Committee on Veterans' Affairs,     The Country House in English Renaissance Poetry William Alexander McClung, 2023-11-15 The Country House in English Renaissance Poetry explores a unique literary genre that emerged during the seventeenth century celebrating the ideals of the English manor estate while critiquing the societal shifts that threatened its values These poems written by figures such as Ben Jonson Andrew Marvell Robert Herrick and Thomas Carew praise the virtues of traditional manorial life hospitality responsibility and order set against the backdrop of expansive and ostentatious estates built by political elites of the Elizabethan and Jacobean periods By juxtaposing the modest yet harmonious homes of families like the Sidneys of Penshurst against the grandiose mansions of newly affluent courtiers these works reflect a nostalgia for a simpler more virtuous era tied to a hierarchical and agrarian ideal The book examines the classical and social influences on the genre tracing its roots to Roman poets like Martial and its connections to the myth of the Golden Age It also delves into the architectural and societal contexts of the period demonstrating how poets critiqued modern extravagance and upheld the moral prestige of country living Through a detailed analysis of seminal works the study reveals how these poets used the country house as both a symbol of cultural stability and a stage for their critiques of contemporary life blending aesthetic appreciation with social commentary The genre deeply intertwined with notions of labor productivity and divine order serves as a lens through which to view the changing dynamics of seventeenth century England This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1977     **Canada's Rural Majority** R.W. **Moving Rooms** John Harris, 2007-01-01 Since at least Tudor times there have been architectural salvages panelling chimney pieces doorways or any fixtures and fittings might be removed from an old interior to be replaced by more fashionable ones Not surprisingly a trade developed and architects builders masons and sculptors sought out these salvages By 1820 there was a growing profession of brokers and dealers in London and a century later antique shops were

commonplace throughout England This fascinating book documents the break up sale and re use of salvages in Britain and America where the fashion for so called Period Rooms became a mainstay of the transatlantic trade Much appreciated by museum visitors period rooms have become something of a scholarly embarrassment as research reveals that many were assembled from a variety of sources One American embraced the trade as no other the larger than life William Randolph Hearst who purchased tens of thousands of architectural salvages between 1900 and 1935 *Canada and the British Immigrant* Emily P.
