Army And The New National Security Strategy:

The U.S. Army and the New National Security Strategy Lynn E. Davis, Jeremy Shapiro, Bruce Nardulli, Roger Cliff, Nora Bensahel, 2003-07-09 This book examines the Army's role in the war on terrorism the Army's homeland security needs the implications of increased emphasis on Asia the Army's role in coalition operations the unfinished business of jointness the lessons learned from operations and how to prepare for the future the Army's deployability logistical and personnel challenges and whether the Army can afford its Transformation These examinations are bracketed by an introduction a description of the Army's place in the new national security strategy and a summary of the authors conclusions Hungary Army, National Security and Defense Policy Handbook Volume 1 Strategic Information and Developments IBP. Inc., 2017-10-27 2011 Updated Reprint Updated Annually Hungary Army National Security and Defense Policy Handbook U.S. Army War College Guide to National Security Policy and Strategy J. Boone Bartholomees, 2001 The U.S. Army and the New National Security Strategy, 2003 The Army asked the RAND Arroyo Center in fall 2001 to look at the implications for the Army of the new national security strategy This was exactly the right question given the remarkable changes that are occurring in the world in terms of both advances in technologies and how the strategic environment is evolving What we decided was to draw together a group of RAND researchers who have been working over the past few years on a variety of issues for the Army and use their research as a springboard for answering this question The result is the chapters in this volume which span the broad range of subjects that will be on the Army's future agenda strategic operational programmatic and budgetary Each of the authors describes his or her view of the most critical issues facing the Army and then what the Army needs to do The substantive analysis in this report was completed in February 2003 as the international community was still debating its future policies toward Iraq what happens in Iraq will almost certainly add to the complexity of the strategic environment in which the U S Army will operate and could well bring more urgency to the changes that the authors of this report call on the Army to undertake Taken as a whole the report provides the Army with a perspective on its ongoing transformation and where it needs refinement In this way the report aims to engage the broader defense community in the debate over which forces and capabilities the Army needs to be able to serve the nation in the future as well as it has in the past The report should be of interest to anyone concerned about the future of the U S military in general and the U S Army in particular U.S. Army War College Guide to National Security Issues: National security policy and strategy J. Boone Bartholomees, 2008 The U S Army War College Guide USAWC to National Security Issues is the latest edition of the U S Army War College Guide to National Security Policy and Strategy which the college has published sporadically under different titles since 2001 This edition of the Guide is in two volumes that correspond roughly to the two core courses that the Department of National Security and Strategy DNSS teaches Theory of War and Strategy and National Security Policy and Strategy Page vii **Future Survey Annual 1992** Michael Marien, 1993-01-30 **Security Perception and Security**

Policy in Central Europe, 1989-2019 Tamás Csiki Varga, 2023-09-19 Central Europe may be perceived as a homogeneous subunit a geographic locale that shares similar cultural traits common histories and a linked troubled past and one that has embarked on a joint process of European integration in the past three decades A closer look reveals that there are significant differences hidden in the cracks and the states of Central Europe exhibit large variety in two key elements that makes regional cooperation uniquely challenging their strategic cultures and their relations toward Russia Two major factors determine a state s foreign policy and international ambition its perception of the security environment and the capabilities it possesses Policy experts provide an overview of how these two factors and by extension state level foreign policies have varied in the post Cold War era up until 2019 The contributing authors in this volume take a deep dive into nine Central and Eastern European states policies Austria Croatia the Czech Republic Hungary Poland Romania Slovakia Serbia and Ukraine The assessments provided in this book attempt to deconstruct the monolithic regional level approach through the methodical study of the states of the region This approach will be particularly useful for scholars and interested individuals who want to understand why and how individual Central European states participate in NATO and EU security and defence initiatives and policies This book was originally published as a special issue of Defense Security Analysis *Professional Journal of the United States Army* ,1993

The Strategic Defence and Security Review and the National Security Strategy Great Britain: Parliament: House of Commons: Defence Committee, 2011-08-03 This report notes mounting concern that UK Armed Forces may be falling below the minimum utility required to deliver the commitments that they are currently being tasked to carry out let alone the tasks they are likely to face between 2015 to 2020 when it is acknowledged that there will be capability gaps The Committee is concerned that UK Armed Forces will be continually operating at the maximum level envisaged by the Defence Planning Assumptions The Committee is not convinced that this aspiration can be achieved by co operation with our allies given the challenges of aligning political with operational needs The SDSR identified seven military tasks and the Defence Planning Assumptions that underpin them However the Review fails to show how decisions such as those on the Aircraft Carriers and Nimrod MRA4 will lead to the Armed Forces being able to undertake those military tasks The Committee has serious concerns over the realisation of what is called Future Force 2020 the Government s intended shape of the Armed Forces from 2020 particularly as the provision of the necessary resources is only a Government aspiration not Government policy The MoD must reform and ensure substantially improved transparency and control over its finance and budgetary practices When committing to undertake new operations the Government should state from the outset where that operation fits in the Defence Planning Assumptions and which of the military tasks it is meeting The Committee is concerned that the Government seems to have postponed the sensible aspiration of bringing commitments and resources into line in that it has taken on the new commitment of Libya while reducing the resources available to MoD

Holcomb, 2001 For more than 3 decades the U S Army War College USAWC Department of National Security and Strategy has faced the challenge of educating future strategic leaders on the subject of national security or grand strategy Fitting at the top of an officer s or government official s career long professional development program this challenge has been to design a course on strategy that incorporates its many facets in a short period of time all within the 1 year senior service college curriculum To do this a conceptual approach has provided the framework to think about strategy formulation The purpose of this volume is to present the USAWC strategy formulation model to students and practitioners This book serves as a guide to one method for the formulation analysis and study of strategy an approach which we have found to be useful in providing generations of strategists with the conceptual tools to think systematically strategically critically creatively and big Balancing what is described in the chapters as ends ways and means remains at the core of the Army War College s approach to national security and military strategy and strategy formulation
