Courage: The Heart of Leadership Annabel Beerel,2025-03-04 Courage lies at the heart of leadership Leaders need courage to make wise decisions not self interested ones They need to be able to set aside their egos to feel vulnerable to face challenges yet remain principled and hold the course This book presents many suggestions on how to make a real difference in organizations and explains how one can develop the courage to be an effective leader step by step The book is designed to give leaders the self awareness and the tools to overcome the obstacles that prevent us from leading effectively Leadership requires working through the systemic barriers that serve as forcefields pulling and pushing us in various directions Drawing on interviews with over 20 organizational leaders in a variety of industries the book helps leaders to address key areas that are rarely discussed the personal baggage attached to authority self esteem and self differentiation ego management and the terror of the group It highlights with examples how fear impairs our ability to make good decisions and how our tendency to reactivity and the quick fix vitiates our attempts at being courageous The hallmark of courage is the ability to have courageous conversations that invite transformation The book is ideal reading for organizational leaders who are seeking ways to break through some of the personal and systemic barriers to leading with purpose in a way that makes a real difference

Before They Were Titans Elizabeth Cheres Allen,2019-08-28 Dostoevsky and Tolstoy are the titans of Russian literature As mature artists they led very different lives and wrote vastly different works but their early lives and

writings display provocative kinships while also indicating the divergent paths the two authors would take en route to literary greatness The ten new critical essays here written by leading specialists in nineteenth century Russian literature give fresh sophisticated readings to works from the first decade of the literary life of each Russian author for Dostoevsky the 1840s for Tolstoy the 1850s Collectively these essays yield composite portraits of these two artists as young men finding their literary way At the same time they show how the early works merit appreciation for themselves before their authors were Titans

Mansfield,2006-01-01 In the wake of the monstrous projects of Hitler Stalin Mao and others in the twentieth century the idea of utopia has been discredited Yet historian Jay Winter suggests alongside the major utopians who murdered millions in their attempts to transform the world were disparate groups of people trying in their own separate ways to imagine a radically better world This original book focuses on some of the twentieth century s minor utopias whose stories overshadowed by the horrors of the Holocaust and the Gulag suggest that the future need not be as catastrophic as the past The book is organized around six key moments when utopian ideas and projects flourished in Europe 1900 the Paris World s Fair 1919 the Paris Peace Conference 1937 the Paris exhibition celebrating science and light 1948 the Universal Declaration of Human Rights 1968 moral indictments and student revolt and 1992 the emergence of visions of global citizenship Winter considers the dreamers and the nature of their dreams as well as their connections to one another and to the history of utopian thought By restoring minor utopias to their rightful place in the recent past Winter fills an important gap in the history of social thought and action in the twentieth century **The Paradox of Authenticity** Eric E. Hall,2015-08-11 In this book Eric E Hall takes

up the question of the meaning of a vigorously used concept in the liberal west authenticity and the pursuit of personal originality By uncovering this idea s uses within three deepening contexts the ethical the ontological and the theological the author unfolds authenticity s origins and implications To the degree that authenticity seeks in all contexts freedom from social horizons the conclusion renders attempts to embody this ideal secularly impossible The goal requires a total

transcendence that only the divine could fulfill Human authenticity thus emerges in creatively imitating God's self-sacrificial expression on the cross which both transcends and revalues the horizons of this world The Cambridge Companion to Tolstoy Donna Tussing Orwin, 2002-09-19 Best known for his great novels War and Peace and Anna Karenina Tolstoy remains one of the most important nineteenth-century writers throughout his career which spanned nearly three quarters of a century he wrote fiction journalistic essays and educational textbooks The specially commissioned essays in The Cambridge Companion to Tolstoy do justice to the sheer volume of Tolstoy's writing Key dimensions of his writing and life are explored in essays focusing on his relationship to popular writing the issue of gender and sexuality in his fiction and his aesthetics The introduction provides a brief unified account of the man for whom his art was only one activity among many The volume is well supported by supplementary material including a detailed guide to further reading and a chronology of Tolstoy's life the most comprehensive compiled in English to date Altogether the volume provides an invaluable resource for students and scholars alike

Daniel Cohen,2017-01-31 MIND BODY SPIRIT We have all had moments when a death a near miss or a sudden change of luck jolts us into a different perspective In these instants we intuitively know the essence of a life well lived we know what matters yet we rarely act on these flashes of insight Instead they quickly fade Sometimes all it takes is a phone call or text message and we re back to our everyday problems and distractions What stands in the way of our ability to create the insight we need and act on it every day The same distractions that have always plagued human beings the pressure to make a living the stress of dealing with other people the burden of expectations and the swiftness of time To rise above these distractions and tap into the best version of yourself you need to unpack the details that make up your daily existence You need to hold them up to the light

reconsider them and decide what to keep what to lose and what to do differently
