Art And Act On Causes In History Manet Gropius Mondrian:

Art and Act Peter Gay, 1976 Art and Act Peter Gay, 1976 Originated as 7 lectures delivered at Cooper Union in Mar and April of 1974 **Art and act; on causes in history - Manet, Gropius, Mondrian** P. Gay, 1976 **A Realist Theory of Art History** Ian Verstegen, 2013 As the theoretical alignments within academia shift this book introduces a surprising variety of realism to abolish the old positivist theory dichotomy that has haunted Art History Demanding frankly the referential detachment of the objects under study the book proposes a stratified multi causal account of art history that addresses postmodern concerns while saving it from its errors of self refutation Building from the very basic distinction between intransitive being and transitive knowing objects can be affirmed as real while our knowledge of them is held to be fallible Several focused chapters address basic problems while introducing philosophical reflection into art history These include basic ontological distinctions between society and culture general and special history the discontinuity of cultural objects the importance of definition for special history scales facets and fiat objects as forms of historical structure the nature of evidence and proof historical truth and controversies Stressing Critical Realism as the stratified multi causal approach needed for productive research today in the academy this book creates the subject of the ontology of art history and sets aside a theoretical space for metaphysical reflection thus clarifying the usually muddy distinction between theory methodology and historiography in art history **Modernism** Peter Gay, 2007 In his most ambitious endeavour since Freud acclaimed cultural historian Peter Gay traces and explores the rise of Modernism in the arts the cultural movement that heralded and shaped the modern world dominating western high culture for over a century He traces the revolutionary path of modernism from its Parisian origins to its emergence as the dominant cultural movement in world capitals such as Berlin and New York presenting along the way a thrilling pageant of heretics that includes Oscar Wilde Pablo Picasso James Joyce Walter Gropius and Andy Warhol The result is a work unique in its breadth and brilliance Lavishly illustrated Modernism is a superb achievement by one of our greatest historians *Manet, 1832-1883* Édouard Manet, Françoise Cachin, Charles S. Moffett, Juliet Wilson-Bareau, Metropolitan Museum of Art (New York, N.Y.), 1983 A collection of Manet's paintings and drawings each with detailed notes plus several essays *Art History After Modernism* Hans Belting, 2003-08 Art history after modernism does not only mean that art looks different today it also means that our discourse on art has taken a different direction if it is safe to say it has taken a direction at all So begins Hans Belting's brilliant iconoclastic reconsideration of art and art history at the end of the millennium which builds upon his earlier and highly successful volume *The End of the History of Art* Known for his striking and original theories about the nature of art according to the Economist Belting here examines how art is made viewed and interpreted today Arguing that contemporary art has burst out of the frame that art history had built for it Belting calls for an entirely new approach to thinking and writing about art He moves effortlessly between contemporary issues the rise of global and minority art and its consequences for Western art history

installation and video art and the troubled institution of the art museum and questions central to art history's definition of itself such as the distinction between high and low culture art criticism versus art history and the invention of modernism in art history Forty eight black and white images illustrate the text perfectly reflecting the state of contemporary art With Art History after Modernism Belting retains his place as one of the most original thinkers working in the visual arts today

Railways and Culture in Britain Ian Carter,2001 The 19th century steam railway epitomized modernity's relentlessly onrushing advance Ian Carter delves into the cultural impact of the train Why for example did Britain possess no great railway novel He compares fiction and images by canonical British figures Turner Dickens Arnold Bennett with selected French and Russian competitors Tolstoy Zola Monet Manet He argues that while high cultural work on the British steam railway is thin British popular culture did not ignore it Detailed discussions of comic fiction crime fiction and cartoons reveal a popular fascination with railways tumbling from vast and hitherto unexplored stores of critically overlooked genres

Twentieth Century Music and the Question of Modernity Eduardo de la Fuente,2010-09-13 In the first decade of the twentieth century many composers rejected the principles of tonality and regular beat This signaled a dramatic challenge to the rationalist and linear conceptions of music that had existed in the West since the Renaissance The break with tonality Neo Classicism serialism chance minimalism and the return of the sacred in music are explored in this book for what they tell us about the condition of modernity Modernity is here treated as a complex social and cultural formation in which mythology narrative and the desire for re enchantment have not completely disappeared Through an analysis of Schoenberg Stravinsky Boulez and Cage the author shows that the twentieth century composer often adopted an artistic personality akin to Max Weber's religious types of the prophet and priest ascetic and mystic *Twentieth Century Music and the Question of Modernity* advances a cultural sociology of modernity and shows that twentieth century musical culture often involved the adoption of apocalyptic temporal narratives a commitment to musical revolution a desire to explore the limits of noise and sound and finally redemption through the rediscovery of tonality This book is essential reading for those interested in cultural sociology sociological theory music history and modernity modernism studies *Enlightenment, Passion, Modernity* Mark S.
