Arms Control Theory And Practice:

Arms Control Michael J. Sheehan, 1988-01-01 **Arms Control for the Third Nuclear Age** David A. Cooper, 2021
International relations scholar David A Cooper offers a reappraisal of classic arms control theory that advocates for reprioritizing deterrence over disarmament in a new era of nuclear multipolarity **Research Handbook on the Arms Trade** Andrew T.H. Tan, 2020-12-25 This comprehensive Research Handbook examines the key drivers of the arms trade mapping the main trends in Asia Europe the Middle East Africa and Latin America It also explores the principal defence markets internationally including the US China India Russia and the UK in greater detail Strategies of Arms Control Stuart Croft, 1996 In this groundbreaking analysis Stuart Croft brings the subject of arms control into the era of complex multi polar international relations He moves beyond the narrow definitions of the phenomenon associated with the Cold War to show how it not only has a long past but also a clear future The author begins by tracing the history of agreements between polities over weapons back to ancient times An understanding of this history allows him to put forward a typology of arms control It occurs at the end of major conflicts stabilises balances between states develops norms of behaviour manages weapons proliferation and acts as a tool of international organisations Stuart Croft examines the evolution of these five qualitatively different strategies and applies the typology to arms control agreements in the post Cold War world This definitive new study will be of interest to students in international relations and security studies as well as specialists in these disciplines **Realism versus Global Arms Control and Disarmament** Carmen Chas, 2025-07-15 This incisive book explores the limits of international law through arms control and disarmament treaties Carmen Chas critically engages with literature on disarmament and classical realist analysis bridging the divide between international law and international relations scholarship *Conventional Arms Control Theory and Practice* Gary B. Brown, Army War College (U.S.), 2004
Conventional arms control theory and practice matured during the prolonged period of the Cold War Treaties agreements mandated inspections and the institutions that managed them became and remain almost routine and entrenched However the end of the Cold War has resulted in a limited re evaluation of arms control objectives processes and institutions Many agreements were based on East West or NATO Warsaw Pact divisions Since the Warsaw Pact no longer exists and Cold War era tensions between East and West are markedly reduced several questions concerning existing arms control agreements arise Does arms control serve the same purpose today as it did during the Cold War What measures of effectiveness should be applied to arms control in the post Cold War and the post 9 11 era How does arms control help serve United States security interest in the current world order Assuming the United States wants to continue conventional arms control in the post Cold War and post 9 11 world where should the United States policy go To answer these questions an examination of United States policies regarding large numbers of conventional armaments both in necessary standing forces and those excess to a nation s requirements stockpiles of aging and excess munitions the control and management of stockpiles of

Small Arms and Light Weapons SALW and existing arms control agreements and treaties must be accomplished This paper will examine arms control history and current initiatives in order to argue that arms control is still valid in the post Cold War era and make recommendations on where U S policy should go Unconventional and strategic weapons and their respective treaties or agreements i e Biological Weapons Convention BWC chemical Weapons Convention CWC and Nuclear Weapons are not considered in this review

The Oxford Handbook of Peaceful Change in International Relations T. V. Paul, Deborah Welch Larson, Harold A. Trinkunas, Anders Wivel, Ralf Emmers, 2021 Abstract With the rapid rise of China and the relative decline of the United States the topic of power transition conflicts is back in popular and scholarly attention The discipline of International Relations offers much on why violent power transition conflicts occur yet very few substantive treatments exist on why and how peaceful changes happen in world politics This Handbook is the first comprehensive treatment of the subject of peaceful change in International Relations It contains some 41 chapters all written by scholars from different theoretical and conceptual backgrounds examining the multi faceted dimensions of this subject In the first part key conceptual and definitional clarifications are offered and in the second part papers address the historical origins of peaceful change as an International Relations subject matter during the Inter War Cold War and Post Cold War eras In the third part each of the IR theoretical traditions and paradigms in particular Realism liberalism constructivism and critical perspectives and their distinct views on peaceful change are analyzed In the fourth part papers tackle the key material ideational and social sources of change In the fifth part the papers explore selected great and middle powers and their foreign policy contributions to peaceful change realizing that many of these states have violent past or tend not to pursue peaceful policies consistently In part six the contributors evaluate the peaceful change that occurred in the world s key regions In the final part the editors address prospective research agenda and trajectories on this important subject matter Keywords Peaceful Change War Security International Relations Theory Sources of Change Systemic Theory Realism Liberalism Constructivism Critical Theories

