectiveness of the equipment and when and why things changed Arms and Armour of the Greeks Anthony M. Snodgrass,1967 A general and bibliographical dictionary of the fine arts James Elmes,1824 Combat Trauma and the Ancient Greeks P. Meineck,D. Konstan,2014-09-11 This ground breaking book applies trauma studies to the drama and literature of the ancient Greeks Diverse essays explore how the Greeks responded to war and if what we now term combat trauma post traumatic stress or combat stress injury can be discerned in ancient Greek culture The Greek Hoplite Phalanx Richard Taylor,2021-12-22 The Greek hoplite and the phalanx formation in which he fought have been the subject of considerable academic debate over the past century Dr Richard Taylor provides an overview of the current state of play in the hoplite debate in all its aspects from fighting techniques to the social and economic background of the hoplite revolution in a form that is accessible for the general reader and military history enthusiast But the book goes further offering a new perspective on the hoplite phalanx by putting it in the context of other military developments in the Mediterranean world in the middle of the first millennium BC He argues that the Greek phalanx was different in degree but not in kind from other contemporary heavy infantry formations and that the hoplite debate with its insistence on the unique nature of the hoplite phalanx has obscured the similarities with other equivalent formations The result is a fresh take on a perennially popular subject The Cambridge Illustrated History of Warfare Geoffrey Parker,2021-08-05 The new edition of The Cambridge Illustrated History of Warfare offers an updated comprehensive account of Western warfare from its origins in Classical Greece and Rome through the Middle Ages and the early modern period down to the wars of the twenty first century in Afghanistan Iraq and Syria *A general and bibliographical Dictionary of the Fine Arts. Containing ... explanations of the principal terms used in Painting, Sculpture, Architecture, and Engraving ... historical Sketches of the ... different Schools, etc* James ELMES,1826 **Body, Dress, and Identity in Ancient Greece** Mireille M. Lee,2015-01-12

This is the first general monograph on ancient Greek dress in English to be published in more than a century. By applying modern dress theory to the ancient evidence, this book reconstructs the social meanings attached to the dressed body in ancient Greece. Whereas many scholars have focused on individual aspects of ancient Greek dress from the perspectives of literary, visual, and archaeological sources, this volume synthesizes the diverse evidence and offers fresh insights into this essential aspect of ancient society. *Routledge Handbook of the Global History of Warfare* Kaushik Roy, Michael W. Charney, 2024-01-23. This handbook examines key aspects of the development of the global history of warfare and the changing patterns of warfare over time. Although scholarship has long eschewed a chronological narrative of the evolution of warfare that privileges the Western experience, global histories of warfare have had difficulty avoiding an overemphasis on the West. The present volume is a collection of themes rather than a history per se; it provides important perspectives on the emergence of warfare as a global historical experience from the ancient past to the present day. Drawing together numerous experts, it tells a broader, more inclusive story of the global human experience with wars and warfare. The 35 chapters are organised in eight thematic parts: Part I Origins of Warfare; Part II Politics and Armed Forces in the Pre-Modern Era; Part III Steppe Nomads of Eurasia; Part IV Naval Warfare and Piracy in the Pre-Industrial World; Part V The Impact of Gunpowder; Part VI Transition from Industrial to Total War; Part VII Wars of Decolonisation and Cold War; Part VIII Postmodern New Wars. These parts offer an overview of the global experience of warfare to help readers understand how the wars and the militaries we see today have been shaped by historical developments across the globe. This handbook will be of great interest to students of military history, naval history, strategic studies, and world history in general. **Classical Greek Tactics** Roel Konijnendijk, 2017-10-23. What determined the choices of the Greeks on the battlefield? Were their tactics defined by unwritten moral rules, or was all considered fair in war? In *Classical Greek Tactics: A Cultural History*, Roel Konijnendijk re-examines the literary evidence for the battle tactics and tactical thought of the Greeks during the 5th and 4th centuries BC. Rejecting the traditional image of limited ritualised battle, Konijnendijk sketches a world of brutally destructive engagements restricted only by the stubborn amateurism of the men who fought. The resulting model of hoplite battle does away with most received wisdom about the nature of Greek battle tactics and redefines the way they reflected the values of Greek culture as a whole. *Ancient Warfare, Volume II* Jared Kreiner, Graham Wrightson, 2024-04-03. This volume demonstrates the wide array of topics in ancient warfare currently studied by researchers around the world. Arranged chronologically in Greek and Roman history sections, the book takes readers through all manner of current research topics on ancient warfare, from traditional battle narratives or strategic analyses of campaigns through the logistical considerations of armies in the field to the ideology of women in war and mythology. The study of ancient war deals with a myriad of different topics and deals with themes in all types of history: social, cultural, economic, religious, literary, numismatical, epigraphical, ethnographical, topographical, prosopographical, and mythical, as well as the usual political and military. The study of ancient war is a field that

is growing in popularity and continues to surprise us with many innovative new ideas as shown in this collection of papers by established academics and current graduate students **LUX: Studies in Greek and Latin Literature** Myrto Aloumpi, Antony Augoustakis, 2024-10-21 This volume of essays in honor of Lucia Athanassaki offers a great variety of chapters on a number of topics in Greek and Latin literature and genres from Greek epic and lyric poetry to Greek drama and late antiquity Greek historiography and Latin lyric poetry **A Concise Dictionary of Greek and Roman Antiquities** Francis Warre Cornish, 1898 **The Oxford Classical Dictionary** Simon Hornblower, Antony Spawforth, Esther Eidinow, 2012-03-29 The revised third edition of the Oxford Classical Dictionary is the ultimate reference on the classical world containing over 6 200 entries The 2003 revision includes minor corrections and updates and all Latin and Greek words in the text are now translated into English Creators, Conquerors, and Citizens Robin Waterfield, 2018 Covering roughly eight centuries from the age of Homer 8th century BC to the end of the Hellenistic period late first century BC this book will provide general readers with a comprehensive and accessible narrative history of ancient Greece

Arms And Armour Of The Greeks Book Review: Unveiling the Power of Words

In a world driven by information and connectivity, the power of words has been evident than ever. They have the capacity to inspire, provoke, and ignite change. Such may be the essence of the book **Arms And Armour Of The Greeks**, a literary masterpiece that delves deep to the significance of words and their impact on our lives. Written by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we will explore the book's key themes, examine its writing style, and analyze its overall impact on readers.
