Art And Identity In The Roman World:

Art and Identity in the Roman World Eve D'Ambra, 1998 In this reappraisal of the art and architecture of ancient Rome Eve D'Ambra focuses on the personal social and cultural identity of its subjects The acquisition of art whether the purchase of copies of Greek statuary the construction of a sumptuous villa or the commissioning of a portrait head played a crucial role in Roman society in which displays of wealth and culture were necessary to gain and maintain power The question of identity is key to understanding the nature of the Roman Empire which seemed infinitely expandable at its peak welcomed foreigners to become Romans freed slaves to citizen status and allowed social mobility within a strictly hierarchical social order Art and Identity in the Roman World, 1998

Self-Presentation and Identity in the Roman World Andreas Gavrielatos, 2017-05-11 Questions on identity have been often the main focus of Classical Studies The starting point of this book is that identity is not a monolithic idea Instead of exploring what exactly identity is the contributors here examine how the concept of self presentation can facilitate our understanding of how individuals present their identities Moreover the interpretation of the means and character of this self presentation itself enables more general conclusions to be drawn Topics covered in this volume include identities shaped through the self presentation of authors in Latin literature and explorations on epigraphy and historical analyses Overall using the theme of self presentation the contributors offer a glimpse into various subjects and suggest new ways for students and scholars to approach the different forms of individual and communal identities

Understanding Integration in the Roman World, 2023-09-14 Integration is a buzzword in the 21st century However academics still do not agree on its meaning and above all on its consequences This book offers numerous examples showing that the inhabitants of the Roman Mediterranean were integrated i.e. were aware of the existence of a common framework of coexistence without this necessarily resulting in a process of cultural convergence For instance the Spanish poet Martial explicitly refused to be considered the brother of the Greek Charmentis 10.65 paradoxically while reaffirming their differences his satirical epigram confirms the existence of a common frame of reference that encompassed them both Understanding integration in the Roman world requires paying attention to the complex and varied responses to diversity in Roman times
