Around Haslemere:

Around Haslemere & Hindhead From Old Photographs Tim Winter, Graham Collyer, 2009-10-15 This book provides a unique and enchanting look at the beauty of Haslemere and Hindhead through a collection of beautiful photographs

Around Haslemere Tim Winter, 2004 A history of Haslemere and Hindhead *Around Haslemere and Hindhead in Old Photographs* Tim Winter, Graham Collyer, 1991 *Fucking On Fridays* Clive Kristen, 2016-01-27 Dennis Loraine died in self imposed obscurity in South London During the last three decades of his life he slept with a revolver under his pillow Dennis s childhood in a Bristol orphanage gave him a thirst for success The University of Life however made him cabin boy code breaker and actor By his early thirties he had married four times and fathered a dozen children He maintained a lavish lifestyle by preying on older women He became a trusted friend of the famous and wanted to be like them With his partner screen idol and Oscar winner George Sanders he created the Company of Cads which was to become the driving force behind the greatest financial scandal of the 1960 s Celebrity investors who included world famous author Graham Greene and silent movie legend Charlie Chaplin had their careers compromised The Cads also took millions from the public purse When the company collapsed Dennis went underground as a US Secret Service mole and was instrumental in bringing to justice those behind the biggest counterfeiting operation in US history As a consequence of this and a possible attempt to embarrass a future Prime Minister the Cads scandal was whitewashed and none of the principals were brought to justice in the UK As Dennis Loraine s oldest son I am uniquely placed to tell his story The intention throughout is to excavate the truth and to reveal something of the world in which my father lived and moved Significant events are corroborated by solid documentary evidence **Sonic Circulations** Emily I. Dolan, Emily MacGregor, Arman Schwartz, 2025-08-05 The role music sound and voice played in modern knowledge production in the early twentieth century Derived from the Latin words circum round and ire to go a circuit can refer to any bounded area For contemporary readers it might evoke the course of an electric current as well as the flow of global capital Yet sound an inherently temporal phenomenon can only circulate in mediated forms Tracing the pathways through and by which sound traveled in the early twentieth century *Sonic Circulations* not only proposes a new account of the role of music sound and voice in modern knowledge production but also poses urgent questions about technology and empire while also foregrounding the tensions and paradoxes involved in situating the sonic within any fixed regime or system Exploring key moments in the development of disciplines including linguistics sociology and eugenics as well as musicology itself *Sonic Circulations* explores the many ways that sound has functioned as evidence and information as both an object and an agent of scientific mastery Contributors explore the processes by which sound has moved through a variety of conceptual as well as physical domains highlighting the richness of historical contingency This volume shows that circulation happened in many spaces and through many technologies through sound recording but also through the trade magazine and in the classroom through wireless broadcasting and international festivals but also in the cozy spaces of the

suburban home Featuring scholars working at the borders of musicology ethnomusicology sound studies and music theory this volume s ten chapters and two epilogues illuminate an alternative genealogy of modernism emphasizing the embeddedness of even the most abstract practices in the structures of imperial modernity Contributors Peter Asimov Andrea F Bohlman Harriet Boyd Bennett Alexander W Cowan Emily I Dolan John Gabriel Jonathan Hicks Alexandra Kieffer Gundula Kreuzer Deirdre Loughridge Emily MacGregor Giles Masters Arman Schwartz Danielle Simon John Tresch **Surrey** Ian Nairn, Nikolaus Pevsner, Bridget Cherry, 2002-01-01 Surrey s architecture is a constantly surprising mix of the rural and urban with many of its most important buildings such as the seventeenth century Ham House found amongst the outgrowth of London itself The landscape gardens of Painshill and Claremont attest to Surrey s popularity in the eighteenth century and the county s enthusiasm for follies and remarkable garden buildings More recent architecture includes notable early works by Lutyens with gardens by Gertrude Jekyll inspired by the rich stock of late medieval farmhouses and tile hung cottages in the county s southern villages Among interwar suburban housing there are some exceptional Modernist homes such as The Homewood by Patrick Gwynne Church architecture in Surrey includes work by all of the great names of the Gothic Revival not least of its surprises is the luminous and spacious interior of Guildford Cathedral **Foul Deeds & Suspicious Deaths Around Portsmouth** Sarah Quail, 2008-04-17 More than five hundred years of British true crime stories from mutinies and murders to duels and executions This collection of historical true crime tales includes more than twenty notorious episodes that range from medieval times to the modern era and offers a fascinating insight into criminal acts and the criminal mind Set in the vicinity of Portsmouth England these intriguing and shocking cases cover an extraordinary variety of misdeeds some motivated by brutal impulse or despair others by malice Most involve ill fated individuals who are only known to us because they were caught up in crime but more famous episodes appear as well such as the murder of the Duke of Buckingham and the disappearance of the Cold War frogman Buster Crabb Includes illustrations **The Hidden Houses of Virginia Woolf and Vanessa Bell** Vanessa Curtis, 2005 Looking at the hidden houses of both Virginia Woolf and Vanessa Bell in conjunction with their letters and diaries this book provides a glimpse into the upper middle class world of the time as well as providing a portrait of one of the most enduring and enigmatic writers of the 20th century **On the Trail of Flora Thompson** John Owen Smith, 1997 The author has turned detective In this book he discovers the true identities behind the pseudonyms which Flora Thompson employed within her writing to hide the identity of the people and places she encountered beyond Candleford Green Sir Arthur Conan Doyle and George Bernard Shaw were two among many eminent people who were regular customers in her post office at Grayshott unaware that the shy young lady sending their telegrams would one day rank alongside themselves on literary shelves But the lesser known characters also lend their own interest to the story Who was Mr Foreshaw the retired big game hunter with whom she had tea on Sunday afternoons And Richard Brownlow the young man who met her often then told her he could never marry her And Bob Pikesley who taught her how to

keep dry in a rainstorm And the bright eyed Alma Stedman who kept Flora from brooding And who was the unfortunate Mr Hertford her employer at Grayshott who eventually stabbed his wife to death shortly after Flora left the village These and other riddles are answered There is also a lost chapter of Flora s own work published here for the first time and the opportunity to follow literally in Flora s footsteps by taking the suggested trails through the Hampshire countryside she came to love so well