Essential reading for all students of International Relations Security Studies and Military History **Research Handbook on Cyberwarfare** Tim Stevens, Joe Devanny, 2024-07-05 This Research Handbook provides a rigorous analysis of cyberwarfare a widely misunderstood field of contemporary conflict and geopolitical competition Gathering insights from leading scholars and practitioners it examines the actors involved in cyberwarfare their objectives and strategies and scrutinises the impact of cyberwarfare in a world dependent on connectivity **WAR, PEACE AND VICTORY: STRATEGY AND STATECRAFT FOR THE NEXT CENTURY** Colin S. Gray, 1991-06-15 From Simon Schuster War Peace and Victory is Colin S Gray s exploration of strategy and statecraft for the next century In War Peace and Victory Colin S Gray shows how geography technology history and national culture shape government policy and explains how nations pursue their strategic interests in times of peace **Common Security and Strategic Reform** Andrew Butfof, 2016-07-27 This is the first study of the strategic dimensions of common security which is set in a post Cold War context The book explores both common security and more recent additions to the debate such as the related idea of cooperative security Separate chapters deal with conceptual issues and pivotal aspects of the contemporary security agenda the amelioration of the security dilemma cooperative defence planning arms control and peace enforcement The book will interest anyone concerned with the reshaping of the international landscape The Law of Armed Conflict and the Use of Force Frauke Lachenmann, Rüdiger Wolfrum, 2017 This volume collects articles on the law of armed conflict and the use of force from the Max Planck Encyclopedia of Public International Law to facilitate easy access to content from the leading reference work in international law **Parameters** , 1994 *Schedule of Courses* Foreign Service Institute (U.S.), 1986 *Competitive Arms Control* John D. Maurer, 2022-01-01 The essential history of the Strategic Arms Limitation Talks SALT during the Nixon Administration How did Richard Nixon a president so determined to compete for strategic nuclear advantage over the Soviet Union become one of the most successful arms controllers of the Cold War Drawing on newly opened Cold War archives John D Maurer argues that a central purpose of arms control talks for American leaders was to channel nuclear competition toward areas of American advantage and not just international cooperation While previous accounts of the Strategic Arms Limitation Talks SALT have emphasized American cooperative motives Maurer highlights how Nixon National Security Advisor Henry Kissinger and Secretary of Defense Melvin Laird shaped negotiations balancing their own competitive interests with proponents of cooperation while still providing a coherent rationale to Congress Within the arms control agreements American leaders intended to continue deploying new weapons and the arms control restrictions as negotiated allowed the United States to sustain its global power contain communism and ultimately prevail in the Cold War Encyclopedia of Government and Politics Mary Hawkesworth, Maurice Kogan, 2013-11-07 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic

account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers The Palgrave Encyclopedia of Global Security Studies ,2023-02-15 This encyclopedia provides an authoritative guide intended for students of all levels of studies offering multidisciplinary insight and analysis of over 500 headwords covering the main concepts of Security and Non traditional Security and their relation to other scholarly fields and aspects of real world issues in the contemporary geopolitical world **The Denuclearisation of the Oceans** R. B. Byers,2022-12-15 In the 1980s concern throughout the world was growing about the use of the oceans by nuclear powered naval vessels and naval vessels carrying nuclear weapons Many countries were keen to keep their ports and the waters off their coastlines nuclear free Originally published in 1986 this book presents a worldwide survey of the state of the nuclear use of the oceans and assesses the prospects for denuclearisation at the time It looks at the legal background the practical issues and the attitudes and positions in different parts of the world while regional efforts of disarmament and arms control are necessary so are global efforts At the same time international legal norms including the Law of the Sea must be adopted and utilized in the ever difficult search for world peace Arvid Pardo **Gender and International Security** Laura Sjoberg,2009-10-16 This book defines the relationship between gender and international security analyzing and critiquing international security theory and practice from a gendered perspective Gender issues have an important place in the international security landscape but have been neglected both in the theory and practice of international security The passage and implementation of UN Security Council Resolution 1325 on Security Council operations the integration of gender concerns into peacekeeping the management of refugees post conflict disarmament and reintegration and protection for non combatants in times of war shows the increasing importance of gender sensitivity for actors on all fronts in global security This book aims to improve the quality and quantity of conversations between feminist security studies and security studies more generally in order to demonstrate the importance of gender analysis to the study of international security and to expand the feminist research program in Security Studies The chapters included in this book not only challenge the assumed irrelevance of gender they argue that gender is not a subsection of security studies to be compartmentalized or briefly considered as a side issue Rather the contributors argue that gender is conceptually empirically and normatively essential to studying international security They do so by critiquing and reconstructing key concepts of and theories in international security by looking for the increasingly complex

roles women play as security actors and by looking at various contemporary security issues through gendered lenses Together these chapters make the case that accurate rigorous and ethical scholarship of international security cannot be produced without taking account of women s presence in or the gendering of world politics This book will be of interest to all students of critical security studies gender studies and International Relations in general Laura Sjoberg is Assistant Professor of Political Science at the University of Florida She has a Phd in International Relations and Gender Studies from the University of Southern California and is the author of *Gender Justice and the Wars in Iraq* 2006 and with Caron Gentry *Mothers Monsters Whores Women s Violence in Global Politics* 2007
