## **Covenant Over Middle Eastern Waters:**

*Covenant Over Middle Eastern Waters* Joyce Starr, 1995 Reveals the global implications and social political and spiritual dimensions of the Middle East water crisis      *Water Politics in the Middle East* M. Dolatyar, T. Gray, 1999-09-21 Most studies of water scarcity in the Middle East conclude that there is a significant risk of imminent conflict even warfare between states in the region This book demonstrates that the evidence does not support this doom laden prediction Indeed the authors show that although water scarcity has occasionally played a role in disputes in the Middle East it has much more often promoted co existence between adversaries The reasoning behind this hypothesis is that water is too critical to be put at risk by warfare      *Managing Water Conflict* Ashok Swain, 2004-06-01 Countries are meeting increasing water demand by building reservoirs and by diverting water from one area to another When the water belongs to an international river system these measures lead to riparian conflicts However water scarcity not only brings conflict to these regions but also plays its part in building cooperation In several international river basins in Asia Africa and the Middle East competing and disputing riparian countries are now moving towards a co operative sharing arrangement The signs of agreements on water sharing may be easy but the real problem is how to keep these arrangements on track Such agreements can positively contribute to peace and cooperation by addressing future needs making sustainable decisions and being progressive in their management *Managing Water Conflict* looks at these current stresses and likely future scenarios for this vitally important subject

**Cooperating Rivals** Jeffrey K. Sosland, 2012-02-01 This book examines the politics of water scarcity in the Middle East s Jordan River Basin Syria Lebanon Jordan Israel and the Palestinian Authority between 1920 and 2006 Jeffrey K Sosland demonstrates that while water scarcity might generate political tension it does not by itself precipitate war nor is it likely to do so At the same time efforts to promote water cooperation such as those initiated by the United States have an identifiable political benefit by creating rules building confidence and reducing tensions among adversaries Sosland concludes that while this alone might not resolve the overall conflict it does create positive long term value in achieving peace      *The Greening of Sovereignty in World Politics* Karen Litfin, 1998 This is the first book to connect two important subfields in international relations global environmental politics and the study of sovereignty the state s exclusive authority within its territorial boundaries The authors argue that the relationship between environmental practices and sovereignty is by no means straightforward and in fact elucidates some of the core issues and challenges in world politics today Although a number of international relations scholars have assumed that transnational environmental organizations and institutions are eroding sovereignty this book makes the case that ecological integrity and state sovereignty are not necessarily in opposition It shows that the norms of sovereignty are now shifting in the face of attempts to cope with ecological destruction but that this greening of sovereignty is an uneven variegated and highly contested process By establishing that sovereignty is a socially constructed institution that varies according to time and place with multiple meanings and changing practices *The Greening*

of Sovereignty in World Politics illuminates the complexity of the relationship between sovereignty and environmental matters and casts both in a new light Contributors Daniel Deudney Margaret Scully Granzeier Joseph Henri Jupille Sheldon Kamieniecki Thom Kuehls Ronnie D Lipschutz Karen T Litfin Marian A L Miller Ronald B Mitchell Paul Wapner Veronica Ward Franke Wilmer

**Turkish Foreign Policy in Post Cold War Era** İdris Bal,2004 With the end of Cold War discipline the world has entered a new era Parameters have changed new handicaps as well as new opportunities have been created for countries Turkey as a neighbor of former USSR a member of NATO and located at the center of a sensitive region covered by Caucasus Balkans and Middle East has been affected by the end of Cold War radically Turkey has lost some of her bargaining cards in the new era and therefore has needed new arguments This need encouraged Turkey to take active steps in Post Cold War era This book analyzes Turkey s relations with US EU Balkans Middle East Caucasus Central Asia Russia China and Japan At the same time effects of economic crises and domestic developments on foreign policy Turkish model in Turkish foreign policy water conflict and Kurdish problem are analyzed as well To conclude it is possible to argue that although Turkey lost some of her bargaining cards in Post Cold War era new developments pushed Turkey to the center of world politics rather than to periphery Contributors Meliha Benli Altunisik Deniz Ike Aribogan H seyin Bagci Idris Bal Zeyno Baran Fulya Kip Barnard Erol Bulut Ibrahim S Canbolat Saziye Gazioglu Ramazan G zen Saban Kardas H B lent Olcay Cengiz Okman Henry E Paniev Victor Panin Dirk Roctus Faruk S nmezoglu G l Turan Ilter Turan Mustafa T rkes Nasuh Uslu

**Studies in Military Geography and Geology** Douglas R. Caldwell,Judy Ehlen,Russell S. Harmon,2007-11-04 This book contains a selection of papers from the International Military Geology and Geography Conference held at the U S Military Academy West Point New York in June 2003 Studies in Military Geography and Geology expands a series of recent publications originating from conferences and symposia on military geology that began in 1994 The 25 contributions address a broad range of military topics ranging from the strategic perspective through analyses of historical battles at the operational and tactical levels to the use of advanced technologies applied to present day military problems

Water, Power and Politics in the Middle East Jan Selby,2003-10-24 This original analysis of the Middle

East water problems highlights questions and issues which have so far only received minimal attention The author develops a multi layered account of the nature and causes of the conflict and the Palestinian water crisis Each chapter addresses a particular aspect of the Israeli Palestine water conflict and the author uses these to illustrate both the broader nature of Israeli Palestinian relations and factors that the existing water literature underplays or simply gets wrong The book should interest students scholars and practitioners in a wide range of disciplines including Middle East studies politics and international relations water policy geography environmental studies and environmental management
