The War Conspiracy Peter Dale Scott, 2013-09-01 Peter Dale Scott examines the many ways in which war policy has been driven by accidents and other events in the field in some cases despite moves toward peace that were directed by presidents This book explores the deep politics that exerts a profound but too little understood effect on national policy outside the control of traditional democratic processes An important analysis into the causes of war and the long lasting effects that major events in American history can have on foreign and military policies The War Conspiracy is a must read book for students of American history and foreign policy and anyone interested in the ways that domestic tragedies can be used to manipulate the country s direction First published in 1972 this edition of The War Conspiracy is fully updated for the twenty first century and includes two lengthy additional essays one on the transition in Vietnam policy in the wake of the Kennedy assassination and the other discussing the many parallels between that 1963 event and the attacks of 9 11

Towers of Deception Barrie Zwicker,2006-09-01 A dozen carefully researched books have exposed the official story of 9 11 to be a terror fraud Yet the mainstream media have monolithically failed to ask elementary questions about anomalies in this story So called alternative media have been little better Towers of Deception explains why and prescribes actions to break out the truth Authored by a lifelong journalist who was for thirty five years a media critic Towers of Deception provides twenty six exhibits of evidence proving beyond a reasonable doubt that 9 11 was an inside job It then presents case histories of de facto censorship by mainstream media and examines the psychological phenomenon of denial False flag operations and psychological warfare are dealt with in detail as is the invisible government the powers pulling strings behind the scenes Following a profile of Dr David Ray Griffin as an authentic prophet of the 9 11 truth movement Towers of Deception urges people to speak truth to power and challenge all media Interspersed with photographs diary entries and inspiring profiles of those who see 9 11 truth as the Achilles heel of the neocon agenda Towers of Deception includes a professional quality DVD produced by the author The Great Conspiracy The 9 11 News Special You Never Saw **Disconnecting the Dots** Kevin Fenton,2011-06-01 Questioning actions taken by American intelligence agencies prior to 9 11 this investigation charges that

intelligence officials repeatedly and deliberately withheld information from the FBI thereby allowing hijackers to attack the World Trade Center and the Pentagon Pinpointing individuals associated with Alec Station the CIA s Osama bin Laden unit as primarily responsible for many of the intelligence failures this account analyzes the circumstances in which critical intelligence information was kept from FBI investigators in the wider context of the CIA s operations against al Qaeda concluding that the information was intentionally omitted in order to allow an al Qaeda attack to go forward against the United States The book also looks at the findings of the four main 9 11 investigations claiming they omitted key facts and were blind to the purposefulness of the wrongdoing they investigated Additionally it asserts that Alec Station s chief was involved in key post 9 11 events and further intelligence failures including the failure to capture Osama bin Laden at Tora Bora and the CIA s rendition and torture program

The Lincoln Assassination Conspiracy Trial and Its Legacy

Frederick Hatch,2014-12-24 The eight people charged with conspiring to assassinate President Abraham Lincoln were tried by a military commission under military law The author contends that this was illegal since the civilian legal system was fully functioning The many ways in which the defendants rights were violated are described as are the ways in which the trial testimony was either not accurate or not legally obtained The trial is also compared with other incidents in which the U S military was used in police and judicial functions with questionable results The book is a warning against unchecked power by the executive branch of the government

Cover Up Peter Lance,2009-03-17 Ever since 9 11 investigative reporter Peter Lance has been leading the fight to expose the intelligence gaps that led to 9 11 Now in the follow up to his bestselling 1000 Years for Revenge he returns with devastating new evidence that the government has been covering up its own counterterror failures since the mid 1990s and continues today In Cover Up Lance shows how the government chose again and again to sacrifice America s national security for personal motives and political convenience In its first half he unveils shattering new evidence that terror mastermind Ramzi Yousef ordered the bombing of TWA 800 from his prison cell in order to effect a mistrial in his own terror bombing case Astonishingly the FBI was alerted to Yousef s plans in advance by a prison informant who even passed along his detailed sketch of a bomb trigger device a document seen here for the first time And Lance reveals the shocking reason the Justice

