Art Across America South And The Midwest:

Art in Chicago Maggie Taft, Robert Cozzolino, 2018-10-10 For decades now the story of art in America has been dominated by New York It gets the majority of attention the stories of its schools and movements and masterpieces the stuff of pop culture legend Chicago on the other hand well people here just get on with the work of making art Now that art is getting its due Art in Chicago is a magisterial account of the long history of Chicago art from the rupture of the Great Fire in 1871 to the present Manierre Dawson L szl Moholy Nagy and Ivan Albright to Chris Ware Anne Wilson and Theaster Gates The first single volume history of art and artists in Chicago the book in recognition of the complexity of the story it tells doesn't follow a single continuous trajectory Rather it presents an overlapping sequence of interrelated narratives that together tell a full and nuanced yet wholly accessible history of visual art in the city From the temptingly blank canvas left by the Fire we loop back to the 1830s and on up through the 1860s tracing the beginnings of the city's institutional and professional art world and community From there we travel in chronological order through the decades to the present Familiar developments such as the founding of the Art Institute the Armory Show and the arrival of the Bauhaus are given a fresh look while less well known aspects of the story like the contributions of African American artists dating back to the 1860s or the long history of activist art finally get suitable recognition The six chapters each written by an expert in the period brilliantly mix narrative and image weaving in oral histories from artists and critics reflecting on their work in the city and setting new movements and key works in historical context The final chapter comprised of interviews and conversations with contemporary artists brings the story up to the present offering a look at the vibrant art being created in the city now and addressing ongoing debates about what it means to identify as or resist identifying as a Chicago artist today The result is an unprecedentedly inclusive and rich tapestry one that reveals Chicago art in all its variety and vigor and one that will surprise and enlighten even the most dedicated fan of the city's artistic heritage Part of the Terra Foundation for American Art's year long Art Design Chicago initiative which will bring major arts events to venues throughout Chicago in 2018 Art in Chicago is a landmark publication a book that will be the standard account of Chicago art for decades to come No art fan regardless of their city will want to miss it

Ceramics of Ancient America Yumi Park Huntington, Dean E. Arnold, Johanna Minich, 2018-09-12. This is the first volume to bring together archaeology, anthropology, and art history in the analysis of pre-Columbian pottery. While previous research on ceramic artifacts has been divided by these three disciplines, this volume shows how integrating these approaches provides new understandings of many different aspects of Ancient American societies. Contributors from a variety of backgrounds in these fields explore what ceramics can reveal about ancient social dynamics, trade, ritual, politics, innovation, iconography, and regional styles. Essays identify supernatural and humanistic beliefs through formal analysis of Lower Mississippi Valley Great Serpent effigy vessels and Ecuadorian depictions of the human figure. They discuss the cultural identity conveyed by imagery such as Andean head motifs and they analyze symmetry in designs from locations including the American Southwest. Chapters also take diachronic approaches, methods that track change over time to ceramics from Mexico's Tarascan State and the Valley of Oaxaca, as well as from Maya and Toltec societies. This volume provides a much-needed multidisciplinary synthesis of current scholarship on Ancient American ceramics. It is a model of how different research perspectives can together illuminate the relationship between these material artifacts and their broader human culture. Contributors: Dean Arnold, George J. Bey III, Michael Carrasco, David Dye, James Farmer, Gary Feinman, Amy Hirshman, Yumi Park Huntington, Johanna Minich, Shelia Pozorski, and Thomas Pozorski. Jeff Price, Sarah Scher, Dorothy Washburn, Robert F. Wald.

Indian Art of the Americas at the Art Institute of Chicago Richard F. Townsend, 2016-06-28. A stunning survey of the indigenous art, architecture, and spiritual beliefs of the Americas from the Precolumbian era to the 20th century. This landmark publication catalogues the Art Institute of Chicago's outstanding collection of Indian art of the Americas, one of the foremost of its kind in the United States. Showcasing a host of previously unpublished objects dating from the Precolumbian era to the 20th century, the book marks the first time these holdings have been comprehensively documented. Richard Townsend and Elizabeth Pope weave an overarching narrative that ranges from the Midwestern United States to the Yucatán Peninsula to the heart of South America. While exploring artists' myriad economic, historical, linguistic, and social backgrounds, the authors demonstrate that they shared both a deep underlying cosmological view and the desire to secure their communities' prosperity by affirming connections to the sacred forces of the natural world. The critical essays focus on topics that bridge traditions across North Central and South America, including materials, methods of manufacture, the diversity of stylistic features, and the iconography and functions of various objects. Gorgeously illustrated in color with more than 500 vibrant images, this handsome catalogue serves as the definitive survey of an unparalleled collection. **American**