Department suddenly ruled the crash an accident despite overwhelming evidence of the bombing throwing away its best chance to penetrate the cell that was already planning 9 11 And the outrage doesn't stop there In Part II Lance offers an unofficial minority report on the 9 11 Commission critiquing it as the incomplete highly politicized Warren Commission of our time He explores potential conflicts of interest among its members from the staff director who wrote a book with Condoleezza Rice to the former Clinton deputy attorney general who participated in a critical meeting that upended the TWA probe He exposes the report's false contention that the 9 11 plan was conceived in 1996 when the FBI had knowledge that the plot was in motion as early as 1994 And in a heart stopping minute by minute chronicle of the attacks he asks dozens of unanswered questions about the defense failures of that day from why fighter jets weren't scrambled for almost an hour after the hijackings to why the president and several of his top military advisers remained virtually incommunicado for more than half an hour after it was clear that America was under attack At a time when America feels no safer than ever Cover Up will lend new eyes to readers who want the full story behind the 9 11 attacks and inspire us all to keep demanding the truth

Liberty Means Freedom for All Steven H. Propp, 2012-11 Thomas Anderson has just graduated from CSU Stentoria with his degree in Political Science It's an election year and as a young progressive in California who has been raised by equally progressive parents he is very much concerned with the political issues currently being discussed in the mass media A chance encounter with a fellow graduate named Kelly Kelso however shakes up his settled view of the world He is challenged to examine the rising number of alternatives to the two party system presented by third party movements such as the Libertarian Party and the Green Party and is forced to acknowledge that there is far more to politics than simply Democrat versus Republican and liberal versus conservative Thomas delves energetically into not only the growing Libertarian movement but the free market perspective of the Austrian School of economics as well as the rigid yet compelling view of Ayn Rand's philosophy of Objectivism His explorations grow wider now encompassing the Tea Party movement and the Christian Right tax resisters and gun rights advocates survivalists and militia members anarchists communists and Democratic Socialists as well as the Occupy Wall Street movement He debates the radical environmental views of animal welfare and animal rights advocates and challenges opponents of corporate globalism as well as deniers of global warming as he struggles to reformulate and articulate his own developing beliefs while coping with a sea of conflicting ideas and opposition But this abstract political theory is brought into sharp encounter with concrete political reality when Thomas hears a news report of an armed conflict with authorities taking place just outside of town involving someone with whom he has become emotionally involved

The Rough Guide To Conspiracy Theories James McConnachie, Robin Tudge, 2008-09 This guide questions conspiracies from phony crucifixions to fake moon landings stolen elections to manufactured viruses Included are famous conspiracy theories such as the cause of Princess Diana's death the Eiffel Tower as a German Zeppelin mooring ground and what really happened on 9 11

The American Deep State Peter Dale Scott, 2017-05-02 Now in a new

edition updated through the unprecedented 2016 presidential election this provocative book makes a compelling case for a hidden deep state that influences and often opposes official U S policies Prominent political analyst Peter Dale Scott begins by tracing America s increasing militarization restrictions on constitutional rights and income disparity since World War II With the start of the Cold War he argues the U S government changed immensely in both function and scope from protecting and nurturing a relatively isolated country to assuming ever greater responsibility for controlling world politics in the name of freedom and democracy This has resulted in both secretive new institutions and a slow but radical change in the American state itself He argues that central to this historic reversal were seismic national events ranging from the assassination of President Kennedy to 9 11 Scott marshals compelling evidence that the deep state is now partly institutionalized in non accountable intelligence agencies like the CIA and NSA but it also extends its reach to private corporations like Booz Allen Hamilton and SAIC to which 70 percent of intelligence budgets are outsourced Behind these public and private institutions is the influence of Wall Street bankers and lawyers allied with international oil companies beyond the reach of domestic law Undoubtedly the political consensus about America s global role has evolved but if we want to restore the country s traditional constitutional framework it is important to see the role of particular cabals such as the Project for the New American Century and how they have repeatedly used the secret powers and network of Continuity of Government COG planning to implement change Yet the author sees the deep state polarized between an establishment and a counter establishment in a chaotic situation that may actually prove more hopeful for U S democracy *Media on the Move* Daya Kishan Thussu, 2006-10-31 Transnational in perspectives and in themes Provides extensive and up to date empirical data on media globalization as well as innovative theoretical perspectives from some of the leading figures in the field Comprehensive analysis of the phenomenon of media contra flow Multi media approach with case studies covering various genres of the media news cinema television drama animation and on line media
